USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

NATIONAL GUARD WANTS RECRUITS

Local Company Preparing for Summer Encampment in Del Monte.

INTEREST IS GROWING.

Opportunity Is Offered for Interesting and Instructive Vacation at Regular Army Rate of Pay.

With the coming of the summer vacation time and the desire to spend a short time out in the open, a great many young men are showing interest in the local national guard company. Five men have enlisted during the last few days and several others have signified their intention of doing so. The schedule of training for the next two months is in preparation for field training. Preparatory exercises in marksmanship, physical training, care of equipment, orderly marching and drill are called for in the next few weeks.

The drill schedule this week included physical training, 15 minutes; marching and drill, 15 minutes; and marksmanship, 15 minutes. The schedule for next Tuesday night includes physical training, 15 minutes; school on characteristics of the machine gun and theory of fire, 30 minutes; hygiene and first aid, 30 minutes; close order drill, 15 minutes.

There is value in military training outside of preparation for defense, in that it covers a great many subjects that are of great benefit in civil life, corrects defective setup; teaches obedience to commands, respect for authority and the coordination of mind and body.

An enlistment in the National Guard requires that a man attend one drill each week for at least one and one-half hours and attendance at annual camp of instruction for two weeks, for which he receives regular army pay in the grade he holds. If his employment necessitates his moving from the district, he is excused and upon application he receives an honorable discharge.

Official notice has been received by the local officers that this year's camp will be in Del Monte, California, from June 10th to 24th. The company now has 66 men enrolled and will recruit up to at least 75 before camp.

An invitation is extended to all men interested to be at the armory next Tuesday night and witness the drill and talk the matter of enlistment over with present members, who will explain the advantages and answer any questions before and after drill.

SOLID TRAINLOAD STUDEBAKER CARS

SOUTH BEND, Ind., April 17.—A solid trainload of cars was forwarded today from the big Studebaker factories with Hartford, Connecticut as their destination.

This is one of the biggest single shipments of automobiles made this year. Leaving South Bend, this train consisted of fifty-two freight cars of Light and Special-Six models. It was routed by way of Detroit to pick up twelve more carloads of Big-Sixes.

Altogether, the train contains 207 Studebakers, valued at approximately \$300,000.

This large shipment to the East indicates the insistent, heavy demand for Studebaker cars.

The Studebaker factories at both South Bend and Detroit are running at capacity.
