In advocating that the Bible be restored to its rightful place as the word of God, divinely inspired and supremely authoritative, Evangelist Thuemier, at the tent Wednesday night, declared that "the Old Testament was virtually the foundation of the new; in it a full gospel is taught in type and figure, and upon it rests the evidence of the claim of Christ's incessiaship."

The speaker declared "that to any people the Mosaic Tabernacle seems only a Jewish antiquity, and Old Testament ceremonialism was but the result of Jewish superstition with no voice or meaning for us at this day; but thousands of God's children are finding it is a most wonderful teaching.

LETTERS FROM THE

Glendale, Ore., July 23, 1924. Editor News-Review,

Recalling your cooperation the past with regard to publicity on Douglas county's exhibits at Oregon State Pair and Portland

Stock Shows, we are now in the midst of the Season's work prepar ing for the exhibit at the coming tate fair.

The old practice of assembling

the products of the county and showing them in a well arranged manner will not meet the need of the present. A careful study of the score card as prepared for our own county and filling in every de tail of its requirements is the only way by which we can hope to maintain the high position achiev-

ed in the past few years.

The score card for Douglas county covers the following: county covers the following: cereals harvested for graft, including corn for grain, 219 polities; hay and forage, including hay, soiling, silage and field root crops, 210; potatoes, 29; vegetables, 40; fruits and nuts, 230; Dairy products, as cheese, butter, milk, cottage cheese, otc., 20; ceultry products, as eggs, dressed poultry products, as eggs, dressed chickens, hatched chicks, etc., 30; wool and mohair, 60; miscellan-cous products, which may include agricultural products or those products of such a small volume that they figure less than 10, 10 arrangement and effectiveness o display in presenting resources of county, 100; making a total of 1100 points, which we are en-deavoring to reach as near as

deavoring to reach as near as possible.

By the foregoing it will be seen how necessary it is that every derail of the scope card be followed, and how much easier that can be done by the cooperation of those who produce the crops or things required. So we are calling the attention of the good people of Douglas county who have its real exploitation at heart to get in touch with any one of the undersigned as to what they can supply to make a creditable showing for the county. county.
