STREET PAVING BID IS ALLOWED

Council Takes Up Many Routine Matters at Busy Session Held Last Night.

ORDINANCES ARE READ

Payment Guaranteed on Property on East Fourth Street Which Is to Be Paved at Once.

The city council last night held a busy session, taking up a number of important matters. Considerable time was spent in discussing street improvements and other such matters and giving time to details of city management.

A petition from Luck Ingles asking further time in which to construct a sidewalk was granted.

A complaint of residents of the Miller street vicinity about a stable was referred to the committee on health and police.

The street committee was appointed to investigate the petition of A. G. McMillin who asks for the division of an assessment on two lots in Waite's addition.

A Cresson appeared on behalf of the residents of East 4th street who are endeavoring to have the street paved. A petition for the paving was presented several weeks ago, but the council found that two lots might be forfeited and so refused to go ahead until the payment was guaranteed on these two lots. Mr. Cresson agreed to buy the lots in the event they are sold for pavement liens so that the city will not be required to pay out anything on this improvement.

Bids for the paving of Harvard avenue and Lilburn street in Laurelwood were received. The bids were submitted by L. W. Metzger, the Harvard avenue bid being in the sum of \$2,463.21 and on Lilburn street in the sum of \$2,842.76. The bids were laid on the table until next meeting.

Mr. Metzger's bid for the paving of Guinn street in the sum of \$2,447.73, was accepted. The work is to be completed in sixty days.

The monthly estimate on the Laurelwood sewer was allowed in the sum of \$2,221.84.

Two ordinances segregating assessments were passed.

An ordinance providing for the paving of Commercial Avenue between Jackson and West First streets, was passed upon third reading.

The ordinance providing for the paving of the Laurelwood streets on which bids were received were held over until next meeting.

An ordinance providing for the method of investing city improvement funds was passed on third reading. The ordinance originally provided that the city treasurer might invest in funds or securities selected by the ways and means committee of the council, the mayor and the city attorney, but before passage it was amended so that a three-fourths vote of the council must be secured. Under the old ordinance the treasurer could invest only in Roseburg bonds. Now he can place the money in local banks at four per cent, and if the banks will not pay that sum may invest in any securities approved by the council.

The ordinance providing new regulations for peddlers and hawkers was passed, after it was determined that it does not apply to farmers or producers.

The recorder was instructed to give written notice to the owners of property on the corner of Flood and Pine streets to remove an old stable which stands there, and which is considered dangerous.

The following is a list of the bills allowed and ordered paid: Pacific Telephone and Telegraph Co., supplies \$ 2.40; Churchill Hard. Co. supplies 79.20; L. W. Metzger labor & materials 6.00; J. W. Draper, labor 15.00.

SMALL FOREST FIRES BURNING IN COUNTY

The forest fire situation in Douglas county is one now occupying the attention of the organizations devoted to the protection of timber. All strategic points in the national forest and in the state patrolled timber have been manned, and crews are located in all parts of the county.

Never before have the forests been as dry at a similar period as they are this year. Everywhere the timber is drying out rapidly and fires are possible in the canyons and valleys, along the streams, the fire danger is not critical but elsewhere the timber is as ready to burn as is usually the case in August.

Seven small fires are now burning in various sections. The Douglas Fire patrol has six small fires and the forest service has one. The fires guarded by the patrol, are largely range and slashing fires and are doing little or no damage and are only burning in undergrowth, so that they will cause no loss. Crews are guarding all of these fires and have them under control.

The forest service has a fire near Diamond Lake, but this also is controlled and no further spread is expected. It is seldom that lookouts and protection crews are sent out before the first or middle of July, but already the crews are out and practically all of the important lookouts have been manned. It is the earliest in history that protection measures have been necessary.

MANGLED BODIES OF BALLOONISTS FOUND

(Associated Press Leased Wire.) BELLEVILLE, Ill., June 2.—The mangled bodies of Dr. Roy Messenger of the United States Weather Bureau, Washington, and Lieutenant James T. Neely of Philadelphia, who left Scott Field late yesterday in the army balloon S-3 for the ninth of a series of air test flights, were found near Bement, Illinois, today. The balloon had exploded and was destroyed by fire.

Bement is about 150 miles north-east of Scott Field. A watch on Lieutenant Neely's body had stopped at 11:15, seven hours after the fatal flight started.

It is surmised that the balloon was struck by lightning. Messenger's body was badly crushed. Several persons tell of seeing a bright light in the sky last night about 11:30 o'clock while there was a big rain and windstorm.

Down From Riddle—Mr. and Mrs. W. H. Stevens, who recently moved to Riddle, were down from that city today. They were accompanied home this afternoon by Miss Ella Squier, of Sutherland.

OREGON GRANGE IS HOLDING CONVENTION

THE DALLES, June 2.—Hundreds of members of the state grange were here today for the opening of the fifty first annual convention of the order. George Palunter of Hood River, state president, presided at the first gathering this morning, and selected a nominating committee to prepare a list of candidates for the legislative program to be sponsored by the grange will be outlined in resolution. A feature of the program for Thursday will be a meeting at the city park where professor C. E. Schuster of Oregon Agricultural college will report on the third cherry pollination experiment held in Wasco county, after which the grangers will visit the orchards where the tests were made.

genuine COMMUNITY PLATE—guaranteed for 50 years—may now be had under most generous terms of payment. Our novel one week's "CLUB PLAN" makes this possible.

NEW TELEPHONE DIRECTORIES OUT

The new telephone directories have just been delivered to the Pacific Telephone and Telegraph company and are to be distributed at once. The directories were printed in the exclusive job department maintained by the News-Review company, and are the best ever placed in the hands of the telephone patrons of the city. Under the direction of Manager John Farrington, the directories have been considerably improved so that they are much more convenient and provide better service for the patrons. The new directory will not be as large as the last one, as the names have been printed in smaller letters, with two columns to each page. Names of business houses are in heavy black type. Great care has been given to addresses especially in rural districts, so that the new directory will show the localities in which patrons residing out of town make their homes.

INSANE MAN COMMITTED

Charles Roberts, of Turlock, Calif., was taken off a train here last night and placed in the local hospital. He had a ticket for Portland, but was removed from the train when his actions caused inconvenience to other passengers. He was found to be insane when examined this morning and will be sent to the asylum this evening.

TRAFFIC OFFICERS HERE

T. A. Raffety, chief of the state motor vehicle department, and a squad of state traffic officers, stopped in this city for a short time today on their way to Ashland. The traffic officials are to attend the celebration at Hayden Prairie on June 4, marking the opening of the Ashland-Klamath Falls highway, and will direct the traffic and control the large crowd expected at that event.

SOCIAL DANCE

Community Hall, Sutherland, Friday night, June 6th. Music by Sharmard's Syncopators. Music which pleases everybody. Come and have a good time.

PIE!

—How to make the lightest and flakiest of Pie Crusts will be demonstrated at the

Free Cooking School

2:30 p. m. Wednesday

The second session of the Free Cooking School, to be held at 2:30 Wednesday, will be devoted to a demonstration of Pastry Making. Roseburg and Douglas County will be especially interested to see the actual preparation and baking of Cream Puffs and Pies in which the pure vegetable cooking oil, Mazola, is used for shortening. How the lightest cakes and the flakiest, most delicious pie crusts are easily made by the use of Mazola—you can taste and prove the results for yourself.

The lecturer will answer all questions about making cakes and pies. As at the first session of the school, those attending are expected to bring pencils and pads for taking notes on the new methods and new recipes.

FREE—A beautifully illustrated 64-page cook book will be given each woman attending the school.

"If It Can Be Done With Heat It Can Be Done Better With Gas."

PROGRAM

WEDNESDAY—
Lessons on pastry making.

THURSDAY—
Lesson on deep-fat frying.

FRIDAY—
Lesson on salads and salad dressings.
