ROSEBURG, OREGON, TUESDAY, AUGUST 26, 1924.

A WONDERFUL HANDCLASP.

It was a notable moment in the history of the times, when the French premier and the German chancellor were induced to shake hands at the close of the London confer- if dreams ence on reparations and that there seemed to be real friendship behind it. The disputes of these two nations have kept the world in turnoil for hundreds of years. They finally brought about a world disaster causing infinite pain,

The disputes of these two nations have way.

And, friends once more, we'd wander through the friends once more, we'd wander through the fragrant paths of Yesterday wednesday, Aug. 27,—12:30 to suffering, and loss to the American people. It will be a. wonderful thing if these quarrelling countries can make a wonderful thing if these quarrelling countries can make a sweet real effort for better relations. The French have taken the With blossoms of the summer land position that the Germans would pay only what they were forced to pay by military force. While the German people And Oh, my sweet! if dreams came are guilty of maintaining in power and following the com-mands of a wicked, conscienceless, and brutal government, With skies of never falling blue And purple, peaceful fulls beit is unwise to assume in advance that they would not follow the lead of the present more democratic authority if the The tittle whisp-ring streams that same were encouraged to maintain its existence.

EVERY DAY TASKS.

It has been the custom of President Coolidge, ever since he came to Washington as vice-president, to take hold and help with the work on his father's Vermont farm while he spent his vacations there. Thereby he sets a good example to the men of the nation. Many men who have gained a little advance in station, would feel it beneath their dignity to put on a pair of overalls and go out to do some work on their parhaps we'd find at some hotel, home places. They think it looks better to have hired helpers do such tasks. A false point of view, The bigger the man is, the more he needs to keep in touch with the tasks of common folks. The more he handles a picthfork or a hoe, the That would be fine for me and more he will understand and sympathize with the ideas of My dear, if that there dream came the every day man.

On Aug. 13, I received a telegram from our son Monroe at Sac-

I jumped on the train here in the evening, and landed at Sacramento the next day, found the young man had been having fever, and a bad stomach. I hundled him up and brought him home with us, so that our family is now again united. He soon improved at home, and this Wednesday he started to work in Los Angeles, living at home and going over every morn ing. He has a very good position, beginning work at 8 o'clock and quitting at 4:30. He is making the trip now on the street car. Of course we are delighted to have
