## HIRAM JOHNSON URGES CLEANING

**Says Republican Party Must Sweep Its House Clean at Once.**

**OPPOSES SEC'Y DENBY**

**Declares Officials Should Be Removed From Office as Result of the Teapot Dome Scandal.**

(Associated Press Leased Wire.) DANVILLE, Ill., Feb. 14.—The republican party must "sweep its house and sweep it clean," if it is to retain the confidence of the electorate, Senator Hiram Johnson of California declared here at noon today in an address opening his Illinois campaign. The paramount issue of the campaign the senator said, "is an issue of just common honesty," in public service. He suggested the removal from office of Secretary Denby and Attorney-General Daugherty, declaring "the public service must be put above all suspicion whether that suspicion arises from criminal guilt or stupid incompetence."

"Standing by the secretary of the navy now means nothing less in effect than approval of what he did, or vacillation concerning it. The senate and the president alike have expressed it, so far as acts can express it, no confidence in the attorney-general."

Devoting virtually his entire speech to Teapot Dome, Senator Johnson stated developments clearly indicated that "reaction and progress must fight it out again in the republican party in the coming presidential primaries."

"The system which seeks to exploit for individual gain what belongs to all must be challenged in no uncertain fashion. It must be broken and driven from government. Selfish materialism again encroaches upon the nation and this time in the hideous guise not only of appropriation but of purchase of the public domain."

Sketching what he viewed as the parallel between the situation of today and 20 years ago and lauding the service of President Roosevelt, in the former "crisis" in his arousing the public conscience, the California senator declared "we are fighting the same philosophy of government today."

"The issues of the campaign were clearly seen at its inception by those who observe the affairs of government. The ugly shade of official corruption has made them equally clear to all of the people. Those who have been close to the situation have recognized not only the desirability, but the necessity for a cleaning of the republican party. All of the people now know it full well."

"There is a greater principle at

stake than shielding individuals who may not be guilty of moral turpitude or the punishment of those who brazenly have defied the law. The people's government rests on the confidence of those who compose it, and where that confidence is shaken there must be no limit to the legitimate effort for its restoration.

"The secretary of the navy justified what he did and said he would do it over again."

"It is futile for any man now to argue that it is necessary to await an indefinite time to have an adequate conception of what has occurred."

### This Prescription For Kidneys

No Drugs—Just Roots and Herbs.

Five years ago Dr. Carey said, "When backache comes get after your kidneys—and don't waste any time." "Right at the start, go to your druggist and ask for Dr. Carey's Marshroot Prescription No. 777; take it as directed until backache ceases and your eyes are clear and bright."

For more than 40 years Dr. Carey specialized in diseases of the kidney and bladder and when, in the height of his remarkably busy life, he decided to dispense his most effective kidney and bladder prescription through the better druggists, he helped thousands who could not afford to go to him for treatment.

Thousands of unobservant people have kidney ailments and never know it until too late. High colored urine, getting up in the night, and puffy eyes tell the story. If you even suspect—start today with Dr. Carey's Marshroot Prescription No. 777. It will drive the poisons from your kidneys and your druggist knows all about it.

Nathan Fullerton dispenses lots of it. It comes both in liquid and tablet form. It will help you as it has a host of others. If it should not, if you aren't glad in one week's time that you bought it, money gladly refunded. Price, \$1.50 and well worth it. A big seller in the east.

### GREAT RANGE OF USE FOR THE AUTOMOBILE

That the automobile is seen coming into a greater era of popularity which will bring it more intimately than ever into the commercial and social life of the nation, is the opinion of the Ford Company, which itself has during the year just ending, enjoyed the greatest business in its history. The opinion is based upon reports received from various sections of the country and upon dealer estimates coming in for 1924.

These all indicate not only a growing prosperous condition generally but a greater tendency toward the use of the automobile, both as a commercial haulage unit.

Another feature of this review and one which most closely reflects the prospective purchaser is that buying will start much earlier in the New Year than in the last and the so-called "spring rush" will be on long before the winter snows have melted.

Apparently, many persons contemplating the purchase of cars for the coming year have profited by the experience of others in previous seasons and do not intend to delay placing their orders. Consequently, they have determined to get into the market early and as a result the 1924 car shortage period will be advanced a number of weeks.

**STOP CATARRH! OPEN NOSTRILS AND HEAD**

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! How good it feels. Your nostrils are open, your head is clear, no more hacking, snuffling, blowing, no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

### ROTARY CLUB HAS INTERESTING MEETING

A very interesting meeting of the local Rotary club was held today noon. Six outside visitors were present which swelled the attendance to full capacity. Abraham Lincoln, whose birthday occurred on the 12th of this month, the anniversary of George Washington, which takes place on the 22nd, were each honored at today's meeting. Mose Rice eulogizing George Washington, and Lute Moore paying a fine tribute to Abraham Lincoln. Both speakers reviewed the lives of these great men in a very interesting manner. President Seely called to the attention of the members several matters of importance and urged early preparation for the Rotary convention to be held at Spokane this year.

On the table before each member at today's luncheon was a neat booklet issued by Fisher's and containing a fine descriptive write up of the Umpqua valley and Roseburg.

### ORCHESTRA PLAYS AT REVIVAL SERVICE

The orchestra gave two very fine opening numbers at the Christian church revival last night. The orchestra is always welcome at the services, because they add much to the music. Another interesting feature of the evening was the male quartette, which was received with great enthusiasm. The male quartette will sing frequently during the remainder of the time. The special solo by Mr. Althoff was, "Do Nothing to You."

It is a song with a sermon in itself. The evangelist spoke last night on Repentance. He showed first what it was not, then what was, and distinctly brought out the goodness of God which leadeth to repentance, and Godly sorrow which worketh repentance. Speaking of the hypocrite over whom so many stumble, he said, "The hypocrite is in the hand of God, and that is the best place to leave him; but sooner or later, we shall all be in the hand of God, what then?"

One of the interesting features of the meeting now is, that in addition to the daily Bible readings which are being reported each evening, the evangelist has the people to read each day one chapter in the book of Acts, and gives a few comments each evening on the chapter read. In speaking of the fourth chapter where the apostles said, "Silver and gold I have none," he remarked that in Heaven we would be walking on the things that we strove so hard for here, for the streets there are paved with gold.

Tonight the good confession will be discussed, and on Friday night "The Change of Heart." On Friday evening it is expected that a large delegation from Myrtle Creek, Oakland and Myrtle Creek have both sent delegations some of the time. Sunday will be a big day, and large preparations are being made for the occasion.

### STEP ON STARTER IN EMERGENCY

Few motorists realize what a source of emergency power an electric starter-motor can be.

When caught on railroad tracks with a stalled motor the thing to do is to place the gears in "second" and step on the starter. The car will move off the tracks slowly but surely, and in half the time that would be required to crank the motor. Some starters make so much noise that a train couldn't be heard approaching while the motor is being cranked.

A practice of relying on the starter-motor, of course, is a good way to get acquainted with the repair shops, but it is assumed that stalling on railroad crossings is not a habit. Many abuses of the car are justifiable in an emergency; the point is to know what ones can be relied upon as lifesavers.

American tourists spend approximately \$1,999,999,999 annually for gasoline and \$450,000,000 for tires. The annual depreciation of cars is computed on an estimated investment of \$8,767,500,000 in motor vehicles.

### AUTO PROBLEM IS NOT YET FATHOMED

"We have not solved the final problems in any line of the automotive industry."

C. F. Kettering, president of the General Motors Research Laboratories so told the gathering of 500 Oakland dealers at their recent mid-western meeting at Chicago.

In the course of his remarks he told how Duco was developed and how Oakland has been the pioneer car in helping solve the practical problems connected with this satin wax finish and the first to adopt it.

"The painting of automobile bodies took too long," he declared.

"We got the paint manufacturers together and they were finally able to cut down the time of drying of paint to one day. Finally there was developed a material that dried even before it could be sprayed on the automobile.

"Then our problem was to get the paint not to dry so quickly—swinging from one extreme to another. The problem of drying less quickly was finally solved."

The satin wax finish so developed is now use on all Oakland cars.

### \$650,000,000 WORTH OF AUTOS IN CALIFORNIA

Automobiles registered in California at the end of 1924 will approximate \$650,000,000 in value, according to estimates prepared by Will H. Marsh, chief of the division of motor vehicles.

The division has made plans to register 1,399,999 cars during the year and Marsh estimates the average value of each at \$500.

There are some interesting facts about these cars:

Placed end to end they would measure a distance of 2693 miles—enough to reach from San Francisco to New Orleans and back to El Paso again.

Allowing a parking space, 15 feet long and 10 feet wide for each car, they would cover a field seven miles square.

Passenger cars, alone if set end to end would form a solid line around the state of California with several hundred cars to spare.

**AGE OF AUTO VICTIMS**  
The majority of adults killed or injured by automobiles and the majority of drivers whose cars figure in automobile accidents are past 50 years of age. Moreover, the deadliest half-hour in automobile accidents is between 4:30 and 5 o'clock in the afternoon.
