GUN CLUB MEETS

The Roseburg Rod and Gun club meets tonight at the Palace of Sweets to hold their regular annual election. A banquer is to precede the business session and will start promptly at seven o'clock. Arrangements have been made to accommodate the full membership of the club and it is expected that the full roster will be on hand.

The various offices in the club are being hotly contested this year and much interest has been aroused in the election. Throughout the banquet there will be a number of good talks, by prominent members. Carl B. Neal. by prominent members. Carl B. Neal, will make a short talk on the situation of the National Forest at the present time and Guy Cordon has been scheduled to speak on the general work of the organization. B. W. Cooney is also listed to appear on the program with a speech. He will also exhibit a two-reel motion picture having to do with the preservation of the remnants of the great bands of Elk that once inhabited this section of the that once inhabited this section of the country. Mr. Cooney promises that this pleture will be of special interest to all followers of true sport and will explain the picture as he proceeds with the exhibition . Other business matters in addition

to the election of officers is to be takcare of and those in charge urge

PENDLETON MAN

(Associated Press Leased Wire.)
BROADACRES, Ore., Feb. 8.
George Pendleton, a local farmer, was instantly killed today when an auto he was driving was hit by a south-bound Oregon electric car at the crossing just north of town. The auto was hurled clear of the tracks, catapulting Pendleton to the side of the right of way. The machine burst into flames. The coroner of Marion county took charge of the body and sald he would hold an inquest.

Pendleton was bern in this vicin tity. He is survived by a widow and three children.

In state's forgery.

ary 31, and when the spirit of Ashton's grandfather was supposed to appear, the "Apparition" proved to be Mrs. Aber.

The Rev. Mr. Aber denied the charges, declaring that Ashton's friends had seized a woman who was present at the seance.

Portland Saves 8000 German Babies

Portland people in two weeks subscribed \$24,000 toward relief for German shildren, who are included in the millions in Germany who face starvation be cause, as Herbert Hoover ex-pressed it, of the economic breakdown, following the world

As the American committee for relief of German children has shown it costs two cents per meal to feed a child one hot meal daily in Germany. This means that the people of Port-land have saved 8000 children

for 150 days.
"We never fought children." said Major-General Allen, head of the nation-wide relief cam-paign, and the people are show-ing they support his declaration. The state-wide campaign for this relief work is getting nicely un-der way, too, with a good re-sponse from the people every-

Noted Army Chaplain Pleads for Babies

Rev. Dr. John W. Beard, pastor of the Mount Tabor Presbyof Portland post of the American Legion and chaplain of one of the companies of the famous 91st Division everseas, is a strong champion of the cumpaign to save German children from starvation and never loses an opportunity to say something

"We fought and conquered the "We fought and conquered the German militarists," said the noted chaplain, "but, as Major-General Segry T. Alies, commander of the American treeps on the Rhine during the occupation, mid, "We never fought children." We helped win the war as such, but, as whom we war as such, but, as when we bound up his wounds if cap-tured, we now shall bind up the terrible wounds inflicted by war's awful fury against these little cases who suffer so. Let's help feed them, by all means."

Its all here and its all true, Rose-arg News-Review.

What the World Is Doing

Germs to Help Run Engines

Methane, one of the gases used for mo tor fuel, is being produced in commercial quantities in India with the aid of germs that convert a mixture of sewer sludge and sawdust into various compounds of which the gas forms an important part. The tiny creatures are cultivated in airtight tanks kept at a warm temperature They multiply rapidly and by working or the mixture produce acetic acid and carbon gas as well as methane. Marsh gas, frequently found in stagnant pools, is largely the result of their presence and causes decay and fermentation of vegetable matter. Banana stems and skins have been found to yield as much as \$1 per cent memory certain kinds of germs, per cent methane when acted upon by

by Producing Gas Fuel

Raised Chair for Children Fits Theater Seats

Shaped to fit snugly into a theater chair a raised seat for children has been conicted, enabling the child to look at the performance without standing up or

dimbine upon its mother's lap. The fron side of the lower frame is extended so that it provides a foot rest, and the top is wide enough to allow the small occupant to curl up when reclining. The contrivance is easily adjusted or removed by as usher and does not mar the theater seat.

"Sand Shoes" of Wire End Strain of Travel

f stiff wire, and large soles of the boots to which they are strapped, "and shoes" are used by the military forces is Syris, in making long marches over the shifting deserts. These meshed foot protectors distribute the weight over a greater area and give the wearer a better purchase in walking, thus doing away with much fatigue and stain.
They operate on the principle of the snowshoe of the cold regions.

Radio "Dot" Spans Ocean at Speed of Light

Recent experiments show that radio nessages can be acknowledged and checked almost simultaneously with the sending. The tests were conducted over the aerial loop between New York and Warsaw, Poland, a credit of \$,500 miles. The operator at the control center in America instructed the European representative to tie up his receiving station with the transmissing station. A "dot" was then sent out and made the complete was then sent out and made the complete circuit from New York to Warms and return while the foreign operator was manipulating his key. The Polish opera-tor was then instructed to leave his key and the "dot" raced tweety times around the circuit at a speed of 198,000 miles per second before dving away because of electrical disturbances.

Preventing Pump from Freezing

suction pipe to run down, the water is vent a chair from being drawn up close subject to freezing during winter. To pre-

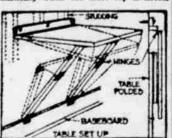

vent this, the vacuum chamber is tapped directly under the check valves, for a 1/2-in drain cook, which whon opened, destroys the vacuum and releases the water. When the cock is closed the pump works as well as ever.

Five Thousand Fed at Once at Electric Barbecue

Four steers weighing about 2,000 pounds each were roasted in an electrically heated pit in the West recently, the mest being served to 5,000 persons. With the tem-perature automatically controlled, it required 24 hours to cook the beef thoroughly. The improvised oven was 39 feet long, 4 feet wide and 5 feet deep.

A Folding Kitchen Table

In a small kitchen, where space is at a premium, a folding table of the type shown in the drawing will be greatly appreciated. The table top is 1 by 30 by 48 in in dimensions, and is supported by two braces of I by 2-in. stock. Two 4-ft lengths of I by 2-in. material are screwed tengether at right angles and fastened to the wall by long screws driven into the studs. The table top is then hinged to the lower member as shown. The braces are 29% in long, and are cut and hinged so that they will fall into place auto-matically when the table top is lifted.

To fold this handy table it is only neces eary to strike the joints of the braces with the knee or hand, while holding the table As an ordinary pitchet pump in good condition does not allow the water in the
