ROSEBURG, OREGON, MONDAY, APRIL 28, 1924.

NATIONAL BOYS' WEEK.

The week April 27 to May 3 is to be observed as National Boys' Week, with a boy's day in the churches, observances in schools, and recognition of boys' activities in industry and citizenship.

One of the biggest factors in giving a town a fine appearance is the frequent application of housepaint. A building may be unattractive in its lines, it may be ancient and plain and bare.

An authority on kindergarten work recently stated that criminal tendencies usually show up in children by the time they reach seven years of age.

Now we have the finest bridge on the entire Pacific highway dedicated to Douglas county. And we certainly feel mighty proud of the honor.

There must have been close to a million automobiles—probably more—in and about Roseburg Sunday. It was an awful showing of the gas vehicle.

The "Robert A. Booth Bridge" is a beautiful structure. In the vernacular of the street urchin it is a "whale of a bridge with all the trimmings."

And it wasn't a bad day for politicians. To "show off" before some eight thousand people was certainly worth the trip to Roseburg.

This is Booster Day in Roseburg—and the boys are rarin' to go over the top for all Oregon. Fine spirit.

We are glad the Teapot Dome scandal is beginning to diminish. Another oil well gone dry.

The horse-trader didn't have as many things to lie about as the auto-swapper.

Have you voted for your favorite queen in the strawberry carnival contest?

And, as usual, the weather was just at its proper sphere for the day.

A nickel isn't as good as a dime, but it goes to church more often.

The female of the species is far cooler than the male.

FOREST FIRES ARE BEING CONTROLLED

(Associated Press Leased Wire.)

PORTLAND, April 28.—Forest fires in Oregon and southwestern Washington, which in the past few days have done damage to timber and buildings were reported this morning to be subsiding or under control, owing to the absence of the stiff wind which fanned the flames Friday and Saturday.

Crews of fire fighters were still combating flames in Clarke county, Washington, which swept over two farms near Eriel, 18 miles from Woodland, and which menaced bridges near Yacolt. Volunteers were trying to keep these fires from green timber.

Fires were still smouldering today in the Yale district of Clark county and where a mill and several buildings burned Saturday. A fire at Sifton was under control. The telephone line to Venersburg was still out of service today.

In Cowitz county, where 2,000 acres were swept, officials today believed there was no further danger. The fires in Oregon, especially at Vernonia and near Tillamook were reported as not being dangerous today. Small fires in the Hood River district were reported well in hand.

ELKS MAY ORGANIZE BASEBALL LEAGUE

A move is on foot to organize a baseball league between the Elks teams of Roseburg, Eugene, Coos Bay, and Willamette Valley towns. No definite action has as yet been taken, other than to discuss the matter with a number of the lodge officials in the various cities. It is possible that within the near future the teams will be organized and a league schedule arranged. There seems to be considerable sentiment in favor of the league among the lodges and some definite arrangements may be made soon.

PROBING COMMITTEES SLOW DOWN WORK

(Associated Press Leased Wire.)

WASHINGTON, April 28.—The falling curve of the senate investigations reaches a new low level today. It was one of the few investigation holidays in weeks with all three of the major senatorial investigating committees in recess.

The committee inquiring into the indictment of Senator Wheeler did not meet because of the particular witnesses wanted by Chairman Borah in his effort to keep the presentation of evidence in logical order.

Both the Daugherty and oil committees were occupied with other things while the revenue bureau, Russian, Mayfield propaganda and diploma mill committees continued their indefinite recess.

A session of the Texas frauds committee spoiled a perfect record on that side of the capitol. On the house side, the shipping board investigation continued, but the bribery, engraving bureau, aircraft and land grants inquiries remained quiescent.
