One of the local business men went down to the camp to see if there was any information that he could give anyone, and before he was through he sold over \$25.00 worth of goods, without any solicitation on his part whatsoever. He had to come up town to open his store, but it would seem that almost any business man would do the same, taking into consideration that this was new money that came without effort. There is surely a moral in this little episode.

**Quincy Scott, past commander of the American Legion, of Medford,** spoke most interestingly today before the local Rotary club. After the conclusion of Mr. Scott's address a motion was made to refer the matter to the boys' work committee with authority to meet with other civic bodies and definitely decide a plan to carry out the suggestions made by the speaker.
