WILL INSPECT OLD BATTLESHIP OREGON

H. C. Waddell left this afternoon for Seattle where, as department commander of the Spanish American War Veterans of Oregon, he will inspect the old battleship Oregon. Mr. Waddell was appointed to make this trip by Governor Pierce, to determine whether or not the old war vessel should be accepted by the state under the terms fixed by the government.

AGED VETERAN PASSES AWAY THIS MORNING

Wallace A. Shifflet, an aged veteran of the Civil War passed away this morning at the Soldiers Home, after an illness of eight days. He was over 85 years of age at the time of his death and is survived only by his widow. He served in the 12th Missouri Cavalry during the war and has been a resident at the home for a long period of years. He has an innumerable number of friends and comrades

among the old veterans, who are sorrowful to see him pass away. The funeral services will be held on Wednesday at 2 o'clock and interment will follow at the Home cemetery.

TAKES OVER AGENCY

B. McGillen arrived here today and will take immediate charge of the local Singer Sewing machine agency. He relieves E. O. Peter who is leaving for Eugene to take over a branch office in that city. Mr. Peter has conducted the agency here for some time and has built up a large trade. Friends are wishing him success in his new work and are also welcoming his successor to this city.

YOUR OPPORTUNITY!!

This is your opportunity to place a New 1923 Model Great Majestic Range in your kitchen at a real bargain. By all means don't fail to see the New MODEL MAJESTIC—it's the last word in modern range construction. Many, many improvements have been added to this already famous range and its graceful stream line beauty will please you immensely. Make it your business to drop in our store at least one day during our

Special Exhibit and Sale of

GREAT MAJESTIC RANGES

ONE WEEK ONLY, APRIL 21 TO 26

Ask your friends and neighbors to come with you—we are so delighted with the New Model MAJESTIC that we want everyone to see it. Come whether you buy or not. Let the factory representative, who will be with us all week, show you just how the MAJESTIC is made—inside and outside—show you the true reasons why this wonderful range performs, looks and lasts so much better than other ranges.

Let the factory representative give you the opinion of an experienced expert. He will show you the many features of the new MAJESTIC that have gained for it the proud position of being the most dependable and beautiful range in America.

Reputation in a range is something to be carefully considered before buying, for reputation is made up of tests successfully passed.

FREE—During This Exhibit Only

Look at these two fine sets of cooking utensils! Either set may be yours absolutely without cost, just for deciding to buy your Great Majestic Range this week instead of later.

Polished Solid Copper Set.

The set illustrated to left is of pure heavy copper highly polished and of exquisite design. Every woman falls in love with it on sight—don't fail to drop in and see it.

Special Majestic Ware

This wonderfully serviceable ware, illustrated below, is well known by thousands and thousands of Majestic Range users, it is the highly prized, extra heavy old time Majestic Set, the same as furnished before the war.

Choose the style of new MAJESTIC that meets your individual need and preference; the practical, durable, economic and matchless cooking qualities that have always distinguished the MAJESTIC ranges are the same in every type. In addition to its superior working qualities, the new MAJESTIC, by its handsome design and graceful artistic appearance, gives a touch of beauty to any kitchen. It is not only the best range to work with, it is the best to live with.

ANNEXATION PARK ADDITION DELAYED

Action on the inclusion of Umpqua Park addition to the city of Roseburg was delayed last night when the council voted to table the petition for a special election in the district indefinitely. If the city takes in the park addition it will be necessary to provide fire and police protection, and other of the city conveniences, which would be extremely expensive and difficult with the present connection with that section, and as the city has no funds with which to build a bridge the inclusion of the park district is a matter to be seriously considered.

Under the new charter provision the people who desire to be annexed to the city are required to present a petition asking the city council to call a special election. The council, representing the people of the city, has the right to decide whether or not the inclusion of that territory is desirable and would inure to the benefit of the city. If it is decided that the outside territory is wanted, then the council may call the election as requested, but if it is decided that it is not to the city's interest to annex such territory then the election need not be called.

LOCAL BANKS BUY ROSEBURG BONDS

City Improvement bonds in the sum of \$4,439.65, were purchased last night by the Douglas National and Umpqua Valley banks of Roseburg at a premium of \$1,769.35. The bonds were eagerly sought and some good offers were made by the six firms making bids.

The council had considerable difficulty in selecting the highest bid as the local banks and the proposal of the Freeman, Smith and Camp company were very close. The Freeman, Smith and Camp company bid \$104,031, per \$100, making a premium of \$1,871.08. However, the company demands a transcript which would cost not less than \$75, while there would be some delay in taking over the bonds while waiting for a legal opinion, so that in the minds of the council the bid of the local banks was the best for the city's interests.

The other bids submitted were as follows: Ralph Schaefer Company, \$103.33 per \$100; Clark, Kendall and Company, \$103.82, per \$100; Western Bond and

ELKS DANCE THURSDAY

A regular informal Elks dance will be held on next Thursday night for all of the members. Cards and dancing for all and a real time is the prospect. Be there, Bill!

Mortgage Company, \$103.07, per \$100; Lumberman's Trust Company, \$4.18 premium.

SMITH WITHDRAWS FROM SENATE RACE

SALEM, April 22.—Notices are being mailed out to the county clerks of Oregon from the office of the secretary of state advising them to strike the name of Eugene Smith, of Portland, candidate for the republican nomination for United States senator from the primary election ballots.

Mr. Smith this morning advised Secretary of State Kozer of his withdrawal from the contest. The only reason for his action in withdrawing was that he did not feel financially able to conduct a campaign such as he would be called upon to make if he should remain in the contest.

TO INVESTIGATE HENRY FORD'S OFFER

WASHINGTON, April 22.—Investigation of Henry Ford's Muscle Shoals proposal by the senate agriculture committee awaits the arrival of W. B. May, Ford's chief engineer, who is expected to appear sometime this week.

A. H. Hooker, an associate of the Hooker-White-Atterbury bidder, gave testimony today by elaborating on the purposes of chemical production at Muscle Shoals under terms of the bid.

The possibility of manufacturing at Muscle Shoals two chemicals described as destroyers of the peach bore and the boll weevil in conjunction with the production of concentrated fertilizer was further explained by Hooker. He said he knew of no reason why calcium arsenate, or arsenate of lime, used in combating the boll weevil and a specific made from Chlorine and bleaching soda, and acting in the manner of poison gas against the peach bore, could not be produced in adequate quantities at Muscle Shoals.

Research is being conducted, Hooker said, in an effort to develop a specific to exterminate wheat rust and tobacco wildfire. Flour manufacturers of the northwest, he added, are spending more than \$250,000 a year on this investigation.

Senator McNary, republican, Oregon, asked Mr. Hooker if the saving in transportation on fertilizer would apply to the northwest and the witness replied that in his opinion cheaper rates would be limited to territory east of the Rocky mountains, but the water transportation through the Panama canal probably would aid the northwest. He said probably Muscle Shoals would furnish a nucleus for a similar operation at some water power site in the west.

"The fertilizer industry in the United States is rotten from top to bottom," Hooker declared, adding that present commercial fertilizer contained many useless materials. At Muscle Shoals, he declared, fertilizer could be produced in concentrated form and the farmer could mix his own fertilizer on the farm. This would effect a great saving in transportation, he added.

S. P. FILES NEW TARIFF SCHEDULE

SALEM, April 22.—The traffic department of the Southern Pacific company today filed a new tariff schedule with the public service commission contemplating a permanent elimination of its train service from Salem west to Dallas, Falls City, Black Rock and other points east from Salem to Silverton. The company proposes to substitute service by entering into contracts with stage companies. The effective date of the new schedule is May 2.

The company already has eliminated its train service, this action being taken last Sunday. The public service commission finding that the tariff schedule submitted sometime ago was defective in various ways and that an adequate substitute transportation was not provided, exacted a promise from the company last Saturday. It is said, that it would not eliminate its trains Sunday, but the company did so regardless, claiming that by reason of
