ROSEBURG, OREGON, TUESDAY, APRIL 29, 1924.

LOOKING FOR OPPORTUNITY.

When people complain because it is difficult to get enough intelligent young men to enter the trades calling for manual labor, they might reflect that the principal reason is because of the intense ambition of these young men. It is commonly said that young men won't enter many of these trades, because they do not want to get their hands dirty, or they are afraid to soil their clothes, or they do not think that such trades give a fellow a good social position. But one refuses to believe that the masses of young Americans have so little common sense. Probably the big reason why young fellows shy out at many of those trades, is that they think that there is not much chance to rise. They prefer jobs where there is a good chance of promotion. It is noted for instance, that plenty of young fellows will go into the automobile and electrical trades, since they feel that those occupations do offer good chances for advancement. They often get all covered with grease and oil in garages, for instance, yet they have the feeling that the automobile trade is one with many chances to go ahead, so they rush into it in spite of all the dirty work that has to be done. These fellows are mistaken if they think that the ordinary mechanical trade offers no opportunity. It is pretty hard to put a fellow on any trade where ability and effort and intelligence will not count and help him get ahead. But to make any occupation attractive to the multitude of young men who today have had a fair education and are reading and thinking, some doors of opportunity must be opened to them. You must show them that there is a chance for a hard working and earnest fellow to get on. Most young men nowadays will put up with dirt, if you can show them there is a chance to climb and make something of themselves.

THE SCHOOL INVESTMENT.

A writer on educational problems says that parents resist increases in school taxes and hinder rather than help the schools only because they do not see an immediate material return from the investment in education. Such an attitude, he shows, will react against the very material progress such persons hope for.

"Just consider," says this writer, "the colossal folly of building up great and wealthy communities with paving and sewer and water systems, with telephone, gas, electricity and street cars, with communications by land and water perhaps even by air, and yet failing to train in the most effective way possible those who must manage it all!"

Fortunately for the future of the land, not all parents and not even all business men make the mistakes about which he complains. Many parents frankly admit that schools today are better than they were a generation ago, and they do all in their power to cooperate in continued improvement. The sad fact that the nation spends far more money annually for candy and tobacco than it does for education is somewhat softened by the growing interest in education and by the discovery among the many frills that have been experimented with in recent years, of a number of very fine innovations over which foresighted parents rejoice as much as do forward-looking educators.

It is said that many business men are now taking a somewhat waiting attitude, postponing their commitments to some extent until the political conventions are out of the way. Then they feel they can make a closer forecast of the financial weather. People who are hesitating from such motives, however, might well consider that nothing the United States will do in a political way is ever likely to produce any prolonged difficulties. There is an undertone of sound sense in our people that holds them back from extremes. Certain advanced philosophers may announce very radical projects, but the mass of the people hold back from such enterprises because they are so vague. The average man wants something clearly defined before he goes into it. Before leaving, he wants to know what the ground is on which he is going to land. Even when radical people get into office, the necessity of securing the cooperation of the business community usually holds them back from anything very extreme.

Addressing the Daughters of the American Revolution a few days ago, President Coolidge urged them to go to the polls and vote, also to use their influence to preserve and improve the institutions of the country. The woman who is burdened with her housework and care of children, may say she has no time to attend political meetings and study politics. Also the lady who goes in for society doings may think that a political speech is mighty dull business compared with dancing or card playing. But the women who do study politics will find a new world of interest, and learn that the conflicts in the political arena are as thrilling as any novel.

A calendar of 13 months is favored. Some people will think it means one more set of monthly bills but no more paydays.

Congress is reminded that it was not established to promote oratory contests, but to get work done.

Some of the time the boys put in holding hands should be put in to holding the handles of hoes.

Rudyard Kipling was regarded as dull and lazy by his teachers. He got over his laziness.

Another great unsolved mystery is why a fly never goes out through a hole in a screen.

PRUNE PICKIN'S

BY BERT G. BATES

GOOD EVENING FOLKS—
The roses are bloomin'
The strawberries are
Gettin' redder
And folks it's
Beginnin' to look
Like the carnival is
Goin' to be a
Humdinger.

DUMBBELL DORA THINKS
Garlic is the name of an opera singer.

MAN'S INHUMANITY
We didn't like the trailing kind,
We said 'twould spread disease;
We flout the ones they're wearing
now—
The ones up to their knees.

We didn't like the one with hoops,
It keeps us too far off;
And when they wore the "bustle"
kind
Again we men did scoff.

The "silk" one we could never bear,
The "silk" one we could never bear,
We said it looked risqué;
And when they wore the "X-ray"
kind,
Of course, we dubbed them "gay."

They've worn them long, they've
worn them short,
They've worn them narrow, wide,
They've worn them loose, they've
worn them full,
They've worn them tight as hide.

They've worn them thick, they've
worn them thin,
They've worn them ruffled, plain;
But I'm compelled by truth to state,
Each one brought down disdain.

I think they've worn them every way,
That human brain could plan,
But each and every one of them
Has been condemned by man!

The Kiwanis gang staged a little
soup-broadcasting at noon today.

The boosters all staggered to their
respective homes last eve.

Just as we had rolled up the hose
and stood back waitin' for Jupe
Pluvius to do his stuff we had to
turn the ol' meter on agin.

The various carnival queen contestants
have beseeched ye ed. of Prunes
to take up their campaign and to
use this great coyum in their behalf
but owin' to the fact that we carry
very little life insurance and no
liability protection we refrain from
commenting on the contest other
than statin' that as yet we have not
decided as to who would look better
as the reignin' monarchess of this
vast empire.

A coupla new damsels in the vil-
lage today made many a feller late to
dinner.

Naughty things shock the pure in
heart and bore the hard-boiled. Only
the middle class gets that delightful
thrill.

Life is a mirror in which many a
man is ashamed to look himself in
the face.

New York minister says legs were
made for show, if that is true most
of the girls are living up to what the
lower limbs were made for.

CAN YOU EXPLAIN IT?
Farming is an aggravating life—a
mess of trouble, stress and strife;
If you have shekels by the score,
your friends will gladly lend you
more.

But if, by chance, you haven't any,
you'll find you cannot get a
penny:
Even the hens will lay a heap,
when eggs are plentiful and
cheap.
I'll tell the world it's gosh darned
queer
They always quit when eggs are dear.

A rag man came to the house the
other day and asked the Mrs. if she
had any old rags. "Yes," she replied,
"But my husband makes me wear
them."

Sheik and thou shalt find.

The gypsies have moved on to green-
er pastures on acct. of the bitter bat-
tle waged by this coyum on the for-
tune tellers.

"When a feller looks at a cherry
tree nowadays he wonders how many
gallons are on it."

SENATOR COUZENS
ON OPERATING TABLE

WASHINGTON, April 29.—Senator
Couzens of Michigan went under
the surgeon's knife at Johns
Hopkins hospital today for the
removal of a long standing affection
of the gall bladder. He has been
at the hospital for the last two
weeks preparing for the operation.

OFFICIALS APPEARED BEFORE WAR DEPT.

(Associated Press Leased Wire.)
WASHINGTON, April 28.—Three former cabinet members and four senators, all democrats, were listed by Secretary Weeks in a report to the senate today as having appeared either in person or through their law firms in cases before the war department within two years after their retirement from office and since January 1, 1918. The cabinet members named were William G. McAdoo, A. Mitchell Palmer and Thomas W. Gregory, and the senators were J. Hamilton Lewis, of Illinois; Hoke Smith, of Georgia; Christie Bennett, of South Carolina and William Sulzberg, of Delaware. The secretary also listed the following members of the house: Burton Sweet, Ohio, republican; W. B. Jamieson, Iowa, republican; C. C. Carlin, Virginia, democrat; J. T. Watkins, Louisiana, democrat; T. J. Ryan, New York, democrat; J. C. Oarden, Kentucky, republican; G. E. Currie, Michigan, republican; J. W. Wood, Iowa, republican.

Operated on For Appendicitis

Funeral Arrangements to Be Announced Later.

Many times, no doubt, you have seen the above headlines in your newspapers. Very often it has told of some friend suddenly stricken with dread appendicitis. The newspapers, however, neglected to state that appendicitis is usually preceded by stomach trouble. They don't tell you that the afflicted person suffered frequent attacks of heartburn long before he went to the hospital.

While heartburn is not always a sign of an inflamed appendix, it is always a warning that something is wrong. In many cases it results from indigestion, which is one of the predisposing causes of appendicitis. If you suffer from a burning, gnawing sensation in the stomach, excessive gas, sour stomach, nausea or other distress after eating, go at once and obtain a bottle of Smith Bros. M. A. C., the guaranteed stomach treatment, harmless liquid rids the stomach of catarrhal mucus, allays inflammation, helps digestion and cleanses the bowels of poisonous waste matter. Price \$1.25. Money back if the first bottle does not relieve. Nathan Fullerton Store will supply you. Mail orders accepted.

BOUNDARY LINES DRAWN BY TREATY

(Associated Press Leased Wire.)
LONDON, April 29.—J. H. Thomas, the colonial secretary announced in the house of commons today that as no settlement by agreement was possible the boundary between northern Ireland and the remainder of Ireland must be determined in accordance with article XII of the Anglo-Irish treaty. This article provides for the establishment of a boundary commission.

LONDON, April 9.—The note which, according to several Dublin reports, the Irish free state government has sent to Great Britain requiring immediate stabilization of the boundary commission will, it is believed force the London government to take a definite step bringing this dangerous problem to the front.

The sequel to such a move is likely to tax the statesmanship of the administration to the utmost unless some ground of agreement can be found and of this there is said to be little hope in London, Dublin or Belfast.

Some of the correspondents in Dublin and some of the political commentators predicted civil war in Ireland if the commission is set up and awards to the Free State those northern areas where the nationalist voters predominate.

AGGIES DEFEAT JAP BALL TEAM

(Associated Press Leased Wire.)
CORVALLIS, April 29.—Oregon Agricultural College shut out the Meiji University baseball nine in a game played here yesterday, 7 to 0. The game was close until the seventh inning, when the Japanese pitcher weakened, and the Aggies scored 4 runs, in addition to 3 already chalked up.

Mr. and Mrs. Chas. Gilbert left this morning for Medford where they will make their future home. Mr. Gilbert's headquarters have been changed from Roseburg to that city. They have many friends here who regret their departure to the southern city.

A quality cigarette at a quantity price—aristocratic flavor at a democratic cost.

COLLIE DOG SAVES LIVES OF EIGHT

(Associated Press Leased Wire.)
LAMBERTON, N. Y., April 29.—The lives of eight persons were saved by a collie dog when the farm house of Leslie S. Morrison burned to the ground early today. The dog sacrificed its own life. Morrison was awakened by the dog tugging at the bed clothes to find the house in flames. With the help of his wife and his cousin, James Morrison, he carried five children, ranging in age from three to nine years, to safety. Two of them had been overcome by smoke. The dog's body was found in the debris.

VACUUM TUBES MAY SPEED CABLEGRAMS

(Associated Press Leased Wire.)
WASHINGTON, April 29.—Ultimate attainment of a "speed and accuracy unthought of at present," in ocean cable transmission through the adaptation of electro vacuum tubes for cable as well as radio communications was predicted today at the annual meeting of the National Academy of Sciences here by Major-General George S. Squier, retired, an inventor and former chief signal officer of the United States army. Experiments already made through adaptation of radio mechanisms to the "sub-audio band of frequencies" in ocean cable work, General Squier said, have resulted already in marked progress. The work has been done in connection with the new Seattle-Ketchikan, Alaska army cable in the laboratory of William M. Bruce, Jr., at Springfield, Ohio, he said, and by the bureau of standards in Washington with army signal corps funds.

NATIONAL REPUBLICAN ASSAILED IN SENATE

(Associated Press Leased Wire.)
WASHINGTON, April 28.—The National Republican was assailed today in the senate by Senator Ashurst, democrat, Arizona, in connection with his publication of a statement by Attorney General Stone that indictment of Senator Wheeler, by a federal jury in his own state, was justified. Reading a published denial by the attorney-general that he had made any such statement, Senator Ashurst said he feared that the article published in the National Republican stated what the publishers of that paper wished to be the case and not what was the actual facts.

STOMACH TROUBLE MADE HIM QUIT HIS WORK

But Albert Gapp, of Canton, S. D., Turned to TANLAC and Regained His Strength.

"If a medicine has ever completely changed a man, I am that man and TANLAC the medicine. I have been so thoroughly rebuilt that I don't look or feel like the same person." Is the striking statement of Albert Gapp, well-known printer, of Canton, South Dakota.

"Ten years of stomach trouble pulled me down to where I had to quit work time after time. Nervousness, kidney and bladder disorders, bad liver, bursting headaches, sleeplessness and loss of appetite all contributed to my misery and my complexion was yellowish, my eyes darkly circled, my tongue coated, and what I lacked of being a total wreck wasn't much.

"An operation was suggested as my only hope of recovery, but I took TANLAC instead and now my health is of the best. I haven't an ailment, eat anything, sleep well and my weight has gone up twenty-three pounds. I have a world of strength and 'pep' and everybody tells me how well and strong I am looking. Language is too weak to express my gratitude to TANLAC. Its merits are beyond question."

TANLAC is for sale in all drug stores. Accept no substitutes. 49 million bottles sold. Take 'TANLAC Tablets'.

APPROVE AMENDMENT TO REVENUE BILL

(Associated Press Leased Wire.)
WASHINGTON, April 28.—The senate today approved an amendment to the revenue bill increasing the corporation tax from 12 1/2 to 14 per cent. Repeal of the tax on telephone and telegraph messages, ordered by the house, was approved by the senate rejecting a committee amendment, which would have restored this levy to the revenue bill.

Announcement was made by Senator Simmons, North Carolina, ranking democrat, on the finance committee, that the minority would offer later a substitute proposing a graduated tax in place of the flat levy.

WEDDING CEREMONY MONDAY

E. C. Lindgren and Lucile Nickens were united in marriage Monday afternoon at four o'clock at the Baptist parsonage. Rev. Caldwell reading the ring ceremony in the presence of a few friends and relatives of the contracting parties. The bride was formerly a resident of Looking Glass, and Mr. Lindgren is employed as fireman by the Southern Pacific Company. They will reside on Military street.

GOVERNMENTS AGREE UPON REPARATIONS

(Associated Press Leased Wire.)
PARIS, April 28.—France and Belgium today reached a complete accord on the course to be taken by the two governments as their part in putting the reparation experts' recommendation into effect. As a result of today's decision taken at a conference between Premier Theunis and Foreign Minister Hymans of Belgium and Premier Poincare of France, the two governments will separately endeavor to reach a similar agreement with Great Britain after which the final untangling of the reparation snarl will be attempted in a general allied conference. The conference developed into a highly important consultation on the whole subject of the pledges to be demanded of Germany and the conditions under which the reparations are to be evacuated when the experts' recommendation into effect.

AMERICAN STEAMER

(Associated Press Leased Wire.)
WASHINGTON, April 28.—The steamer Schurman at Peking called on the department today for the steamer department Robert Dollar, who was at Chungking, China, on Monday. Passengers and crew were reported safe with the steamer. The wrecked ship was in the Gulf of Mexico. The wrecked ship was in the Gulf of Mexico. The wrecked ship was in the Gulf of Mexico.

INSANE MAN HANGS

(Associated Press Leased Wire.)
PORTLAND, April 28.—The body of John H. Haffner, 42, an inmate of the state hospital here, was found hanging from a gallows in a room in his room, where he had been himself. Attention was called to the fact that the man had been suffering from mental illness and had been despondent.

INJUNCTION ENFORCED

(Associated Press Leased Wire.)
PORTLAND, April 28.—An injunction brought by W. A. Lake, a permanent resident of the city, against the J. H. Tillamook company, for the purpose of preventing the company from disseminating a pamphlet which contained a number of untrue statements, was enforced today by Judge Taylor. The injunction was granted in connection with the trial of the case.
