DAIRY AND SODA WORKS IMPROVED

Mr. Ernest Unrath Installs Much New Modern Equipment and All Milk is Handled in Sanitary Manner.

Ernest Unrath, proprietor of the Roseburg Dairy and Soda Works, this week completed the installation of some of the most modern dairy equipment in the state. The total value of the equipment in his plant now is \$23,000 and the new pasteurizing machinery represents a good share of that figure.

Pasteurization of milk means the absolute killing of all germs, according to Mr. Unrath. The method does not depreciate the food value of the milk but renders the milk pure in every sense of the word. The milk is subjected to a heat of 145 degrees and held at that temperature for twenty minutes. With the pasteurizing equipment the milk is then cooled quickly by the forcing of brine through the pipes.

The milk is then pumped to the bottling machine and again handled automatically. No hands touch the bottles, caps or milk. It is bottled as soon as it leaves the pasteurizer, thus insuring it against all foreign elements. The filling and capping machine which handles the bottles is a marvelous piece of equipment.

An automatic washer for the bottles has also been installed. This machine handles eighty cases of bottles an hour. Caustic lye is used to cleanse the bottles after which they are placed under a pressure of live steam. No germ could possibly live through this barrage. The cases are also sterilized with the same machinery and at the same time that the bottles are being washed.

In the soda department Mr. Unrath has also added much new equipment. A bottle washer has been installed which also uses the caustic lye to purify the bottles. An automatic filler and capper makes it possible to turn out his fine product without hands touching the liquid. The labeling machine neatly affixes the label and the soda is ready for the market.

An icing machine in the rear of the plant has a capacity of one ton and a half each day. All of Mr. Unrath's machinery has separate motors and he is able to speed up production remarkably.

The Roseburg Dairy and Soda Works is an institution of which Roseburg should be proud and Mr. Unrath extends a cordial invitation to all to visit the plant and see it in operation.

VAUDEVILLE SHOW COMING TO ANTLERS

Manager Goux of the Antlers theatre today booked the Bert Levey vaudeville road show for appearance in this city on next Wednesday night, April 9th. The show consists of four standard acts of vaudeville along with a fine feature photodrama and it is expected that the theatre will be packed on that night. Mr. Goux states that the nominal sum of 50 cents including tax, will be charged for the feature attraction and this is the smallest admission fee being charged for the entertainment on the entire route. From Roseburg the show will go to Seattle for an extended run.

FALSE FINANCIAL STATEMENT CLAIMED

(Associated Press Leased Wire.) INDIANAPOLIS, April 3.—Effort to show that Governor Warren T. McCray obtained \$155,000 from the state board of agriculture by making false statements of his finances were continued today by state attorneys at the executives' trial on an embezzlement charge.

QUARTERLY MEETING HELD LAST NIGHT

The quarterly meeting of the Christian church held last night in the church parlors was a most pleasant occasion. The reports of the different organizations of the church were among the best ever handed in. Every organization and auxiliary showed a balance in the treasury, while the building fund shows a decided increase, and is growing each month. One of the fine features of the evening was the great talk made by E. R. Moon, recently returned from Central Africa. He gave many ideas of the life out there, how the natives live, eat and dress, and what a wonderful change was brought about by the missionaries. He had with him many souvenirs of the African people, and things that greatly interested the people. A social hour followed. The orchestra played some good music, and ice cream and cake were served by the ladies. About 100 people were in attendance.

ROSEBURG TO ENTER TYPING CONTEST

Roseburg will again be represented in the state typewriting speed contest at the Oregon Agricultural college business show which is being held this year for the second time. Last year the local typists won fourth place among the schools of the state and expect to make even a better showing this year. The meet is to be held on the twelfth of this month and will include a representation from over 30 high schools of the state. Each school will have four representatives—two seniors and two juniors—who will constitute one team. Portland schools will enter the contest for the first time and a real race for places is expected. Carrie Gilbert and Marion Nichols will represent Roseburg on the senior team. The junior contestants have not yet been selected, but the instructor states that she will have a good team from both classes.

CAMAS SCHOOLS MAY CONSOLIDATE

At a meeting of the school boundary board held today a petition for the grade schools of Camas Valley into one school was granted and permission given to call an election. The petition asks that the grade schools be made into one school and that the Union high school which is already established there be also included in the same building. In the event the election goes in favor of the petition it will mean the immediate erection of a new school building in the valley. The school patrons of that vicinity have already picked a site for the new structure on the strength of the thing going over. County School Superintendent O. C. Brown has given the patrons the privilege of setting the date of the election, which will probably be held within the next two weeks. It is expected that the building will be finished and ready for occupancy next fall.

HAS NOVEL IDEA.

Mrs. Crystal M. Jacobs, instructor in the commercial department of the local high school, has a new plan for instilling the idea of rhythm in the minds of the typing students who find it hard to acquire this very essential step in developing speed. It is particularly difficult for some to learn to "beat" regularly up the keys, so the instructor has installed a phonograph in the rear of the room where the machines are located and by playing march records is able to keep the class together on exercises and drills. She states that the students are learning rhythm faster than any way which she has yet seen used.

ROTARIANS HOLD REGULAR ELECTION

At a meeting of the directors of the Roseburg Rotary club held last night M. S. Hamm was elected president of the club for the coming year. The other officers elected were: G. C. Finlay, vice-president; A. T. Lawrence, secretary-treasurer and James Goodman, sergeant-at-arms. The officers are all very active in the affairs of the Rotary club and the members of the club trusting the management of the organization in their hands.

The regular luncheon was held today noon with a good attendance present. The chief speaker was Dr. Frank W. Hart, of the school of education at the University of California. Dr. Hart spoke very interestingly on the support of education throughout the country and gave a splendid answer to the general criticism that schools are not giving the same substantial courses of study in modern times as were given some time ago. The music for the luncheon was furnished by Ollie Johnson, who gave a very beautiful piano selection.

BOMBERS ATTEMPT TO WRECK HOUSE

(Associated Press Leased Wire.) SPOKANE, April 3.—Police are working on the theory, they said today, that the persons who bombed the home of William K. McGillivray here last night are the ones who blew out a drainage dam in Meadow Lake in this county last week. They said that the house which suffered only minor damages, formerly was owned by E. F. Graves, who was successful in a case in superior court here yesterday in resisting efforts of other land owners of the vicinity to have the same done away with. Graves sold the house three years ago, but the officers think the bombers were not aware of the fact and sought to harm him financially.

MAY DEVELOP LATE BROCCOLI

The extension of the broccoli season for several more weeks in later years may result from a special strain of seed on which experiments are to be made. Foster Butler, manager of the Umpqua Broccoli Exchange, last year planted a number of tracts with various strains of seed which he procured. One of his patches near Dillard was very slow and is only now commencing to mature. He made an examination today, and found that in spite of the slow maturing, the heads are perfect and the crop is in fine condition. He states that he does not know the source of this seed as he planted a number of strains for experimental purposes. He immediately got in touch with County Agent Conroy, and an inspection was made and it was determined to hold the entire five acres for seed. An exhaustive test will be made next year and if the seed achieves the results hoped for it will serve to lengthen the season by three or four weeks. Mr. Butler expects to save the entire tract for seed purposes, although with broccoli prices as they are at present the crop is very valuable. Growers have been seeking for later strains a while later the season can be made the better the market conditions and the greater the returns, and it is possible that this seed will achieve the desired end.

H. H. COREY FILES FOR COMMISSIONER

(Associated Press Leased Wire.) SALEM, April 3.—H. H. Corey, chairman of the public service commission today filed with the secretary of state his declaration as a candidate for the republican nomination to succeed himself. His slogan is "without idle promise or empty pledge, I stand squarely upon my record." In his platform he states that he will "endeavor to administer the duties of the office in conformity with the prescribed oath of office and be governed thereby."

Other candidates who filed today were: Edward W. Miller, Grants Pass, for republican nomination for state senator from the seventh senatorial district, comprising Josephine county. Walter S. Fisher, Roseburg, filed petition as candidate for the democratic nomination for representative in the legislature from the fourth representative district, comprising Douglas county. E. C. Maddock, Arlington, for republican nomination for representative in the legislature from the 25th representative district, comprising Gilliam, Sherman and Wheeler counties.

RECLAMATION BUREAU HEAD IS APPOINTED

(Associated Press Leased Wire.) WASHINGTON, April 3.—Dr. Elwood Mead, irrigation engineer of Berkeley, California, was appointed by Secretary Work today to be commissioner of the bureau of reclamation. Dr. Mead succeeds D. W. Davis, former governor of Idaho, who will become head of a new division of finance which was created to separate the handling of receipts and disbursements from the engineering and agricultural departments.

A new feature of the meeting of the department of superintendence at Chicago was a series of radio talks by educational leaders. The talks were broadcast by one of the daily papers of Chicago.

MARKSBURY COMPANY

ROSEBURG, OREGON

Advises Ordinary Buttermilk for Wrinkles and Enlarged Pores

This Good Looking Young Woman Uses Old Time Recipe of Buttermilk Cream in a New Way—A Gentle Massage with Fingers Before Retiring is All That is Necessary.

The old-time application of Buttermilk and Cream to whiten and preserve the skin and remove harsh little wrinkles and ugly sallowness is grandmother's recipe and women throughout the country are again using it to ensure a beautiful complexion and snow white hands and arms.

Buttermilk, however, is not always obtainable, but a specialist has at last perfected a method of concentrating buttermilk and combining it with a perfect cream, which you can buy in small quantities ready to use at any first class drug store by simply asking for "Howard's" Buttermilk Cream. There is no secret about it nor is there any doubt about the result—it is just common ordinary buttermilk in the form of a wonderful cream. That's all. Howard's Buttermilk Cream gently massaged with the finger tips around the corners of the eyes and mouth.

"Training in leadership in the education of parents" is the title of a course offered this year for the first time by Teachers College, Columbia University. The lectures will deal with the fundamental principles of child nature and development from the physical, psychological, and educational aspects.

To train young women as household assistants the home economics department of the Denver (Colo.) public schools, cooperating with the Young Women's Christian Association, will offer a six or eight weeks course of intensive training for practical work in the home. Housekeepers of Denver promise the students positions immediately upon completion of the course.

Lloyd will take you cheaper on long trips; no trip less than 50 cents. Lloyd's Taxi, phone 44, 157 Sheridan.

All girls who enter the high school of Oswego, N. Y., are required to take a course of 10 weeks home nursing.

Attack on the Oregon law requiring attendance at public schools has been made in the form of an application for injunction brought by Hill Military Academy, of Portland, against Oregon State officers to prevent them from executing the law. The application was argued in the Federal court at Portland, and decision was taken under advisement. The law is scheduled to become effective September 1, 1926.

PRINTING

The News-Review Job printing department is the best equipped in the southern part of Oregon. We print all kinds of stationery, including

CAL NEWS

Moore Music Studio—116 S. Jackson St.
Mrs. F. W. Poorman of Salem, a former well known Roseburg girl, is visiting here with Mr. and Mrs. George Sewell. Mrs. Poorman will return Sunday.
Emery wants to buy your wool and mohair. See him before selling.
George Henry of Portland, representative of the United States Rubber company, arrived in Roseburg last evening to spend a few days here in the interests of the company.

SHIPPING INTERESTS PROTEST ORDER

(Associated Press Leased Wire.) TACOMA, April 3.—A conference of west coast shipping interests convened here this morning under the chairmanship of Seth Mann, head of traffic bureau of the San Francisco chamber of commerce, to protest the order of the interstate commerce commission putting into effect section 28 of the Jones Merchant Marine Act.

Representatives for the two day conference were on hand from San Francisco, Seattle, Portland, Tacoma, Everett, Astoria, Bellingham, Aberdeen and Hoquiam.
It is the contention of the west coast ports that section 28, which gives special rail rates on export freight shipped in American vessels, will work to their disadvantage by discriminating especially against Japanese shipping lines.

MEMBERS BROKERAGE FIRM ARE INDICTED

(Associated Press Leased Wire.) NEW YORK, April 3.—Thirty indictments today were returned against the four members of the bankrupt stock brokerage firm of E. W. Wagner and Company which failed December 31, 1921, for \$10,000,000. The members of the firm which maintained branches in Chicago and 20 other cities were charged with trading as brokers against the order of a customer.

STOCKING BANK DEPOSITS MISSING

(Associated Press Leased Wire.) SEATTLE, April 3.—Police today were seeking \$65 in paper money, the loss of which Mrs. S. Enyama of Seattle reported. She said that the money slipped through a hole in her stocking while she was walking four blocks to her home yesterday.
