ROSEBURG, OREGON, WEDNESDAY, APRIL 30, 1924.

ROSEBURG GETS FAVORABLE ADVERTISING.

During the past week Roseburg has received much favorable advertising. The dedication of the new highway bridge at Winchester and the big booster meeting held here Monday brought thousands of people to this section.

The more one sees of Roseburg the more enthusiastic one becomes. They have a high school that is at least 20 times better than the high school in Medford, a most attractive golf club six miles out on the Umpqua river, residence section off the regular course of motor travel, that is most attractive, and now they are putting in a fine athletic field and putting on a strawberry festival.

The Grants Pass Courier, speaking of the booster meeting held here Monday, comments as follows:

"In such an organization as the Oregon Hospitality Club, formed Monday at Roseburg at a meeting of members of the various booster clubs of the state, there exists the machinery for the accomplishment of much that will be for the good of the state.

Throughout the entire state all newspapers carried news dispatches of what was going on in Roseburg, giving wide publicity to the two recent events held here. Thus, it is conclusively demonstrated, that the efforts of our people in all public matters affecting Roseburg brings excellent returns for the energy, time and money advanced by the public-spirited citizens who are for the best interests of the community.

We cannot discern any particular reason for this country applying salve to the proposed Japanese immigration law. Neither do we see where the Japs should come in for any advice or consultation on the matter at hand.

By judicious advertising any manufacturer or merchant in a city or state may create demand for articles of which little is known. It is simply a process of creating a desire in the mind of the buying public to try out the product advertised.

Among those who feel that their home localities have been neglected in the distribution of offices, are those who are looking for some snug berth in the public service.

Among the folks who want constructive legislation are those who are working for public building appropriations.

The objection to work is not so intense here as to prevent some people from working their friends.

Some people's idea of ambition is to entertain a prejudice against working with their hands.

ROTARIANS WILL GO TO GRANTS PASS

The Roseburg Rotary Club will go to Grants Pass on Wednesday evening, May 7 to present the chart-

er to the Grants Pass club, which has been recently formed. The local Rotarians plan to charter one of the large buses for the trip and the entire membership will go.

Now they want the motorcycle cops to kiss each tourist as they enter Oregon. What could be more comical than an Oregon traffic cop on a petting party with a California tourist.

THE POT OF GOLD It has been a beautiful sunset, and the golden streamers of light are fast fading from the sky. The last crow of the cock has died away and peace and quiet settle down upon the tiny brown cottage by the roadside.

Near the window sits a little grey-haired woman, with bowed head. Her eyes are moist. Now the melodious sound of music comes floating from the other room. A tear runs down her wrinkled cheek, and then another. She brings her handkerchief to her eyes and takes it away wet. How much longer must she wait for him to come?

Turning slowly toward the open doorway, with a clear sweet voice she calls out: "Jimmy, shut off that phonograph this instant and come help me peel these onions!"

"A feller is as old as he lets on."

WANT AMERICA TO ENTER WORLD COURT

(Associated Press Leased Wire.) WASHINGTON, April 30.—A hearing to assemble evidence upon the proposal for American participation in the world court was begun today by a sub-committee of the senate foreign relations committee with advocates of the plan here from all parts of the country to present their arguments.

Chairman Pepper of the sub-committee which will hear both proponents and opponents of the proposal announced that he hoped to complete the public sessions within ten days or two weeks. The proponents, reporting religious, industrial, commercial, professional and women's organizations, who have united forces for presentation of arguments were allotted the opening sessions.

Miss Bollman has been the governor's head stenographer since his inauguration. She was formerly in his employ and worked in his campaign headquarters prior to his election. By virtue of her position as secretary to the executive Miss Bollman will be a member of the state parole board. It is believed she received the appointment about 10 days ago, but that the governor did not want to make it public until the next meeting of the parole board.

JAPAN SUGGESTS NEW TRADE TREATY

(Associated Press Leased Wire.) TOKIO, April 30.—Viscount Ishii, Japanese ambassador to Paris, has approached the French government with a proposal to negotiate a new treaty of commerce and navigation. The Associated Press learned today from an authoritative source. This treaty would supersede that of 1912, which was abrogated after the war when France renounced all commercial treaties.

In this connection it was categorically stated by the foreign office that a political understanding is not contemplated by either in Tokio or France and no conversations to that end have been undertaken either in Tokio or Paris. The attention Tokio now is giving to Franco-Japanese relations is second only to that concerning the American immigration issue.

STATE MAY TAKE BATTLESHIP OREGON

Committee Recommends That Boat Be Accepted If Government Will Put Her in Condition.

A recommendation that the state of Oregon accept the old Battleship Oregon, providing the Navy Department will turn the boat in shape before it is turned over to the state, has been submitted to Adjutant General White by H. C. Waddell of Roseburg and J. B. Rhoades of Portland, who were appointed as a special committee by Governor Pierce to inspect the vessel and determine her condition.

Mr. Waddell who has just returned from Bremerton reports that the Oregon is in good condition generally. However, she is in need of paint, inside and out, and her furnishings have been stripped from her, so that it will cost \$14,000 or \$15,000 to put her in proper shape.

The committee has recommended that the state accept the famous old warship if the government will put her in condition, carrying out the requirements of the state, which provide for painting inside and out, a thorough cleaning, and the restoration of the furnishings which have been removed.

The boat has been lying at Bremerton for the past three years, and her paint is in bad condition. The action of salt air on the interior paint of a vessel requires that it be frequently repainted, and this will be quite a

In the event the present committee advises that the state must guarantee \$100,000 to the government before the ship will be released.
