PIANO RECITAL FRIDAY

On Friday evening, May, 30, at the Christian church, Mrs. Charles G. Stanton will present her piano pupils in recital.

Minnesota before her parents went to Texas. They made their home in South Dakota for several years, where Mr. Cooley took up a secretaryship in an insurance company, later being transferred to the head office in Topeka, Kansas.

In 1895 he moved to Bellingham, Washington and engaged in the building and commission business. He moved to Roseburg fifteen years ago and made his home here, until the time of his death.

Mr. Cooley is credited with having shipped the first broccoli by express to an eastern market, and this shipment is partly responsible for the eastern demand which has led to the development of the present important industry in the Umpqua valley.

He was the second son of a family of six children, all of whom have passed away except one brother, Will D. Cooley of Mueselsell, Mont. He is survived also by his widow. The funeral will be held Thursday at 2:30 p. m. from the residence of Mrs. Cooley's sister, Mrs. Harriet Montgomery in Salem.

PROHIBITION IS PROBED.

(Associated Press Leased Wire.) WASHINGTON, May 28.—A thorough investigation into every unit of the internal revenue bureau including the prohibition unit is the present program of Senator Couzens, republican, Michigan, author of the resolution under which a special senate committee was appointed to inquire into the operation of the bureau.

Senator Couzens announced today that if other committee members will agree to it, the committee will resume its work "as soon as possible after the political conventions." "I expect to show up the needs of the prohibition unit as well as the income tax unit of the bureau," he said.

TORNADO KILLS FIVE.

(Associated Press Leased Wire.) SPRINGTOWN, Okla., May 28.—Joseph Jett and four of his children were killed and Mrs. Jett was probably fatally injured by a tornado that demolished their home five miles northwest of Springtown yesterday.

MELLON IS FAVORABLE

(Associated Press Leased Wire.) WASHINGTON, May 28.—Some administration leaders in congress heard late today that Secretary Mellon, contrary to indications given by him when the tax bill passed the senate had recommended that President Coolidge affix his signature to it. Treasury officials declined to comment beyond saying the secretary had not yet submitted his formal written opinion.

WAS MURDER WITNESS

THE DALLES, May 28.—George Stillwell, star witness for the state in the trial of A. J. Weston, charged with the murder of Robert H. Krug, aged recluse of Sisters, Oregon, admitted at last night's session of the trial that he had perjured himself at the preliminary hearing of the case, in which he testified that he knew nothing about the killing of Krug. Stillwell is alleged to have a partner of Weston in illegal liquor activities. In testimony yesterday he said he accompanied Weston on the night of March 24, 1919, to the cabin of Krug and there watched his partner torture and finally suffocate the aged man, place him on a box and then set fire to the cabin.

CYRUS WOODS HONORED.

(Associated Press Leased Wire.) Tokio, May 28.—Further high honors are being accorded the retiring American Ambassador, Cyrus Woods, as his days in Japan become fewer. Tomorrow Ambassador and Mrs. Woods will be entertained by the Prince Regent at a special farewell luncheon to be given at the Imperial Palace. Announcement also was made today that the empress would grant a special audience to the American couple here. Premier Kiyoura was host to the American ambassador at dinner last night. In addressing Mr. Woods directly the premier said that it was with "profound regret" that he reached the hour of the American ambassador's farewell. Mrs. B. Taylor who resides in Riddle was in the city yesterday afternoon for a short time.

HUGE STEAMSHIP TO BE CONSTRUCTED

SAN FRANCISCO, May 28, 1924.—(United Press.)—Bids on a \$6,000,000 trans-Pacific liner were called for a few days ago by the American Hawaiian Steamship company, under agreement with the United States Shipping Board.

A tentative agreement by the two concerns has been entered into with the Matson Navigation company of San Francisco for purchase of the vessel which is expected to be sailing the seas under the Matson flag within the next 18 months.

With preliminary negotiations out of the way it is expected that the contract for the construction of the vessel will be let within the next month. It is understood that two Atlantic seaboard firms and one on the Pacific coast have already submitted tentative drawings and will bid on the project.

Plans call for the building of one of the most powerful and largest traveling palaces in Pacific service. Five hundred and eighty feet over all with a seventy-five foot beam, the proposed vessel will carry four passenger decks, with a depth of 54 feet from the promenade to bottom.

Designed to operate on a four and a half days' schedule in service between Honolulu and San Francisco the new boat will have engine force of 24,000 horsepower, enabling the vessel to have a speed of 21 knots an hour, with a surplus assurance of 20 per cent additional in cases of emergency or necessity for faster time.

Ordinarily the ship will carry 500 first-class passengers, but plans call for auxiliary Pullman berths that can accommodate 100 other persons in the tourist seasons. Its regular 500 capacity will be cared for in latest type cabin steel beds; the berth-type arrangement being considered obsolete.

Highest class of service will be available to those traveling on the new boat; the Matson company having decided to make it an excess fare carrier. Accommodations will include swimming pool, gymnasium, smoking rooms, reading rooms, art gallery, social hall and a dining salon that will take care of the ship's entire passenger list at one sitting.

Aside from the vessel's attractions to the traveling public, it will appeal especially to marine engineers and seamen, for it will be electrically driven, heated and operated throughout. Many electrical conveniences will

NOW WE KNOW WHY PEOPLE HAVE BURNING FEET

All in the Joints says Maine Doctor

"What fools we mortals be." All these years we have been trying to help thousands of footsore people by bathing and powdering the skin when all the time the real trouble is in the bones, ligaments and cartilage.

Or, to be short, in the joints. There are 26 bones in the foot covered with cartilage and connected with ligaments and they have a tremendous amount of work to do.

The slightest strain on one little ligament from being "on the feet" too much inflames the whole foot, causing soreness and burning, aching and general misery.

"All this can be quickly proved," says a prominent Maine doctor whose name is known the world over. Just try a remedy that is compounded for joint troubles only—such as Joint-Ease, which every druggist carries, and see how quickly your sore, tired, inflamed and tortured feet will get well and strong and sturdy again.

Forget your powdering and soaking and other makeshifts for just a few days and get rid of all foot misery by using Joint-Ease.

It's an active emollient that you rub on with your fingers for about a minute and it soaks right in through skin and flesh away down to the joints—the real seat of all troubles.

And remember when Joint-Ease gets in all foot agony gets out—quick. A tube for 60 cents—at all druggists.

BANK TELLER MISSING

(Associated Press Leased Wire.) SAN FRANCISCO, May 28.—Dale Rowan, 24, head paying teller of the Bank of Italy has been missing since Saturday night and \$47,000 of the bank's funds also has disappeared, it was announced today by James Bacigalupi, vice-president of the bank.

POISONED FOOD IS FATAL

(Associated Press Leased Wire.) BEND, Ore., May 28.—Believed to have been poisoned by food eaten yesterday at Madras, Oregon, William Moran of Bend, died at a hospital today. Moran, with his wife and George Wase, yesterday visited Madras, where they all ate the same kind of food, but Moran was the only one taken ill. A post-mortem examination will be made.
