## Put Her Foot In It

I went to a small town to teach school, and found that every one seemed to be related to every one else. That cut me off from all chance for friendly gossip, for one could never tell when she would be gossiping in front of some adoring aunt or cousin.

I was explaining this, laughingly, to a girl in the town who had been nice to me.

She remarked, "Yes, that is so, but I am one exception—we have no relatives here outside our immediate family—you may gossip to me about anyone."

"Well, the people I want most to gossip about are some newlyweds—don't know their name, but she calls him 'darling Donnie dear,' and they are too silly to be around sane people."

"Oh," replied my friend, "I had forgotten about my brother Don and his wife—they've been married about a month, but we don't think they are sillier than anybody else."

## Multiplication Feat

The following method is generally used in the multiplication of Roman numerals: It is necessary to remember that half of C is L, half of L is XXV, half of VI is III and half of V is II and I remainder. Write the numbers to be multiplied side by side. Double the first one and take half of the second, putting down an O if there is no remainder and an I if the remainder is one. The two numbers thus obtained are set down under the original numbers, and the process is repeated until the second column ends in I. Then cross out the lines that end in O and the sum of what remains in the first column will be the product.

## Postal Service Growth

The United States postal service really began in 1829 when an office was set up in Boston tavern to receive letters from Europe. The growth has been steady ever since. High lights in its course were the appointment of Benjamin Franklin as first postmaster general in 1775, adoption of gummed stamps in 1874, free city delivery in 1883, railway post office service in 1894, rural service in 1896, postal savings banks in 1911, parcel post in 1913, airplane mail service in 1918, and daily transcontinental air-mail service in 1924.

## Grapes Valuable Food

Eat grapes and fight anemia. Grapes are particularly valuable in the health diet because of the iron they contain, which helps to build up the red corpuscles of the blood. There is no need of a medical motive to persuade us to eat this delicious fruit, but to know that while we are eating grapes we are building up our circulation is surely not displeasing.

In addition to the iron the grape contains other highly valuable minerals, which it carries into grape juice and other preparations to which this abundant fruit so readily lends itself.

Here visiting during the day from the rural districts today was Edward Cachlin. Mr. Cachlin lives near South Deer Creek.

## CHIEF FIGURES IN THE NEWS OF THE DAY

Above: GEN. WOOD & PREMIER HERRIOT  
Below: DR. C. E. SAWYER & GASTON MEANS.

Brig. Gen. Charles E. Sawyer, Officers' Reserve Corps, personal physician to the late President Harding, dropped dead of heart disease at his home, near Marion, Ohio. Gen. Leonard Wood, Governor-General of the Philippines, has declared the Volstead prohibition law does not affect the Philippines. Gaston B. Means, former detective for the Department of Justice, has disavowed his reputation of the famous testimony he gave against ex-Attorney General Harry M. Daugherty, declaring he gave the reputation under pressure. Mrs. Bigot Pompanon gave a loaded revolver to guards at the Presidential chateau at Ham-bouillet, France, and declared she had intended killing Premier Herriot but that he "looked too nice" to shoot.

## LEGISLATOR SEEKS TO DIVORCE WIFE.

MRS. EDNA JAMES SCOTT.

Scandalous allegations, which have thrown Washington society into a furore, have been made against Mrs. Edna James Scott, wife of Representative Frank D. Scott, in the latter's action for divorce in the courts at Alpena, Mich. He accuses her of extravagances and indiscretions. She denies his charges in toto. Meanwhile, Harry Weycott, cashier at a fashionable Washington apartment hotel, whose name has been mentioned in the case, is threatening suit for libel against those seeking "to make me the goat in the Scotts' marital fight."

## THEATRES

### ANTLERS THEATRE

What kind of a badge does a prohibition agent wear? Where does he wear it? What are the tactics used by prohibition enforcement officers when they make a raid? What treatment is accorded the guests in a cafe when prohibition forces descend upon that cafe?

The foregoing are only a few of the questions that had to be settled in an authoritative manner before the filming of "Wine," Universal Jewel soon to be shown in the Antlers Theatre, was completed. For "Wine" is the screen version of the same name published in Cosmopolitan magazine, and it has to do with the activity of society bootleggers and of those who patronize them.

### LIBERTY THEATRE

According to Edward Jose, the motion picture director perhaps best remembered for his work in "Paul Jones," "The Light That Failed," Pearl White has succeeded in crowding more novelty and thrills in her new six reel production, "Perils of Paris," than in any of her many other notable screen successes. Edward Jose, directed the latest Pearl White offering, and as he also directed the beautiful little daredevil in several of her other pictures. At the Liberty Theatre today and tomorrow.
