Mouth disease is charac-
erized by an eruption of
vesicles in the mucous
membrane of the mouth
and on the skin above
the vesicles rupture, form-
ing ulcers, tenderness of
parts, loss of appetite,
inaction, and diminution
quantity of the milk.

The 1914 outbreak turned
over known in this country,
the last infection not being
disposed of until May 1916.
It spread into 22 states
and the District of Columbia,
Iowa, Montana, and Wash-
ington were the only states
west of the Mississippi
that were affected.

The American system of
control is by purchasing and
slaughtering all affected
animals. The government
and state cooperate, the
owners being paid the judi-
ciously appraised value of
the cattle killed. The car-
casses of these cattle are
totally destroyed, either
by cremation or by burial
with air-slaked lime.

There is no danger to
human beings from the use
of meat or milk providing
the proper precautions
are taken. The virus is
completely destroyed by
cooking, and pasteuriza-
tion of dairy products
originating from diseased
animals renders them safe
for human consumption.
Under prevailing state and
federal regulations the
possibility of meat or
dairy products containing
the virus of foot and
mouth disease is practically
negligible.

NEW JERSEY FOR CALVIN COOLIDGE

(Associated Press Leased Wire.)
NEWARK, N. J., April 21.—Support-
ers of President Coolidge are confident
over the outcome of the presi-
dential primaries tomorrow in New
Jersey when 31 delegates will be
elected to the republican national con-
vention. The democrats are expected
to choose a solid delegation of 22
pledged to Governor George Silzer.
Interest in the republican campaign
had been aroused by injection of the
prohibition issue of Coolidge candi-
dates for delegates at large.

NO MORE HANDSHAKING

(Associated Press Leased Wire.)
WASHINGTON, April 21.—"Hand
shakeless" receptions by
President Coolidge were made to ap-
ply to everybody today when more
than 1200 persons gathered at the
executive offices with the purpose
of shaking hands with the presi-
dent. The plan probably will be
continued through the spring tour-
ist season to save the time and
strength of the president although
complaints were numerous today
from those who, instead of shaking
Mr. Coolidge's hand as they expect-
ed, had to content themselves with
a hurried look at the executive as
they passed through his office while
he sat at his desk signing his cor-
respondence.

be in charge of the clinic. All moth-
ers who desire to have their babies
examined are asked to have the chil-
dren their either Tuesday of Wednes-
day mornings.

BOIN

CHAPIN—To Mr. and Mrs. W. L.
Chapin, Greens Station, a boy, Sun-
day, April 20, 1924.

A very striking and pleasing feature
of this suite is the panelled effect
achieved through the use of solid
Walnut mouldings. The finish is the
new wood lacquer—soft and rich in
tone and exceptionally durable.

Observe the Irresistible Charm of this dining room suite--Then Come and See It.

It is made in the Northwest by Northwest Labor.

8-PIECE SUITE

Combination Walnut
60 inch buffet; 45x60 inch cut
corner table that opens to 8
feet; arm chair and five side
chairs, upholstered in genuine
leather.

In a few days from today your dining room can hold a suite
you once might have thought would be very costly. Economies
in manufacture and distribution, highly gratifying to our
customers, have been effected by the producer of our dining room
suites. A reflection of these economies is seen in the unusual value
of the suite illustrated—a modified Italian design of striking beauty,
embodying to such an exceptional degree high quality, workmanship,
construction, and finish that both we and the manufacturer give it
our unqualified guarantee.

Equally good values are represented in other styles from the same
maker that we shall also be glad to show you.

CLUE TO MURDERS FOUND

(Associated Press Leased Wire.)
BEND, April 21.—Discovery of
what appears to be human hairs on
an axe found beneath snow which
had fallen since the disappearance
of three trappers from their cabin
at Lava Lake and discovery of hairs
at a place on the lake where a three
foot hole had been cut in the ice
were developments which strength-
ened the belief of local officers that
the missing men had been the vic-
tim of foul play.
