"The Best for Less"

LEGION TO AID IN BONUS WORK

Half Million Veterans to Be
Helped in Securing
Compensation.

TO AVOID CONFUSION

Legion Officials Will Attend
to Having Application
Blanks Properly Pre-
pared and Filed.

The passage of the adjusted compensation bill over President Coolidge's veto on May 19 by two-thirds vote in the senate after the house had acted favorably, puts before the government the stupendous task of distribution and handling of claims of 4,500,000 eligible veterans.

In order to expedite the task of distribution, the American Legion has turned to with its national organization to assist the government in every possible way.

Bundles of application blanks will be mailed to each of the 11,000 posts of the American Legion, where they will be handled by post officials. These officials will assist each veteran (whether or not he is a Legionnaire) to fill out the application correctly, and see to it that no mistakes are made that will retard expeditious handling of the case.

American Legion posts all over the country are busy working out the machinery to handle the details.

According to recent advices from Washington application blanks will be printed and ready for distribution within two weeks. Captain K. B. Bush and Major John M. Smith, Jr., of the Adjutant General's department of the army, are in active charge of the army's applications and said that only one application blank would be furnished for all branches of the service and all classes of applicants.

"The only class of applicants," said Captain Bush, "who will be required to subscribe by oath to the statements in the application will be dependents who are claiming the adjusted certificate as beneficiaries of the deceased veteran."

"It is probable that many exservice men will dislike the requirement which demands that the submit to finger printing, copies of which will be forwarded to Washington. But as a matter of fact, this is for their own protection, as it will prevent any one person fraudulently claiming, another's certificate."

"It will not be necessary for applicants to write to Washington for application blanks, as they will be distributed as soon as printed—with in a week or so."

"I cannot insist too much on applicants properly filling out application blanks. The slightest mistake will result in the veteran having to go through the entire performance over again with the resultant delay."

Eligibility for Compensation.
To be eligible for adjusted compensation under the bill recently enacted into law, the man or woman must have seen some military service between April 5, 1917 and November 12, 1918, either in the army, navy or marine corps.

However, if the veteran has had some such service he is entitled to draw adjusted compensation up to and including July 1, 1919. In other words, if a veteran enlisted in October, 1918, and was discharged June 1, 1919, he can, by virtue of his service during hostilities, draw adjusted compensation pay until June 1, 1919. By the provisions of the bill service is credited only to those who enlisted or were inducted before the armistice. If you drew the \$50 bonus given by the government at discharge you are eligible to the adjusted pay certificate.

However, NO payments will be made to (1) any individual who at any time during his military service was separated from his unit under other than honorable conditions (discharged dishonorably). (2) Any conscientious objector who performed no military service and refused to wear the uniform. (3) Any alien who at any time during the eligibility period was discharged from the military or naval forces because of his alienage.

Class of Service

After establishing eligibility the exservice man or woman should compute their service on the basis of one dollar a day for domestic service and \$1.25 a day for overseas service. By overseas service is meant service on shore in Europe, or Asia, exclusive of China, Japan and the Philippine Islands; overseas service also means service afloat, but on receiving ships (in this country), either afloat or shore, computed time is based from the period of embarkation for each service to the date of disembarkation or return from such service, both dates inclusive. All other kinds of service are classed as "home" or "domestic" service.

Limitation of Payment

The veteran entitled to one dollar a day for home service and \$1.25 for overseas service cannot draw more than \$50 for home service or \$62.50 for overseas service. From this will be subtracted the \$50 received when discharged.

The manner in which a veteran may calculate his adjusted service

credit is illustrated by the following example:

A veteran enlisted February 16, 1918. He was sent first to camp, from whence he was sent to the port of embarkation. He sailed for overseas on June 21, 1918. He arrived home from abroad May 25, 1919. He was sent to camp and discharged June 4, 1919. From that service he would be eligible to the following adjusted service credit:

Home credit: From February 16, when he enlisted, to June 20, 1918, when he sailed, equals 126 days. Add to this the ten days from May 26 to June 4 while he waited for discharge, gives a total home credit of 136 days. He is thus entitled to \$136, computed at a rate of one dollar a day for home service. From this will be subtracted the \$50 bonus received on discharge. This leaves the total domestic payment at \$86.

Overseas credit: Including June 21, 1918, the day he sailed, until May 25, 1919, the day he disembarked, the total overseas service is 339 days. Multiplying the 339 days by \$1.25 as the adjusted credit for each day, the total is an overseas credit of \$423.75. Adding the total domestic and overseas credit gives the total as \$499.75, which is the sum of this adjusted pay certificate.

Supposing the veteran is twenty-nine years of age. He then multiplies the base credit of \$499.75 by 2.527 (see attached table prepared to help veterans figure their service credit). This is the twenty-five per cent increase provided in the bill. By the multiplication the total of \$1,262.868 is arrived at. This is the face value of the adjusted service certificate.

Certain Veterans Not Eligible

In spite of service during the period outlined, there are certain veterans not eligible for adjusted compensation.

These are: any commissioned officer above the grade of captain in the army or marine corps; lieutenant in the navy, first lieutenant or first lieutenant of engineers in the coast guard. Past assistant surgeons in the public health service are not eligible.

Any officer having the pay and allowances of the above-mentioned ranks or higher ranks is not eligible. Any individual holding a temporary or provisional commission or permanent or acting warrant in any branch of the military or naval service, or (while holding such commission or warrant) serving under a temporary commission in a higher grade—in each case for the period of service under such commission or warrant or in such higher grade after the accrual of the right to pay thereunder. This shall not apply to any noncommissioned officer.

Any civilian officer or employee of any branch of the military or naval forces, contract surgeon, cadet of the United States Military Academy, midshipman, cadet or cadet engineer of the Coast Guard, member of the Reserve Officers' Training Corps, member of the Students' Army Training Corps (except an enlisted man detailed thereto), Philippine Scout, member of the Philippine Guard, member of the Philippine Constabulary, member of the National Guard of Hawaii, member of the Insular force of the navy, member of the Samoan native guard and band of the navy, or Indian scout—in each case for the period of service as such.

Any individual entering the military or naval forces after November 11, 1918—for any period after such entrance;

Any commissioned or warrant officer performing home service not with troops and receiving commutation of quarters or of subsistence—for the period of such service;

Any member of the Public Health Service for any period during which he was not detailed for duty with the army or the navy;

Any individual granted a farm or industrial furloam—for the period of such furloam; or

Any individual detailed for work on roads or other construction or repair work—for the period during which his pay was equalized to conform to the compensation paid to civilian employees in the same or like employment;

Any individual who was discharged or otherwise released from the draft—for the period of service terminating with such discharge or release.

These periods referred to may be included, however, in the case of any individual if and to the extent that the secretary of war and secretary of the navy jointly find that such service subjected such individual to exceptional hazard.

What a Veteran Can Receive

Each veteran shall be entitled: To receive "adjusted service pay" if the amount of his adjusted service credit is \$50 or less;

To receive an "adjusted service certificate" if the amount of his service credit is more than \$50.

Application through Legion Posts

Application blanks have been prepared by the War and Navy departments. These blanks will be avail-

able to veterans through local posts of the Legion, where veterans will be assisted in filling them out correctly by Legion officials. The applications must then be forwarded to the war department at Washington, if the last service of the veteran was with the Military Forces, or to the Navy Department at Washington, if the last service of the veteran was with the naval forces. All applications from ex-servicemen must be mailed to the Navy Department, which has jurisdiction. This application must be made before January 1, 1925, and if not made on or before this date will be held void.

When Payments Will Be Made

The administration of the law is under the United States Veterans' Bureau, which after March 1, 1925, will make the \$50 or less cash payments to veterans, and after January 1, 1925, will begin issuing the 20-year endowment life insurance policy certificates. These certificates will be dated at the time issued to veterans, and no loans will be made on a certificate until two years after its date of issue.

If a veteran has died, before making application, his dependents will be paid the amount of his Adjusted Service Credit. If this credit is \$50 or less, payment will be made in one sum by the Veterans' Bureau. If the credit is more than \$50, the payment will be made in ten quarterly installments.

If a veteran has died after making application, but before January 1, 1925, then the amount of the full face value of the insurance policy will be paid in the same manner as if he had received the policy prior to his death, but not before January 1, 1925.

Insurance Policies

The face value of the 20-year Endowment Insurance Policy which a veteran will receive, is the amount which his adjusted service credit, plus 25 per cent, would purchase at his age, based upon American Experience Tables of Mortality, with interest at 4 per cent per annum, compounded annually. If the veteran dies before the expiration of the 20 years, his beneficiaries or estate will receive the full amount of the policy, in case in one sum. If the veteran is living at the end of the 20-year period, the government will pay him the full face value of his policy in cash, less any claims for sums borrowed on it.

Table to Compute

Table to Compute Credit.

The following will show veterans the amount of paid-up twenty-year endowment life insurance to which they are entitled, together with the sums they may borrow at any given year.

Multiply the amount of the adjusted service credit by one of the factors shown in the following. Choose the factor opposite the age nearest the birthday at date certificate is issued. (The 25 per cent increase is included in the factor.)

Age	Factor	Age	Factor
19	2.545	43	2.439
21	2.544	44	2.436

DODGE BROTHERS SPECIAL TYPE-A SEDAN

Three considerations recommend this Sedan to a wide circle of buyers—

A new and substantial beauty—heightened by many special appointments.

A seat depth, body length and spring suspension that have revolutionized the riding qualities of all Dodge Brothers Motor Cars.

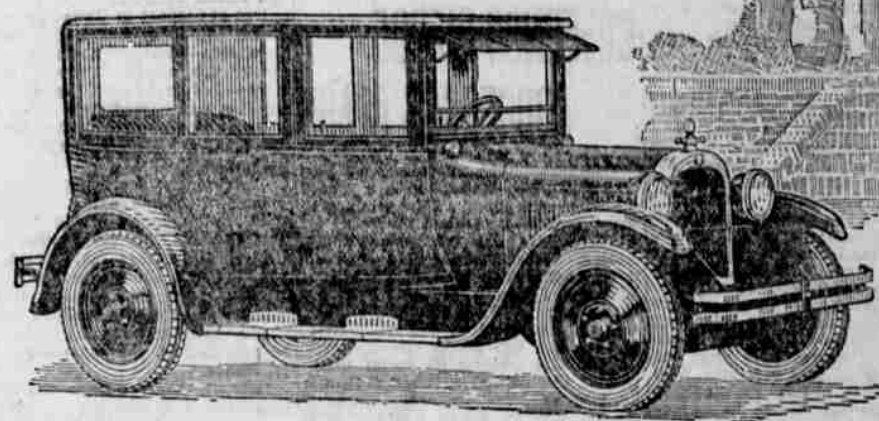

A reputation for intrinsic goodness that dates directly back to the first Type-A Sedan bearing Dodge Brothers name.

ADVICE TO THE LOVELORN

by
MRS. ELLSBURY
(Address all communications
to Mrs. Ellsbury, care of News-
Review.)

MISERABLE L.—If you are very, very sure that your own marriage can never be a success and that you would be happier with the other man, then divorce is the only answer to your problem. I have known cases of your kind before however, when girls after marriage are a little dissatisfied with the man they marry, and think that if they had only taken the other one, how much happier they would be. If they divorce and marry the other man, they are rarely any happier. You took duties and obligations on yourself when you married that it does not seem right to throw away for a whim, but you are the only one to judge the depth of your feeling. Divorce is better than making yourself and husband unhappy in the years to come.

Dear Mrs. Ellsbury—Does the color of the hair and eyes have anything to do with temperament and disposition?

TONY.
TONY.—This has never been answered, although the question has been a much disputed one among scientists. Observe your friends, and for man opinion of your own, and you will be as near the truth as anyone.

See our gifts for graduation. Hudson Electric Store.
