ARGUMENTS ON BONUS MEASURE

(Associated Press Leased Wire.)
WASHINGTON, March 3.—Proposals to make soldier bonus payments in the form of paid-up insurance led to several arguments today at the opening of public hearings by the house ways and means committee today on adjusted compensation legislation.

Representative Andrew, republican, Mass., explained to the committee a measure he has introduced providing for insurance with an option of cash payments for those veterans not entitled to more than \$50.

"The veteran's need for cash is not the same now as at the close of the war. Insurance provision appeals to me as better for the veterans, granting them protection against worry for the future."

Mr. Andrew estimated the bill would not cost more than the measure passed last session.

Representative Fish, republican, New York, presented his bonus scheme of restricting all payments to a twenty year endowment policy. It would allow policies of \$400 for each six months of service above present days, with a maximum of \$700 and would allow \$800 to beneficiaries of each of the 5,000 who died during the war without insurance.

"Such a measure would cost \$2,000,000,000, or about \$100,000,000 a year, Mr. Fish estimated. All veterans, including officers up to the rank of captain in the army and marine corps and lieutenant in the navy would be eligible.

Both Mr. Andrew and Representa-

five Cole, republican, Iowa, declared they had never heard opposition to a bonus expressed by any enlisted man.
