He states that coming back from Kesop, toward Klamath Falls, he ran into a band of deer. There were seven in front of the car, the nearest being only three feet from the machine when it was brought to a halt. All were large mule tail deer and were bucks. Three more were on the hillside above, but Mr. Hornsby was unable to tell if they were bucks or does. The deer were so bewildered by the lights they were unable to get out of the road and the car was brought to a stop to avoid running into them.

Mr. and Mrs. J. G. Barnes, of Ten Mile, returned late yesterday afternoon from a trip to North Powder, near Baker, Eastern Oregon, where they went to select a couple of pure bred Delaine rams to head their flock of sheep here. It was a long way over the mountains and back, but Mr. Barnes is a bit particular about his breeding stock, so concluded to give over and make the selection in person. He has a flock of about 250 head on his ranch at Ten Mile, mostly pure bred stock, and the rams he brought back are the best that he could find in the big selection offered by J. E. Smith, of North Powder, one of the big breeders of the state. Mr. and Mrs. Barnes encountered some hot weather on the east side of the mountains, but the rams stood the trip fine and were in splendid condition. They are splendid specimens of the breed.
