WALTER FISHER IS CAMPAIGN CHAIRMAN

Mr. Walter Fisher of Roseburg has accepted the chairmanship of the University of Oregon gift campaign in Douglas county. Under his leadership the annual of this district will do their share towards raising a fund of one million dollars which is to be the annual contribution to the \$5,000,000 five years building program required for the University.

Alumni throughout the country are rallying to the support of the University in the gift campaign, which has made necessary by the largely increasing numbers of students at the University. The enrollment has grown four hundred percent within the last ten years, and it is expected that within the next five years the number now on the campus will be doubled. Properly to care for the students enrolled in the university at present, and to give them an education the equal of that provided in any university, requires practically all the University income from the millage, leaving but a small margin for buildings. Every nook and cranny of the University is already crowded to the limit. New buildings are needed at once, and the University must begin to make provision for more students. The State is providing generously for general maintenance and cannot be asked to increase its appropriations at this time. So the University, like other state universities, has embarked on a gift campaign to secure the needed buildings from those who are interested in education in the state of Oregon.

The buildings most urgently needed are library and memorial court, liberal arts building, science building, gymnasium, infirmary, student union, armory, Journalism building, law building, chemistry building, men's dormitory, women's dormitory, and in the city of Portland, a medical school building, hospital, and a building for the Extension Center.

Of these the alumni have set out to provide the Library, the Gymnasium and Athletic Fields and the Memorial Court in memory of the 47 University men who died during the world war.

"The demand for this campaign to better the University does not come from the University itself, nor from its alumni alone. It is not born on the campus but in the state at large," said President Campbell in discussing the origin of the Gift Campaign. "The demand comes from the homes of this state—from the fireplaces where the boys and girls of future generations are being carefully brought up, where the mothers and fathers are hoping and planning to give their children the best possible education as a preparation for life. They are looking to the State University to provide this education and the State University must not disappoint them."

"We have raised our standards until the University compares favorably with any in the country. We cannot and will not lower these standards, and thus cheat the boys and girls of Oregon out of their right to the best possible education. We are spending our income economically; our salary scale is lower than the average for state universities; our teachers are carrying more work per student than the teachers are carrying at most of the first rate universities of the country; we cannot possibly divert any large part of our income to building purposes and continue to maintain high standards. We look therefore to our alumni and friends, to the mothers and fathers of the state, to all those interested in education to help us in this effort to meet our most insistent need for buildings."

USED GASOLINE TO START FIRE; 4 DEAD

(Associated Press Licensed Wire.)
HILLSBORO, Ill., April 7.—Mrs. Horney Hill and three children were killed when a gasoline explosion set fire to their home in Hillsboro today. Mr. Hill had mistaken gasoline for coal oil in starting a fire in the stove.

WIREFAPPERS TRICK AND ROB BOOKMAKERS

(Associated Press Licensed Wire.)
SAN FRANCISCO, April 7.—Wire tappers yesterday collected between \$30,000 and \$150,000 from San Francisco book-makers by switching the numbers of the winners at Tijuana to which numbers of their gang had bet, according to a story the San Francisco Examiner will print this morning.

The wire tappers had "cut in" on the loose wire by which the Tijuana returns were being sent to San Francisco book-makers and intercepted the news of the winners. In relaying it to San Francisco, they substituted the destinations of the horses on which they had bet.

A \$10 bet on two certain horses in combination under the scheme would have netted a total of \$960.

The trick was not discovered until long after the races were over and the bets paid, the Examiner says.

"BILLY" VINSON OUT FOR LEGISLATURE

Wm. R. Vinson, one of the best known residents of this county, today announced himself as a candidate on the republican ticket for the nomination as representative from Douglas county to the state legislature. Mr. Vinson has been active in political affairs for many years and has been a close follower of legislative activities. He has been a frequent visitor at the legislature and is familiar with the procedure of the lower house.

Mr. Vinson has been a resident of Douglas county since 1849. He was born while his parents were crossing the plains in the gold rush days. He drove stage for many years between Roseburg and Empire over the old Coos Bay Wagon road, and in later years engaged in agriculture and lumbering. He was superintendent of the county home for ten years.

"I will use my very best endeavors to promote economic and honest legislation," is the statement on his petition.
