"Don't Fear Poverty"  
Preacher, Telling  
Select Male.

## HUMBLE START

Pick Partner on Same  
and Eschew Other  
He Urges Both Sex

(International News Service)  
WATERTOWN, N. Y., Nov. 21.—  
"Marry in your own class to  
insure married happiness."  
That is the advice offered  
the Rev. Dr. George F. B...  
tor of the Asbury Metho...  
pal church of this city and  
the best known division of  
nomination in New York  
America can eradicate the  
evil by observing three things  
clergyman declares.

"My first suggestion is to  
poverty," he says. "Too many  
young people think it is wrong  
them to start in where they  
left off. It is not necessary to  
start in on your married life  
four or five well-furnished  
Turkish rugs on the floor. It  
be better for a good marriage  
start in with a rag on the floor,  
cook stove and a few chairs,  
up their own home through  
work.

Wed Own Kind.  
"My second suggestion is to  
your own kind. Do not  
side of your own class, and  
I know there are examples  
it has worked out all right,  
will follow the majority and  
through to the end you will  
in the long run it is better  
your own kind.

"Marry on about the same  
where you are. Girls, be  
that the boys that are at  
some other church in some  
city, are better than those  
you are now associated with.  
I think that the girls who  
where are any sweeter than  
than those to be found in  
class.

Single State.  
"Third, give what you  
you expect of your wife  
not bring to her a burden  
stained. A woman wants  
else undivided love, and  
that the way to marry  
through his stomach  
is a common expense.

"But you cannot marry  
a woman's heart by money.  
cannot bring home a man  
the close of the day, and  
on the stand and let her  
cannot make your wife  
ing her trinkets. Be  
but what she wants is  
divided affection."
