**MOONSHINE TAKEN
IN MEDFORD RAID**

(Associated Press Leased Wire.)
MEDFORD, Feb. 8.—In a raid on a local hotel early Thursday evening, under authority of a search warrant issued through the district attorney's office, the sheriff and police, acting together, arrested Mr. and Mrs. Chas. DePew of Wood, California, and a local restaurant worker, giving the name of "Smith," charged with alleged violation of the prohibition law. Mr. DePew is held in the county jail and the two men in the city jail. The arresting officers were Chief of Police Charles Adams, Deputy Sheriff Alden and Policeman Cave.
Three gallons of moonshine and one bottle of the same concoction were seized. "Smith," according to Deputy Allen was so intoxicated he could not tell his name and was slumbering in another room a short distance from the DePew when arrested.

**R. M. FATE MEMBER
GROWERS COMMITTEE**

SALEM, Feb. 8.—Representative members of the Oregon Growers Cooperative Association meeting here today to consider reorganization plans decided upon a program that means a complete revamping of the association it became known today. Even the present name is to be scrapped in the re-organization it was announced.
The new association which will handle only dry fruits, will be incorporated in the near future and the present association will go out of business January 1, 1925. The re-organization will take over only such of the physical properties of the present organization as the new board of directors may deem necessary to the operation of the dried fruit activities.
A re-organization committee of seven, five of which have already been named was authorized at the meeting. Those appointed were Oscar Haines, and George Zimmerman, of Yamhill; R. M. Fate of Myrtle Creek; N. H. Mearlow of Eugene and Kenneth Miller, president of the present association. The two committee men to be elected are from The Dalles and Roseburg districts.

**GERMAN LOAN
MAY BE REFUSED**

(Associated Press Leased Wire.)
NEW YORK, Feb. 8.—Failure of the German government representatives in this country to participate in the national mourning for former President Wilson has lessened the chance of successful flotation of a loan in Wall Street for the purpose of helping to rehabilitate Germany financially in the opinion of international bankers here.
The effect of the German's action also will retard seriously the efforts now being made to provide credits in the United States for food shipments to Germany, it was said.
Bankers whose participation in a German loan would be necessary in order to insure its success today refrained from making any public statements. Their comments were guarded, and they indicated that they were keeping their minds open for a possible later explanation from the German government.

The committee will meet here next Tuesday to go over the drafts of incorporation plans and contracts.

SALEM, Feb. 8.—Sixty nine fruit growers of the Hubbard District in northern Marion county, members of the Oregon Grower's Cooperative association which will, at the expiration of the present year, have organized a local marketing association and will handle their fruit through that organization this year.
While they are under contract with the Oregon growers for the rest of the present year, they are petitioning for immediate release from their contracts and it is indicated here their request will be granted.

**GIANT STILL FOUND
IN SAM'S VALLEY**

(Associated Press Leased Wire.)
MEDFORD, Feb. 8.—In the upper Sam's valley "Giant still" case, H. S. Wilson, former chief of police of Klamath Falls and L. Congo of the same city, indicted by the grand jury Tuesday for alleged liquor transgressions, were released on \$3,000 bond, pending trial in circuit court, the date of which has not yet been set.

**MEX REVOLUTION
IS NEARING CLOSE**

Tierra Blanca to Be Scene of Last Important Battle.

FEDERALS ADVANCING

Government Troops Meeting With Opposition From Rear Guard of the Retreating Rebels.

(Associated Press Leased Wire.)
MEXICO CITY, Feb. 8.—Tierra Blanca, state of Vera Cruz, it is believed in official circles will be the scene of the last important battle in the federal campaign against the city of Vera Cruz, which has been in the hands of the rebels since the outbreak of the revolution. The rebels are reported concentrating at Tierra Blanca.
The federal march against Vera Cruz, federal officers say, is being delayed by the destruction of a bridge at Atoyaca and by the determination of General Urbalejos to continue his guard action with the rebel retreating forces.
For this purpose he has dispatched part of his army to Tierra Blanca. General Urbalejos' cavalry is reported advancing on Vera Cruz and the war department is awaiting announcement from him that he has occupied the point.
The whereabouts of General De La Huerta, who, with other rebel leaders, left Vera Cruz on a steamer early this week, still is unknown here. General Yucatan, military commandant here, announced the receipt of reports from Moyda, Yucatan, that the rebel general had arrived there, while Tampico reported a rebel warship had appeared near Tuxpan.

General Gomez announced that rebels on the western front, after disbanding at Yufria, state of Guanajuato, are concentrating at Guadalupe, quoting messages received from President Obregon which also stated that the rebel supplies of ammunition is running low and that sixty rebels surrendered at Ocotlan.

Circulation that goes into every nook and corner of the county is bound to bring results to News-Review prove it to be the most successful.

**COLORADO PUBLISHER
TESTIFIES TODAY**

(Continued from page one.)
political prospects be driven? I am not.

"I want to see him arrested from office with all the odium that possibly attaches to his going that his fate may serve for all time as a warning to those who might otherwise fall the republic he has failed."
Mr. Bonfills explained how the \$250,000 paid by Sinclair had been divided between him and his partners.

The suits he and Stack had instituted, he said, to assert rights they claim in Salt Creek field were settled by the agreements, which Sinclair had made with them in the name of Mammoth Oil corporation. The Sinclair interests wanted to clear up all disputes of title, he said, in connection with the granting to them by Fall of the Teapot Dome lease. Sinclair had testified that he expended in this connection about \$1,000,000.
Mr. Bonfills said that E. L. Doherty, while interested in the Stack claims, estimated that "Mr. Stack's leases with the Mid-West and other companies, at lowest value, were worth from \$5,000,000 to \$17,500,000."
Mr. Doherty had based his estimate, Mr. Bonfills said upon the reports of the geologists who had examined Teapot Dome reserve.

The witness told the committee that he had never seen Mr. Fall. "Didn't you go to Alaska with him in 1923?" asked Senator Walsh.
"No, I went to Alaska with President Harding. Secretary Work was on that trip as were Secretaries Wallace and Hoover."
The publisher replied in reply to further questions that at the invita-

tion of Secretary Denby he now was on his way to board the naval transport Henderson at Charleston, S. C., to witness naval maneuvers off Panama.

(Associated Press Leased Wire.)
DETROIT, Feb. 8.—The senate committee investigating the Teapot Dome oil leases "might do well to look into the possibility of a connection between oil interests and our attitude toward the Mexico difficulty," Henry Ford said today in a statement. Mr. Ford's statement issued in answer to a request that he join hundreds of other Michigan citizens in urging a fair deal for Edwin Denby, secretary of the navy, and Detroit, he said.
"I have been asked to join other citizens of Michigan in securing a fair deal for Edwin Denby, secretary of the navy. It is alleged here that because he has less political influence than other members of the government a pretext may be sought to make him a scapegoat. My reply has been that I am sure that we can retrace full confidence in President Coolidge's sense of justice and will not permit him to condemn any man without just cause nor to bring any man's reputation without good reason into the public eye. Without doubt will accord every man a full hearing and opportunity for self defense. No one in Michigan who knows Mr. Denby has ever believed him capable of personal dishonesty in public or private affairs.
"Nothing in this statement, however, should be construed as desiring in any way to limit or weaken the investigation now in progress. It is not enough to know who are the immediate persons concerned; let the probe go deeper until the international banking houses who conceived and financed the deal are exposed. In the last analysis, they are the sources of the corruption in which other men are caught. If the investigation is pushed beyond surface facts, more than our rights in the naval oil reserves will be recorded; we may also gain knowledge as to what inspires weakness in public office.
"The dangerous element in this matter is not alone the greed and weakness of individuals but their readiness to weaken the country's defenses by giving up the navy's fuel to private exploitation. The committee might also do well to look into the possibility of a connection between oil interests and our attitude toward the Mexican difficulty."

(Associated Press Leased Wire.)
WASHINGTON, Feb. 8.—The oil inquiry was widened still further today when the senate without debate adopted a resolution directing an investigation of the circumstances by which the Honolulu Consolidated Oil company secured extensive tracts in California.
The resolution, offered by Senator La Follette, republican, Wis., reiterated that the company's claim had been reopened and approved by Secretary Fall, after having been denied by the preceding secretary of the interior and by the land office.
The company's claim covering 1900 acres, was based, according to Senator La Follette upon dummy locations signed by employees of the Chicago stock yards, who he said, were under the impression they were signing a petition for an election.

(Associated Press Leased Wire.)
WASHINGTON, Feb. 8.—The senate oil committee today was urged by Senator Heflin, democrat, Alabama, to inquire into the financial transactions of William Boyce Thompson of New York, who he said, was a Sinclair stockholder and a borrower from the Chase National bank.
"He is a Sinclair stockholder," the Alabama senator asserted, "and during the last presidential campaign borrowed \$3,000,000 on a dummy note from a member of the federal reserve system in New York. We should know what he did with the money."

C. P. Hansen, representative of the Chancellor-Lyon company, of Medford, is spending a few days in our city looking after the interests of the company.

FATHER ON BROADWAY HAS MANY LAUGHS

Traveling around various parts of the world with such comedians as Jiggs Mahoney, Maxie, his ex-wife, Dinty Moore, the handsome and charming Kitty Mahoney, a treat that very few people have had. At any rate, the opportunity will be provided at the Lela theatre next Monday, when the latest musical comedy success, "Bringing Up Father on Broadway" will be conspicuously on view. No cartoons have reached such popularity and fame as the Green Manua comedies and in the latest ventures of the beloved comedians whose doings and activities will be part of our national life, novel twists and surprises will be evidenced. The new play which John P. Mulgrew, a well known writer of merry pieces, is in two acts away from a roof garden on sunny Italy. Once more Mahoney writes for social climbing, Honefares, her rebuffs and the complications that ensue form the merriest plots of a nature entertainment.
