INDIGNANT OVER EXCLUSION THEIR RACE FROM U. S. AND SAY 'INSULT' WILL BE FELT FOR YEARS

Boycott of California-Made Goods—Two-Hour Conference and Open Air Mass Meeting Part of Vigorous Protest Being Made by Japanese in Tokio.

(Associated Press Leased Wire.)
TOKYO, April 21.—House of representatives today held their first conference on Friday within a few days of the Japanese exclusion bill which was introduced into both the house and the senate today that could not eliminate it if they should exceed their authority.

was discussed by President today with Senator Bacon, Penn., who had introduced the legislation in the Pennsylvania senate. He said whether the president had his attitude toward the provision.

April 21.—Flat declaration with America over the question is impossible for Japan to forget the United States when it voted to exclude from America, were made today by Gombel Yamato, minister of Japan, in an interview with the correspondent of the press.

no possibility of war remains the action of the Japanese asserted. "Our country is not the scabbard only, it is a nation," he said.

to reviewed the growth of the anti-Japanese feeling since the Russo-Japanese war, he said, through the disappointment over Japan's defeat at Manchuria following the war.

returned to effects of the exclusion bill which he said would have resulted in the Japanese race. "Such action was unharsh but the worst hurt inflicted upon Japan, but years of international peace, this insult and rally in support of cooperative work can convince that Christianity is an effective of wars and races.

has no remedy. The danger is unjust, and the remedy is unjust, but we will attempt to resist only make matters worse in our first duty.

April 21.—A two hour conference between Foreign Minister Marquis Saionji, one of the elder statesmen, and a mass meeting which was held in the Japanese state building today (Monday) in the American immigration situation.

Saloni returned to Tokio solely because of the situation which has been put before persons ineligible for citizenship from America. 1,000 persons at a meeting which was held in the Japanese state building today (Monday) in the American immigration situation.

merit the attention of both the elder statesmen, Saionji and Matsukata—and that the matter had been reported to them.

"One of the features of the situation which is most comforting to me," the foreign minister commented, "is the sentiment of a great majority of the American newspapers. The Japanese may still place hope in the greatness of American character and trust that Coolidge, that far-sighted though taciturn statesman and Hughes will do all that it is possible to prevent a Japanese-American estrangement."

Both official and unofficial Japanese are trying to keep the position of Cyrus E. Woods, the American Ambassador, as unembarrassed as possible. Two banquets planned to welcome him back to Japan from his recent trip to the United States—one by the American Association of Japan on Tuesday evening and the other by the American-Japan Society Wednesday evening—have been postponed. Mr. Woods requested the postponement, saying that at this juncture it would be impossible for him to speak publicly without discussing immigration and that on the other hand it would be equally impossible to deal with that subject in a public address.

Foreign Minister Matsui and other Japanese leaders are said to concur with this view.

The Jiji Shimpo, vernacular newspaper, paid an editorial tribute to Ambassador Woods in today's issue.

"What would have been the result," the newspaper asked, "if America had been represented in Japan by a less able ambassador, or one less sympathetic toward the Japanese?"

WASHINGTON, April 21.—Realization that the "gentlemen's agreement" with Japan had failed to accomplish its purpose and not the letter of Ambassador Hanihara protesting against proposed termination of it by the United States, prompted congress to write a Japanese exclusion provision in the immigration bill, Chairman Johnson of the house immigration committee declared in a statement.

"There is much misunderstanding and some mis-statements," Mr. Johnson said as to reasons which influenced congress in passing that provision of the immigration bill which excludes hereafter as permanent residents aliens who are ineligible to citizen ship and which thereby terminates the 'gentlemen's agreement' with Japan.

"There is an impression first that the action was occasioned by resentment at the letter of Ambassador Hanihara. Long before the letter appeared the measure was assured of passage in the house and a poll in the senate on the day before showed, I am told, at least 54 votes certain for the exclusion feature. The Hanihara letter forced a practically unanimous action on the part of the senate. The house, however, had voted over four to one before the letter appeared."

TOKIO, April 21.—The Japan Printing Association at a general meeting held here today voted to place a boycott on all goods from the state of California.

This was the first reprisal to be noted in connection with the passage by the United States senate of an immigration bill barring persons ineligible to citizenship from the United States into that country. The senate's action aroused much public feeling here.

Labor elements, hardest hit by the American ruling, are preparing demonstrations against the exclusion. The Japan federation of labor and the government workmen's association are planning joint mass meetings in both Tokio and Osaka, at which the American immigration bill will be considered.

The Japanese, however, are not the only protestants. The American Merchants Association of Tokio and American members of the American Society are all framing telegrams to be sent to the American state department, representing the situation as serious and urging reconsideration of the exclusion. In addition, commercial representatives of leading American business concerns and banks are said to be calling their home organizations along the same lines.

CASH OPTION DISCARDED

(Associated Press Leased Wire.)
WASHINGTON, April 21.—Advocates of the cash bonus gave notice in the senate today that although they would not press for inclusion of a cash option in the pending insurance bill they would ask to amend the measure when it becomes a law.

Democrats would not press for the substitute at this time, they said, because republican leaders had declared if it were adopted they would vote to sustain a presidential veto.

Senator Walsh, democrat, Massachusetts, author of the sub bill proposing cash and insurance as suggested by democrats of the finance committee, denounced the committee bill as "disappointing, unsatisfactory and bad in form and principal."

BURSUM BILL PASSES

(Associated Press Leased Wire.)
WASHINGTON, April 21.—Without a record the house today passed the Bursum bill already approved by the senate, carrying pension increases for veterans of the Civil, Spanish, Mexican and Indian Wars, and the war of 1812.

ROSEBURG WINS GOOD BALL GAME

Air-Tight Ball Played Up to Fifth Inning When Glendale Team Blew Up.

SCORE ENDED 12 TO 1

Visitors Held Local Team to Two Scores Until Fifth When Roseburg Team Added 10 Tallies.

(By L. F. Reizenstein.)

After holding the locals to two hits and as many runs in the first five innings, with a single tally to their own credit, the Glendale baseball team blew up in its game against Roseburg at Laurelwood park Sunday, and when the carnage was over the locals were on the long end of a final score of 12 to 1.

The visitors were unable to solve the offerings of Roy Turpin, the Yoncalla agriculturist, who occupied the mound for the home crew until the end of the 7th inning, when, with the game safely on ice, he retired in favor of Howard, who finished the game in good style. Though this was his first game this season and handicapped by an inadequate battery partner, Turpin succeeded in holding the visitors, six of whom were left-handed batters, to five hits—one each in the first five innings—and in registering 14 strike-outs, two of them in succession in the fifth inning with the bases full, retiring the side. After the fifth inning, the visitors failed to make a hit off of either Turpin or Howard.

Glendale's lone tally was registered in the fourth inning, when Harvey walked, took second when the catcher dropped a pitched ball and was sent home on McKee's long double.

Powers did the twirling for Glendale, with the exception of the eighth and final batting inning of the locals, and it was not his fault that the score was not closer. Ragged support contributed to the first two runs of the locals within the first five innings. During the remainder of the game, the visitors went to pieces, Roseburg's entire line-up going to bat in both the sixth and seventh innings when a combination of five hits and at least as many errors netted seven more runs. Powers' battery partner, Bates, who twirled the final inning, fared no better, the locals piling up three more runs on a single hit and a free pass, aided opportunely by a brace of weird fumbles.

The line-up of the teams follows:
Roseburg: Grim, L. F. Decker, 3 B. Maddox, 2 B. Buffington, L. F. Toole, 3 B. Garrett, C. F. Ritzman, 1 B. Harvey, 2B. Clinton, C. F. Williams, R. F. Hall, C. F. McFee, 1 B. Angst, S. S. Chaney, S. S. Lloyd, C. Bates, C., and P. Turpin, P. & C. F. Powers, P. Howard, R. F. & P. King, C.

SMALL FIRE IN MARSHFIELD

Rumors were riot on the streets early this morning that the Chandler hotel at Marshfield had burned to the ground. But the News-Review traced the story to its source and found that little damage was done by the blaze and that the hotel is "running as usual." The fire started in the kitchen of the hotel at 1 o'clock this morning and two hours later had been put out. The dining room, kitchen and annex were damaged and it will probably be a week or more before they are reopened but the hotel proper was not hurt by the fire or smoke.

BOYS' WEEK TO BE OBSERVED

Local Clubs Make Plans to Entertain and Educate Youngsters.

PICNIC IS PLANNED

Boys to Have Outing and to Spend Day Inspecting Various Industrial Plants of City.

The week commencing Sunday, April 27, has been set aside as Boys' Week, and the Rotary Club and Kiwanians, together with fraternal orders and civic organizations, are arranging a suitable program of observing the day. The committee of the Rotary club is in charge of the general arrangements. John Runyan is arranging for the picnic which is to be given, and for the parade and weiner roast, and John Farrington has charge of the program for industrial day.

It is planned to start the week off with appropriate services in the various churches of the city. The ministers will be asked to stress boy life and activity in their sermons for Sunday, April 27, and the churches will probably give the boys special recognition in various ways.

Full details for the other days have not yet been developed, but it is tentatively planned to have a picnic in Laurelwood Park on Friday, May 2. The boys will parade before the picnic led by the boys' band. They will have an afternoon of outdoor sports and conclude the day with a weiner roast.

Saturday is to be industrial day, and will be an educational one. Cars will be placed at the disposal of the boys, and they will be furnished with cards of identification. In groups with proper guides they will visit the industrial plants of the city, the public offices and other places of interest. They will be shown through the railroad yards, and the management of different departments explained. They will see the methods used in handling the telephone communication of the city, and may be given an opportunity by Manager Farrington to operate the switchboard for a few moments. All industrial plants will be open to them and wherever possible they will be allowed to conduct the work themselves for a small space of time.

They will be shown the methods used in operating the various county and city offices, and will be taken into the offices of some of the leading professional men of the city, gaining an education at first hand of many businesses and trades with which they would otherwise be unacquainted.

The week is being observed throughout the entire nation, and many of the larger cities are making big plans to show their interest in the growing youngsters.

INFORMAL JOLLITY AT TULIP BALL

Informal jollity will be the keynote of the Tulip ball at the Armory this evening, and the Legion Auxiliary, which is sponsoring the event, wishes it understood that the ball is not formal in any way, but just a "get-together," at which the Legion Auxiliary, the Legion and their friends will rather for dancing, cards and a good time. The money raised by the dance will go for the assistance of the disabled ex-soldiers, and their families, and will be used entirely by the Legion Auxiliary for this work. The worthy object alone will undoubtedly bring a large patronage.

The Auxiliary members have decorated the Armory very attractively with tulips and greenery, and have arranged booths where girls will sell candy and refreshing drinks. Card rooms where games of bridge and 500 for those who do not dance have also been decorated, and there will be unusual entertainment for the spectators. The Legion Blue Devils orchestra will play.

Roy Oppie Wins Prize

Roy Oppie, one of the 20 Pacific coast salesmen for the Winchester Army company, today received notice from his company that he had won the capital prize, a fine solid gold watch, offered by his company for the best record and number of prizes made by one of their salesmen on the coast territory. Mr. Oppie prizes the gift very highly and says he is now "popped up" to go over the top against all comers when it comes to dispensing goods for his company.

OPEN SHOP CONFERENCE

(Associated Press Leased Wire.)
PORTLAND, April 21.—The western division of the American open shop conference with representatives of states west of the Mississippi river opened its fifth annual session here today. Plans for a monthly interchange of information as to labor conditions, employment, strikes and general industrial will be discussed. Among the speakers on the program are A. C. Rees, manager of the Utah Associated Industries, chairman; Irwin Rice, Los Angeles; W. H. George, San Francisco Builders' Exchange; Sidney Cornelius, San Antonio; C. H. Reynolds, Spokane.

FIRE IN TILLAMOOK

(Associated Press Leased Wire.)
TILLAMOOK, April 21.—A fire, starting in the Dawson and Dunn grocery store last night caused an estimated damage of between \$10,000 and \$15,000 and for a time threatened the whole business district before it was finally brought under control.

Several firemen were hurt when they came in contact with live wires.

GILLETT DENIES LIQUOR CHARGES

Speaker of House Appears at Hearing Today and Questions Witnesses.

TALK OF 'LIQUOR TRUNK'

Gillett Says That Whole Facts Were Not Given or He Would Have Been Exonerated.

(Associated Press Leased Wire.)
WASHINGTON, April 21.—Speaker Gillett appeared at the Daugherty committee hearing today and questioned H. L. Scaife, committee witness as to his statement that liquor seized in Washington by Prohibition agents, some years ago, went to Gillett's office.

"Where did you get your information?" the speaker asked.

"Most of it came from Mr. Woodruff," said Scaife.

"Congressman Woodruff?"

"Yes."

(Representative Woodruff, a republican, is from Michigan.)

Scaife, a former department of justice investigator, insisted that his original testimony "needed no corrections" to his knowledge. He reiterated that his information was that the speaker got the liquor for "a constituent."

The witness then turned to the speaker and asked if he "denied that the liquor had gone to his office."

"I certainly do," said Gillett.

"Do you deny that a trunk went there?"

Gillett said a constituent's trunk had been taken to his office but that it had no liquor in it.

Speaker Gillett then made a statement to the committee under oath. He said in the spring of 1922 he had heard and denied the report that a "trunk of liquor" had come to his office.

On investigation, he said, he found that a trunk from which liquor had been removed had been sent to his office for a constituent in 1919.

This was before the Volstead act, but it was against the law to transport liquor through dry territory, he said, adding that his friend who owned the trunk, "a very distinguished citizen of Springfield, Massachusetts," had been bound on a fishing cruise and had "six bottles of liquor in the trunk."

It was the breaking of one of these which led to the seizure.

Department of justice records were produced by the speaker to show that the liquor had been removed and said Scaife knew this when he testified.

"I think it is an outrage," the speaker said. "I don't know what his motive is. If he had told the whole facts it would have entirely exonerated me."

F. M. Boucher, a former justice department agent, testified that during his employment, "there was always a supply of liquor in a safe in the chief's office," meaning the office of the chief of the bureau of criminal investigation of the department of justice. This liquor was always "given to people" he said.

Speaker Gillett said he was out of the city at the time the trunk was sent to his office and his secretary arranged to obtain the trunk and the clothing it contained, but not the liquor and ship to Mr. "B." in Springfield. Later he told Representative Woodruff all of the circumstances.

OREGON DELEGATION APPOINTED BY GOVERNOR PIERCE TO VISIT CALIFORNIA AND OBSERVE DISEASE

California Delegation Visits Governor and Other State Officials Requesting Such Action—Do Not Ask for a Modification of the Oregon Quarantine.

(Associated Press Leased Wire.)

SALEM, April 21.—Following a conference here today participated in by Governor Pierce, the state livestock sanitary board and a special delegation from California appointed by Governor Richardson, a commission was appointed by Governor Pierce to go to California and make first hand observation of the foot and mouth disease and efforts that are being made to stop it. The California delegation did not request that the Oregon quarantine be modified in any way, but strongly urged the appointment of the commission.

The members of the Oregon commission will be Dr. B. T. Samms, head of the department of veterinary medicine at Oregon Agricultural College; Dr. W. H. Lytle, state veterinarian; M. R. Higgs, of Prineville, representing the cattle industry; Fred Faulkner of Pendleton, representing the sheep industry; W. K. Taylor of Corvallis, and Harry West, Dairyman of Seaside. All are members of the state livestock sanitary board except Faulkner. Dr. Lytle will remain in California only a few days, but at least one member of the delegation will remain until the menace has passed.

The California delegation on behalf of their state, offered if necessary to pay the expenses of the Oregon commission but Governor Pierce said this would be taken care of by the Oregon department.

The members of the California delegation were F. B. McKevitt, Sacramento, representing the fruit industry; H. W. Lewis, Santa Ana, Walnut Industry; C. N. Hawkins, Hollister, a ranchman and president of the California livestock show and Joshua Shandling of San Francisco, representing the banking interests. They were accompanied by J. O. Davis, former collector of the Port of San Francisco whom the delegation met en route to Salem and who participated in the party.

Mr. Hawkins in presenting the situation said that not only California, but the entire United States is threatened with a calamity not because of the disease in itself, but because of the commercial disruption caused by the embargoes against California. He told of the barren condition of the California ranges and declared that if the state can not move its stock it must let them die. An embargo by the entire United States, he said, would not spell the ruin of California but the ruin of the entire Pacific coast.

Federal figures, he said, show that 90 per cent of the disease is carried by human beings, and he declared that federal authorities say it can not be carried by the products of the soil. He denied that the true condition of affairs in California had been suppressed.

Mr. McKevitt said that the entire situation in California is practically in the hands of the government. Mr. Lewis said that \$2,500,000 worth of livestock had been killed, but the provision has been made whereby the livestock men are fairly well compensated for that loss, the government bearing half the expenses.

W. K. Taylor, president of the Oregon board, commended the Californians for the fairness of their proposal, but doubted the truth of the statement that 90 per cent of the spread is caused by human beings. The uncertainty as to how it is carried, he said, is the reason for the strictness of the Oregon quarantine.

Charles A. Park of Salem, president of the state board of horticulture, commended the California delegation for its fairness. He said he had confidence that everything possible is being done to curb the disease because, he said, the California agricultural department is without a peer in the United States.

(Associated Press Leased Wire.)
YUMA, Arizona, April 21.—Yuma basked silently in the sun today after an exciting week end which opened Friday with a near battle at the state line bridge and closed yesterday, Easter Sunday—with the joyful whoops of motorists who had been held on the California side of the line by Arizona's foot and mouth embargo on east-bound vehicular traffic.

All motorists arriving at Knob Siding, 14 miles west of here, not later than 9 o'clock yesterday morning, were fumigated and passed over the Colorado river here into Arizona, in accordance with instructions issued by Governor Hunt.

(Associated Press Leased Wire.)

Last night another group of candidates for fumigation began congregating at Knob Siding, but whether these tourists will be allowed to enter Arizona depends on the outcome of a conference today at Phoenix, where a Yuma delegation was to lay the situation before the governor and urge that all motorists be permitted to enter the state who submit to thorough inspection and fumigation at the siding.

(Associated Press Leased Wire.)
SALEM, April 21.—C. N. Hawkins, Hollister, California, Harvey W. Lewis, Santa Ana, Calif., M. B. McKevitt, Sacramento and J. O. Davis, Berkeley, accompanied by railroad officials have arrived here to take up with Governor Pierce today the matter of alleviating the strictness of Oregon quarantine regulations against the hoof and mouth disease.

(Associated Press Leased Wire.)
PHOENIX, Ariz., April 21.—Invitations will be sent to governors of western states to attend or send representatives to a conference in Phoenix to discuss the situation unless the California epidemic "abates materially in the near future," Governor Hunt announced last night.

(Associated Press Leased Wire.)
SALEM, April 21.—No modification of the quarantine established by Oregon was asked by the California delegation when the conference got under way this morning, but they requested that a commission be sent to California to study the situation, offering to pay the expenses of such a commission.

If such a commission is sent south one member will remain on the ground until all danger of further spread has passed, it was indicated during discussion of the proposal.

(Associated Press Leased Wire.)
PHOENIX, Ariz., April 21.—Federal troops have been requested to re-establish the quarantine against California on the Yuma Indian reservation near Knob, California it was announced here today by Superintendent Odell of the reservation.

(Associated Press Leased Wire.)
PHOENIX, Ariz., April 21.—Three men were arrested today at House, Arizona, charged with violation of Arizona's quarantine against California following the smuggling of several race horses and mules across the Colorado river near Blyth, the state livestock sanitary board announced today.

MERCED, Calif., April 21.—Two small herds were found infected with the foot and mouth disease here yesterday and killed. They were 24 cattle and 10 horses near the Dallas ranch and eight goats near Buhach.

The situation here looks somewhat more encouraging, Dr. H. Grafke, federal inspector in charge said this morning, but he added, it is necessary that people stay at home and observe the quarantine.

(Associated Press Leased Wire.)
WASHINGTON, April 21.—Use of federal troops in the enforcement of the foot and mouth embargo on traffic between California and Arizona is illegal and requests that troops be made available for that work were denied today by Secretary Weeks.

The secretary acted after he had obtained an opinion from Major-General Bethel, judge advocate general of the army. A request to the war department by Arizona authorities for an army airplane to patrol the Arizona-California border also was denied. Money appropriated by congress for aircraft operations, it was held, could not be expended for such work.

(Associated Press Leased Wire.)
WASHINGTON, April 21.—An extra appropriation of \$1,500,000 to combat the foot and mouth disease in California was approved today by the senate. The house acted favorably on the bill Saturday and it now goes to the president.

DO YOU KNOW THAT
Roseburg had 1677 water users in 1923?
