## CHRYSLER SEES A WONDERFUL FUTURE

Walter P. Chrysler, president and chairman of the board of directors of the Maxwell and Chrysler Motor Corporations, is optimistic concerning the automotive business. He points out that the dollar volume of sales this year has been not far behind the record levels of 1923.

"Factory sales of cars, not including Fords, for the first half of 1924 amounted to \$815,000,000," said Mr. Chrysler in a recent interview. "This compares with \$826,000,000 for the corresponding period of 1923. Last year's total sales reached \$1,570,000,000 a new record, but a figure which will be very closely approached this year."

"Our own business is running at a rate considerably ahead of the industry's comparative figures as compared with last year. In the thirteen leading cities of the country, sales of Maxwell and Chrysler cars for the first eight months of 1924 show an increase of more than 35 per cent over the same period of 1923. New York shows a gain of 61 per cent, Philadelphia 30 per cent, Boston 43 per cent, St. Louis 25 per cent and Detroit 46 per cent. The first weeks of September showed larger sales for us than in July, the heart of the summer buying season."

"For the first seven months this year, factory sales of Maxwell and Chrysler cars aggregated \$42,381,559, compared with \$35,311,966 for the similar period a year ago. Chrysler sales during these months totaled \$18,235,469 and those of Maxwell \$24,146,390. Chrysler sales are now running at the rate of \$4,500,000 a month."

"The automotive industry enters the fall season in a healthy condition. Business has been good this summer. The tendency will be toward better business this fall. The higher prices that farmers are receiving for their crops assure good business in the agricultural sections, and the growth in the use of closed cars will mean a continuance of good sales in the cities."

standing, as Mr. Matheson was formerly vice president in charge of sales for Dodge Brothers, and Mr. McMeans was executive secretary of the same organization, in charge of Dodge finances and accounting for fourteen years. For the last three years, Mr. McMeans has been president of the Michigan Lubricator company of Detroit.

## COOLIDGE HOSTS AT BREAKFAST PARTY

(Associated Press Leased Wire.)

WASHINGTON, Oct. 29.—President Coolidge hosted a group of advertisers who called at the White House today to pledge their support, that he proposed to maintain an administration devoted to economy, peace and prosperity.

"The government is a great business institution," the president said, "but it is more than that—it is a great humanitarian institution with an interested welfare of all the people."

The advertisers, members of the Coolidge-Dawes national advertisers league called at the White House for breakfast with the president and Mrs. Coolidge.

(Associated Press Leased Wire.) WASHINGTON, Oct. 29.—President and Mrs. Coolidge were hosts at a breakfast party this morning to representatives of the advertising business and members of a republican association composed of advertisers. Most of this party came here from New York and from New England.

The president now plans for active participation in the campaign and it was said at the White House yesterday that "general confidence is felt over the outcome of the election on the basis of reports so far received from various sections of the country."

Mr. Coolidge has not reported final decision on the manner in which he will vote, though indicating to friends he probably will cast his ballot by mail instead of going to Northampton, Mass.

## STOMACH UPSET?

Get at the Real Cause—  
Take Dr. Edwards' Olive Tablets.

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like, like and lose.

## FIND DEEPEST SPOT IN PACIFIC OCEAN

(Continued from page one)  
WASHINGTON, Oct. 29.—The deepest place yet located in any ocean has just been sounded in the Pacific 50 miles off the Japanese coast.

It was announced today by the geological survey that a Japanese man of war, the Manchuria, made the sounding to a depth of 5,644 feet, or more than 6 1/4 miles without touching bottom. How much deeper the ocean bed lies there could not be determined, because the sounding wire carried by the ship was not long enough. The greatest depth previously recorded was off the coast of Mindanao, Philippine Islands which bottom was reached at 22,115 feet.

## OAKLAND HAS NEW COAST MANAGER

C. W. Matheson, vice-president and director of sales of the Oakland Motor Car company, announces the appointment of A. L. McMeans as district manager for Oakland on the Pacific coast.

Mr. McMeans will have headquarters at San Francisco and will direct the field activities of the largest Oakland sales district, with the states of California, Nevada and Arizona under his jurisdiction.

This appointment renews a business association of many years.

Mr. Matheson will have headquarters at San Francisco and will direct the field activities of the largest Oakland sales district, with the states of California, Nevada and Arizona under his jurisdiction.

When asked about the suicide pact, Mrs. Palmer said, "Well, when my husband and I were first married we agreed that should either of us become real sick, the stronger of the two was to kill the other and then suicide. So when my husband returned from town the other day without the girls, he asked me if I wanted to carry out the agreement. I said that we would wait and see if the girls were lost to us for good. If so, we would discuss the rest of the children and die."

"Are you worried about the outcome of this affair," she was asked.

"Only this much," she said, "I am the mother of nine children and about to be the mother of another one. I am without funds and of course that worries me terribly."

## PALMER TRIES TO END LIFE

(Continued from page one)

always been happy and I know he has been true to me. My daughter did not tell the truth when she charged that her father had been intimate with her. She is given to the reading of fiction and has a way of telling stories that would fool anyone. She has often worried me with wild tales which later I have found to be absolutely false."

Mrs. Palmer explained the finding of a revolver, a razor and a butcher knife on the person of Mr. Palmer at the time he was arrested. She said that he was not carrying them as weapons to threaten anyone. She says that he carried the gun at her request. The razor he had placed in his pocket the night before his arrest. When he returned from Roseburg without the two girls after they had been taken by the juvenile officer, his wife asked him to shave as they were going to town early the next morning. She said that the water was cold and her husband put the razor in his pocket intending to shave early the next morning. His arrest that night prevented it. She said he carried the butcher knife to cut sausage and bread for his lunch when he was in Roseburg that day.

When asked about the suicide pact, Mrs. Palmer said, "Well, when my husband and I were first married we agreed that should either of us become real sick, the stronger of the two was to kill the other and then suicide. So when my husband returned from town the other day without the girls, he asked me if I wanted to carry out the agreement. I said that we would wait and see if the girls were lost to us for good. If so, we would discuss the rest of the children and die."

## You Can Drive It All Day Without Fatigue

What the group of Maxwell-Chrysler engineers responsible for the good Maxwell of today have accomplished is just this—

They have raised four-cylinder motoring to a plane of fineness and comfort heretofore assumed to be impossible in a car of this type.

They have accomplished it not alone through the insistence on fine manufacturing and the use of first grade materials. They have also employed engineering innovations that practically eliminate

vibration and otherwise perfect performance and riding quality.

You will especially appreciate these higher qualities when you make a country run of considerable distance.

Where you used to return from such a trip thoroughly weary, now with the good Maxwell you can drive all day without fatigue.

And as for dependable, care-free, economical service, the good Maxwell still leads all cars at any where near its price.

We are pleased to extend the convenience of time-payments. Ask about Maxwell's attractive plan.
