**OUNG IS
VOPORARY
S BOARD**

C. Dawes, brother of
Dawes and Henry A. Dawes
who like Mr. Young, were
the expert committee which
up the plan.

Seymour Parker Gilbert,
recently under-secretary of
treasury, is mentioned for
permanent post of agreement
but in reparation committee
said, the selection has not
been finally made.

Officially the law is
operative, pending ratifica-
the French and German
ments and signature of the
ment which has thus been
ly initiated by the agreement.

The French senate will
ably vote tomorrow.
German Reichstag will
ly to last until next Thursday.

The appointment of an
can as a voting member of
reparation committee is
stood to be still uncertain.
A. Logan, Jr., the American
server with the committee
favored for the place, but
fuses to discuss the matter
and it is known that many
friends believe his influence
might better be
closed, by continuing in his
ficial capacity, leaving an
American to assume the
power.

Rufus Dawes and Mr.
son will probably be the
portant appointments to be
by Mr. Young, as the
countries will choose their
representatives and the total
nel of the advisory council
be large.

PRUNE DRYING

START THIS

EUGENE, Or., Aug. 25.—
Prune dryers of the Eugene
Growers association will be
ed tomorrow morning ac-
ing to J. O. Holt, manager of
concern. Petite prunes are
ing hauled in today.

Even though the weather
slightly out of season here,
ity is fine, Holt declared
and beans are going to the
the cannery here, and a lot
of blackberries daily are
ing handled. Beets are ex-
ed to run out in ten days.
carloads of fresh Gravenstein
ples have been shipped out.

BRITIAN NOT TO

PLEDGE REDUCT

GENEVA, Aug. 25.—
Minister MacDonald of
Britain today declared to
League of Nations that al-
Great Britain was con-
seeking to reduce her arms
expenditures she could not
that the present or that the
ture not to exceed her cur-
ent expenses for the year.

Mr. MacDonald explained
that a considerable part of
expense was due to the
between the powers and
be eliminated only by
agreements. He declared
Great Britain always would
negotiate such agreements.

The increase, he said, will
be felt chiefly in cotton, wheat
and wheat growing states.
Mr. Bradfute criticized the
grass for failure to pass the
Nary-Haugen bill, declaring
was no more class legislation
than was the transportation
the Adamson labor law or
federal reserve act.
