Either City or Country Folks, Whatever You Need BUY IT AT HOME

Home is the place to buy, whether it be farm products, merchandise or labor—buy at home.

Home-spent dollars, like ripples on a pond, are ever widening their circle.

Home-spent dollars mean "bread and butter" for a lot of families, and provide employment for home labor.

Dollars spent in your home town build Schools, Churches and Roads.

Money spent for home grown or manufactured products enlarges the merchant's bank account.

Dollars spent at home for necessities build up the general interests of the community, and lead to the prosperity of the people who live here.

Dollars spent in your home town work for you every hour of every day. They make the city a better place to live in, and provide a market for the farm and orchard products grown in the valley.

The following merchants believe in cooperating with you, and invite your cooperation with them.
