

AUTOMOBILE SECTION

Walter P. Chrysler States

The motoring public is rapidly coming to realize that in practical results the good Maxwell is to the four-cylinder field, what the Chrysler is in six-cylinder practice.

Practically complete absence of vibration, sterling reliability, new ease of riding and driving, remarkable performance, and equally remarkable economy produce for the owner of this car a far higher degree of motoring satisfaction and value.

Until you know first hand what the good Maxwell now is and what it does—you are simply in no position to judge cars from the standpoint of the most recent development.

Touring Car, \$895; Sport Touring, \$1055; Roadster, \$885; Club Coupe, \$1025; Club Sedan, \$1095; Sedan, \$1325. All prices f. o. b. Detroit subject to current Government tax.

We are pleased to extend the convenience of time payments. Ask about Maxwell's attractive plan.

W. P. Chrysler

President and Chairman of the Board
Maxwell Motor Sales Corporation, Detroit, Mich.

NEW STARS HOLD UNUSUAL INTEREST

OAKLAND, Aug. 20.—Telegrams, night letters and special delivery letters are pouring into the administrative offices of the Star Motor Company of California since the announcement of the 1925 line of Star cars last weekend, and orders from dealers in all parts of the Pacific coast territory for more new cars, "and

rush them," are being received in corroboration of the unusual welcome accorded the new line of the series. President Norman DeVaux, who was the guiding light in the low-priced field with a motor car that incorporated "big car" features, admits that his fondest dreams have been made to seem like cold thoughts when he considers the unanimity and the enthusiasm which has greeted the initial showings throughout the Pacific slope states of the 1925 Star cars.

"The vibrationless motor in the new Star car is the real article. It takes the curse off the light weight four-cylinder motor car

fields," wires Rodney Bridge-Star distributor for San Joaquin, one of California's leading counties.

"Your action in providing five Fiat full balloon tires, instead of letting the equipment go at four tires, demonstrates to us that your aim is really to provide a low-priced, high-grade car, and not just another new auto. Congratulations." Such is the comment of Julian Holmes, principal in the H. & H. Motor company, of Phoenix, Ariz.

SALESMAN BETS AND LOSES ALL

SAN FRANCISCO, Aug. 20.—"Difference of opinion is what makes horse races," a gentleman of color once said. It was difference of opinion that caused a wager between C. A. Chamberlain, Chrysler dealer in Riverside, and a salesman for a competitive car, according to word received by George Campe, said salesman is a wise and poor man, and the Chrysler received a lot of advertising from the dispute that took place over the Chrysler's ability to negotiate the Waterman canyon switchbacks without boiling.

In the course of a discussion concerning the season's automobile sensation, the salesman asserted that no car could pull the Waterman canyon in the heat of the day without boiling. Chamberlain declared that the Chrysler would do it and that he would hold his fingers in the water in the radiator after the climb. Then the salesman went further and asserted that there would not be enough water left in the radiator for Chamberlain to emerge his fingers.

The Riverside dealer took any and all bets, and it goes without saying that there were many motor fans on hand to witness the test. The Chrysler lived up to the claims made by Chamberlain, who actually held his fingers in the radiator at the finish of the gruelling climb. The loser is short cash and ahead on joshing, while the winner collected cash, congratulations and some valuable advertising.

"The Chrysler motor is designed with unusually large water passages, and the water is circulated in a way that makes it practically impossible to make the water reach the boiling point," said George Campe. "In fact, the normal driving temperature is about 140 degrees, far short of the boiling point."

cow ventilator may be opened or shut while driving, the rear instrument panel, all under one glass, and indirectly lighted, taking all the glare from the dash board; the snug-fitting curtains that swing with the doors, with a left hand flap for signalling; convenience of adjusting windshield; and the spare wheel which comes with the car, enabling the driver to change the wheel rather than the tire. In case of need, were some of the high spots pointed out.

GASOLINE HEARINGS HELD IN MISSOURI

JEFFERSON CITY, Mo., Aug. 20.—Representatives of United States Attorney General Stone are expected to be present as observers today when the hearings are resumed in the Missouri inquiry into gasoline prices and practices with the state. Announcement of this was made yesterday at the offices of the state's attorney, James W. Barrett, who indicated that the government was interested to know if the state inquiry was developing anything that might be of use to the government in the cases filed last June at Chicago against more than fifty of the chief oil companies of the country.

The purpose of Attorney General Barrett is to determine whether the Missouri anti-trust law is being violated, and if it appears so, to begin proceedings against the Standard of Indiana and other oil companies.

POLISH WOMEN ARE URGED BACK DAVIS

(Associated Press Leased Wire.)

WILKESBARRE, Penn., Aug. 20.—The Polish women's alliance of America in convention here last night voted that none but American citizens should be recognized as delegates with power to vote.

Representative Stanley Kuntz of Illinois urged support of John W. Davis, democratic presidential candidate and suggested that the alliance include in its program the naturalization of Polish aliens in the United States.

FERGUSON REPLIES TO 'DELIBERATE LIE'

(Associated Press Leased Wire.)

AMARILLO, Tex., Aug. 20.—Replying to a telegram received while on the platform charging him with failure to buy liberty bonds during the war, James E. Ferguson, in an address here last night in behalf of his wife's candidacy for the democratic nomination for governor, branded the charge as a "deliberate lie" and said his wife would withdraw from the race if the records did not show he purchased \$2,500 worth of bonds through a Temple Bank.

The telegram was from Temple and sent by DeWitt Hobart. It was handed to Ferguson and he read it to the crowd. "Speakers charge you and your wife did not buy liberty bonds. Important that you answer tonight," he said. "That's a deliberate Ku Klux Klan lie, made up by the Klan for the deliberate purpose of telling what they know to be a lie."

OAKLAND CAR IS UP TO THE MINUTE

(Associated Press Leased Wire.)

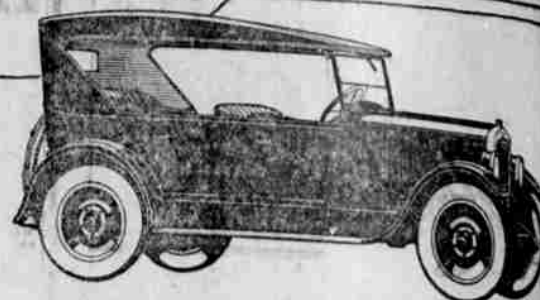

SOUTH AMPTON, N. Y., Aug. 20.—Near a fighting edge for his battle with Luis Firpo, Harry Wills, negro heavyweight, today confined his training to road work and will not work out with sparring partners until tomorrow. Postponement of the battle from its original date to September 14, found Wills too far advanced and caused the limitation week to a two mile walk daily.

ENGLISH HUSBANDS CLAIMED THE BEST

(Associated Press Leased Wire.)

NEW YORK, Aug. 20.—Englishmen make better husbands than Americans because they "treat their wives as companions and not as American husbands treat theirs as dolls, spoiling them with presents, furs and jewels," says Mary Borden, the Englishwoman who has returned to the

Now get into it and drive it

People are still talking about Oakland Sealed Order Demonstration Week!

All over America, they became better automobile buyers by seeing Oakland's "week of proof"—or some part of it. They know what Oakland will do, because they saw Oakland show features of design and performance that all other motor cars must eventually have.

If you did not have an opportunity last week to see why the True Blue Oakland is a year in advance of its field, drop in to-day or to-morrow, or any time.

Drive it yourself. Road-test this True Blue Car. Then you will know that Oakland is building one of today's very finest motor cars—and selling it at a very low price!

W. J. BRYAN WILL SPEAK IN CAMPAIGN

(Associated Press Leased Wire.)

QUINCY, Ill., Aug. 20.—William J. Bryan, in expressing his opinion on the prospects of the democratic party in the coming election said: "Party prospects are good and are growing better each day." He said that he based his opinion on the fact that a large majority of the voters were progressive.

In discussing the independent movement Mr. Bryan said that the best Senator, La Follette, could do would be to throw the election into the hands of representatives where divisions will make a victory for the democrats certain.

Mr. Bryan stated that he expected to speak in the coming campaign in the west and the north west. He intends to start campaign work in California after a few days at his home at Miami, Florida.

United States for a visit after an absence of 11 years. She is the wife of General E. L. Spears, who has been a member of parliament for three years.

"English husbands don't nag," continued Mrs. Spears. "A wife to an Englishman is a pal and their life is more normal than over here. The English women do everything the men do and so they do not have so much time for bridge and clothes. Consequently they are not as good dressers as American women."

REPUBLICAN MAN IN TEXAS WITHDRAWS

(Associated Press Leased Wire.)

DALLAS, Tex., Aug. 20.—The state executive committee will meet again in Houston on August 24, to name a man to uphold the republican gubernatorial manner in the general elections this fall, according to Charles A. Boynton, vice-chairman of the committee.

The committee recently selected L. R. Lee of Houston to run against the democratic nominee to be selected next Saturday, but Mr. Lee withdrew following criticism of a telegram he forwarded Mrs. Miriam Ferguson, seeking the democratic gubernatorial nomination. Mr. Lee in a statement said he had nothing to detract, said he had been misunderstood by members of his party and definitely withdrew from the race.

SCHOOLS TO OPEN ON SEPTEMBER

Roseburg schools will open on September 15, according to present plans. The school board and city superintendent have been giving a good deal of time and attention to the opening date, and it is believed that everything will be in readiness by the day we close on the calendar, owing to late resignations, but it is believed that all plans will be filled within a week or ten days, so that the schools may open with a well-organized and well-prepared staff. The buildings are being put in shape for the opening and improvements are being made as rapidly as possible.

When We Look for Trouble in an automobile we find it every time. We know as thoroughly that no trouble can escape our eyes. And we have a complete equipment for repairing cars of every kind. So if your machine is not giving satisfactory service send it here. We will put it in perfect shape at once. Hall & Young Garage 631 Winchester St. Phone 211 Roseburg

U.S. Royal Cords

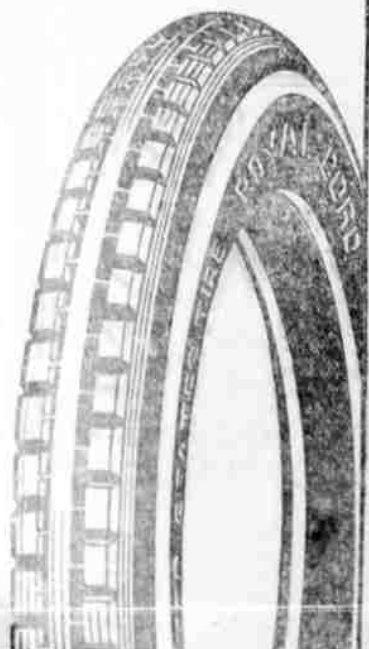

BALLOON ~ BALLOON-TYPE ~ HIGH PRESSURE Built of Latex-treated Cords

TIRE building took a big step forward when the makers of United States Tires invented the Latex Process. The added strength and wearing quality given by Latex-treated cords is something that the user of Royal Cords can tell you about from his own experience.

Royal Cords are the standard of value in cord tire equipment—even more certainly today than ever before.

And this holds good whether you are considering a High-Pressure Tire, a Balloon-Type Tire to fit your present wheels and rims, or a Balloon Tire for a 20 or 21 inch wheel.
