ROSEBURG, OREGON, SATURDAY, JANUARY 3, 1925.

THE GAME OF BUSINESS COMPETITION.

There are many people in business who always attribute their troubles to some existing condition. Before the recent election, many people attributed business ill success to the political uncertainties. Now that the election has passed, many of these folks will lay their failures to some other cause, or to most anything except their own lack of push.

Discussion breaks out occasionally as to how much of an income a young couple should have before they marry. The figure \$2000 is one which is fixed by a good many people. Yet there are millions of families in the country whose earnings fall much below that figure.

A Pennsylvania minister hid his text the other night in a cross word puzzle placed upon the blackboard, and the audience were told that they must solve the puzzle before the pastor could preach his sermon.

A Hall of Fame is to be provided at Washington for men who have created famous inventions, in the National Museum of Engineering and Industry. It will be a perpetual reminder of what we all owe to the brilliant and persistent men who have brought modern homes and labor to their present high level of efficiency and comfort.

A noted educator declared the other day, that many young girls become so envious of the silk stockings and other pretty things worn by young women of a little greater age, that they quit school prematurely early, in order to earn spending money with which to buy these things right off.

School and college debating contests are attracting attention. Formerly there was not much chance for prominence in student circles, unless a young person was successful in athletics or some form of entertainments.

Men's faces are undergoing a change, according to a London surgeon. We hope for the better.

There's no use tryin' to do anything for a person who enjoys bad health.

ODE OF A SHEIK I kissed her in a speeding car. Her lips were warm and sweet; I went to taste them once again— I kissed the brick-paved street.

Can you imagine anything more annoying than to have a stenog who can't spell and who is always asking you how to spell words you can't spell yourself?

When a man tells you he never kissed a girl just put him down as a fool—or a liar.

The man who drives his car out on a Sunday or holiday and gets home without having been in a smashup has no right to say the day of miracles has past.

WAR DEPARTMENT APPROPRIATIONS BILL PRESENTED

WASHINGTON, Jan. 2.—Maintenance of the regular army during the coming fiscal year at its present authorized strength of 12,000 commissioned officers and 125,000 enlisted men exclusive of 8,000 Philippine scouts, is proposed in the war department appropriation bill reported today to the house.

As approved by the appropriations committee, the measure, drafted by a sub-committee headed by Representative Anthony, republican, Kansas, carries \$331,131,114, or \$552,000 less than the amount available for expenditures this year, and about \$300,000 less than budget estimates.

Of the total \$258,311,953 for military and \$72,813,166 for non-military activities. Included in the allotments is a \$40,000,000 lump sum appropriation for improvements to rivers and harbors—the total proposed by the budget bureau for expenditure during the fiscal year beginning next July 1, but an increase of \$2,567,000 over the amount carried in last year's bill.

The bill also carries \$3,400,000 as recommended by the budget for the completion of dam No. 2 at Muscle Shoals, Ala.

This together with \$2,501,200 in a deficiency estimate recently submitted, the committee report said would complete the dam and the eight power units.

For the army air service \$14,700,000 or the full amount recommended by the budget is carried, in addition \$2,150,000 is provided for contract authorization, which the report pointed out, makes the total available for the air service approximately \$2,700,000 more than for the present year.

Of the appropriation \$4,400,000 is for the purchase of new air planes, and this plus the contract authorization gives a total of \$6,550,000 for new planes, or about \$2,500,000 more than available for the current year.

P. O. OFFICIALS OUSTED FROM JOB

WASHINGTON, Jan. 2.—Official investigation into the use of money to influence pending postal legislation, has culminated in the suspension from duty of six veteran officials of the postal service, the discharge of an employee of the senate post office committee, and the resignation of the clerk of the house post office committee.

All six of the officials, located in as many cities throughout the country, are members of the executive committee of the national association of supervisors and held some of the most responsible positions in the service. The suspended officials, whose services averaged more than 20 years are:

Peter McGurry, acting superintendent of mails, New York City; James M. Greig, postal cashier, Boston; Peter Wiggle, acting post master, Detroit; Harvey M. Tittle, assistant postmaster, Springfield, Ohio; J. J. Fiedler, superintendent of delivery, Chicago.

The report of postal inspectors, made public in a statement last night by postmaster-general New charged that E. P. McDermott, the discharged assistant clerk of the senate committee received \$2,400 to work for the interests of supervisors' association and that Frederick C. Riedesel, clerk of the house committee received "a gift" of \$1,000 from the association. Riedesel resigned.

The inspectors report, which gave a circumstantial story of the negotiations between McDermott and postal officials, resulting in the money payment, was based on an investigation undertaken after the Department of Justice had found that technically no law had been violated in the transactions. The facts in connection with the justice department's investigation was revealed for the first time in the postmaster general's statement.

REFORESTATION OF CLATSOP PLANNED.

ASTORIA, Ore., Jan. 2.—Reforestation in Clatsop county will be initiated this spring by the Crown Willamette Paper company, which will start the work of planting young trees on its immense cut-over holdings adjacent to Astoria.

The planting in 1925 will be largely experimental and will consist in the reforesting in cut-over lands of spruce seedlings, taken from the forests. This method of reforestation has rarely proved successful and is not being counted upon strongly by the paper company, which is basing its reforestation endeavors rather upon the large nursery which it has established at West Linn, Ore., across the river from Oregon City.

The Crown Willamette company has entered definitely upon a program of reforesting the land from which ripe trees have been logged. The present plan calls for the ultimate reforestation each year of an area corresponding to that cut-over during the same period. By the time the company has logged all of its timber holdings, it is calculated that the reforested districts will be ready for cutting.

A Great Success for Chrysler

One year has elapsed since the Chrysler Six was first introduced to the American public. In the span of that year, the Chrysler has grown from a mere name to a success the like of which has never been known before.

One year ago, Walter P. Chrysler promised a car that would yield new and revolutionary results. Since then, the Chrysler has more than redeemed its pledge.

In compactness and beauty of design, in quickness of response and flexibility of performance, in economy and facility of operation, in power and in stamina, it has satisfied the long-cherished wants of a critical motoring public.

\$50,000,000 and upwards has been paid by Chrysler-wild American motor car buyers for the privilege of enjoying these revolutionary results. 32,000 cars have been built and shipped in an effort to fill the demand.

It is therefore fitting that Monday, January 5th, the Chrysler's first birthday, should be a day of celebration—for the Chrysler organization because of the unparalleled success attained in one year's time—for owners and admirers because of the Chrysler's revolutionary achievements.

The Towing Car, \$1395; The Phaeton, \$1495; The Roadster, \$1625; The Sedan, \$1825; The Brougham, \$1965; The Imperial, \$2065; The Crown-Imperial, \$2195; The Royal Coupe, \$1895. All prices f. o. b. Detroit subject to current government tax.

We are pleased to extend the convenience of time-payments. Ask about Chrysler's attractive plan. Dealers everywhere.

MANY DIE OF GAS

(Associated Press Leased Wire.) LOS ANGELES, Jan. 2.—The list of deaths attributed to carbon monoxide gas which has occurred in and around Los Angeles in the past week was increased to eight last night with Jack Glavey, 36, motion picture director, as the victim. Glavey was found unconscious on the floor of his bathroom and died without regaining consciousness in a police ambulance on the way to the hospital. Police reported that his death was apparently accidental and that it was caused by the lethal fumes generated by a gas heater in the bathroom.

CONDUCTOR FROGATT PLACED ON PENSION

Word was received by relatives here last week that H. L. Froggatt of Portland, who has been an employee of the S. P. railway for over forty-two years, had been pensioned by the company and will go on the retired list in the very near future.

Mr. Froggatt is a son-in-law of Mrs. O. L. Willis and owns property adjoining Mrs. Willis, just across the railroad track from the local depot and it is expected that he will erect a residence on this property and move to Riddle for the remainder of his life. Most of the 42 years Mr. Froggatt has been employed by the S. P. has been as a conductor working out of Portland. However he and his wife have made frequent visits to this city and are well known here. Riddleites will be glad to welcome them.

SNOW IN WASHINGTON. WASHINGTON, Jan. 2.—Washington for the most part walked to work today with irolley traffic badly crippled by a fall of snow. Except for Pennsylvania Avenue from the peace monument to the treasury, street railway traffic was most intermittent and for hundreds of government employes it was a case of walk or stay at home.

REMOVE U. S. ATTY.

(Associated Press Leased Wire.) WASHINGTON, Jan. 2.—Walter D. Van Riper, the New Jersey assistant United States attorney who refused to resign at the demand of Attorney General Stone, was removed from office today.

Mr. Van Riper's separation from the service is effective immediately and was ordered by Mr. Stone within a few hours after he had received a letter from the outgoing assistant district attorney refusing to resign and attacking officials of the Department of Justice.
