All things come to those who wait—the night cop has resigned his job.

THE VILLAGE RHYMESTER by Carlyle Emery

Dear Folks:

It is evening after dinner, and I sit alone and write to the sounds which are proclaiming the advancement of a night. There's a sound of entertainment from the folks who live below, now I hear them in the hallway starting out to see a show.

There's the quiet of the city which it seems that you can hear when the lights upon the highway start to flicker and appear. Now the wind begins to whistle, and it sings a different tune from the one that I remember when I went to lunch at noon.

Soon the parties will be over and the papers laid aside, and the millions will retire. Some there'll be well satisfied with the day which has departed, and there're some who'll close their eyes knowing well that sleep will never bring them rest before they rise.

The night is made for slumber, they must twist and toss and turn, for the day which has left them brought an anguish that will burn, and will keep them ever restless 'till there comes a time of light that will show them better judgment.

YE ED. IS CALLED

Having been associated with small town guys all of our life we occasionally use hicktown grammar. Two young lady school teachers were callers at our sanctum one day last week and in order to be friendly we asked them in our native, tongue: "How'n heck are you-uns today?" They both spoke up and said, "That ain't proper grammar." We felt so little about it that we crawled under the press and slept all aft.

Many Have Appendicitis Don't Know It

The fire department was called last night by the flashing of the lights in the Benson school building. Persons in the vicinity of the school noticed that the lights in the school building flashed on and off intermittently for several hours.

At first little attention was paid to the flashing of the lights but as it was repeated frequently for several hours, it was decided that an investigation should be made, and someone called the fire department.

The fire boys responded and went through the building trying to find the trouble. They pulled the main switch supplying current to the building and stopped the flashing and then called Jess Hicks of The California Oregon Power Company, who found a short circuit on the transformer pole near the school building. A wire above the two wires supplying current to the building, had slipped from its insulator and was swinging in the wind, it would frequently cross a 2500-volt line, which would cause a flash in the school building.

The loose wire was fastened back in place and the trouble ended. It is believed that the short circuit has been largely responsible for some of the disturbances that have been troubling radio fans in the northern part of the city for the past few days.

Buttermilk and Cream—Simple Remedies Best—Keeps Face, Hands and Arms in Exquisite Condition—Soft, Smooth and Beautiful.

The old-time application of Buttermilk and Cream to whiten and protect the skin and remove harsh little wrinkles and ugly sallowness is grandmother's recipe and women throughout the country are again using it to ensure a beautiful complexion and snow-white hands and arms.

Buttermilk, however, is not always obtainable, but a specialist has at last perfected a method of concentrating buttermilk and combining it with a perfect cream, which you can buy in small quantities ready to use at any first class drug store by simply asking for "Howard's" Buttermilk Cream.

There is no secret about it nor is there any doubt about the result—it's just a common ordinary buttermilk in the form of a wonderful cream. That's all. Howard's Buttermilk Cream gently massaged with the finger tips around the corners of the eyes and mouth.

To get the best effect, follow the simple directions and guarantee a noticeable improvement after the first application and refund the money.
