HUNDREDS FROZEN AND CATTLE DYING

(Associated Press United Wire.)
TIFLIS, Jan. 10.—One hundred persons and thousands of cattle have been frozen to death during the unprecedented cold weather now prevailing through-

INTER-ALLIED MEET FAILS TO MAINTAIN PACE

PARIS, Jan. 10.—The inter-allied financial conference has failed to maintain the pace it started with, and this morning is much where it was Thursday night. Even the Anglo-American negotiations still are progressing only "normally."
A number of details have yet to be settled and the approval of Washington given for what has already been accomplished before a satisfactory conclusion can be reached.
Le Matin is responsible for the statement that at their meeting last evening, James A. Logan, Jr., of the American delegation and the British Chancellor of the Exchequer, Winston Churchill, hit upon a plan for compromise by which England would abandon her still outstanding contentions in return for help by the United States in bringing the pound sterling back to parity. This, however, entirely lacks confirmation from other sources.
PARIS, Jan. 10.—A meeting of the entire American delegation to the inter-allied financial conference was held at the delegations headquarters this morning. It is understood that the reply to yesterday's cables had been received from Washington and it is thought that contact between the Americans and British would be resumed this afternoon.

Just arrived carload of Page Fence, Square Deal Fence and Monarch galvanized Red Top, Barbed Wire, etc. for prices. Stearns & Chenoweth, Oakland, Ore.

ANNUAL REPORT OF STATE BOARD OF CONTROL MADE

SALEM, Ore., Jan. 10.—The total expenditure for all purposes made through the state board of control for the biennium 1923-4 was \$3,917,733.03 according to the biennial report of the board, which was made public today. This is an increase of \$1,114,114 over the expenditure of the previous biennium, which totaled \$2,803,619.11. Of the expenditures for the biennium just closed \$2,215,040.22 was spent for general maintenance of institutions and \$692,692.81 for special purposes.
The average daily population and monthly per capita cost of the 11 state institutions over which the board has control were:
Oregon State Hospital, 1839, \$17.28; Eastern Oregon State Hospital, 120, \$36.37; State Penitentiary, 420, \$3.14; Institution for Feeble Minded, 744, \$15.55; Training School for boys, 156, \$2.97; Tuberculosis Hospital, 130, \$48.18; School for the Blind, 43, \$29.56; School for the Deaf, 42, \$21.11; Industrial School for Girls, 61, \$25.33; Soldiers Home, 111, \$35.87; Employment Institution for Blind, 42, \$72.32.
The population of four institutions is reported as exceeding their capacity. The State Hospital for the insane with a capacity of 1,500 patients has 1,563. The State Tuberculosis Hospital has 153 patients or 3 more than capacity. The girls school has a capacity of 65 with 73 inmates.
The only important recommendation of the board is that when the boys' training school is moved to the new site near Woodburn that the old plant be converted into a reformatory for intermediate offenders who are too far advanced for the training school and not far enough along for the penitentiary. It is estimated that the cost of establishing a reformatory would be \$100,000. If the legislature does not follow this recommendation it is suggested that the plant be used as additional accommodation for the state institution.

Sam A. Koser, secretary of state, as custodian of capitol buildings and grounds, recommends that financial provision be made by the legislature this year for the construction of a new state office building on the vacant ground north of the Supreme court building. He suggests that this could be taken care of by an annual tax levy to raise one third or one-fourth of the necessary amount each year for 2 or 4 years, actual construction not to start until all the money is raised. He estimates the cost of such a building at \$300,000 or \$300,000 or \$400,000.

Just arrived carload of Page Fence, Square Deal Fence and Monarch galvanized Red Top, Barbed Wire, etc. for prices. Stearns & Chenoweth, Oakland, Ore.

In several cases Shepherds and farmers who went to the fields to tend their sheep or cattle, were found frozen with their flocks.
Driven from their mountain shelters by the fierce cold and lack of food, great droves of antelope and wild horses have invaded the plains and valleys only to perish in their tracks.
In the Alexandropol district of Armenia, where Americans of the Near East relief are caring for thousands of orphans, the thermometer registers 32 degrees below zero.
The catastrophe has not experienced such bitter cold for a century and it is feared the effect on the crops will bring a famine next year.

RADIO FOR MINES IS IMPRACTICABLE

(Associated Press United Wire.)
WASHINGTON, Jan. 10.—Radio as a means of communication between cased mines and surface rescue parties has proved impracticable, the interior department announced today, in describing bureau of mines experiments extending over several years.
High power equipment necessary for communication over distances of 1,000 to 2,000 feet through strata, the bureau said would be too bulky, heavy and complicated and at the same time too fragile and delicate for practical requirements.
It was stated, however, that there is some promise in the application of wired wireless, or line radio, which consists of a transmission along metallic conductors, such as water pipes, compressed air pipes, power and lighting circuits and mine car tracks.

My wife, Lillian Myrtle King, having left my bed and board, I will not be responsible for any accounts contracted by her.
Signed: FLOYD K. KING.

WILL PROTEST COAST HIGHWAY ROUTE

City Engineer D. L. Buckingham was instructed to make a reconnaissance trip in the vicinity of Clear Lake for the purpose of familiarizing himself with the topography, and to report to the council at the meeting Monday.
The purpose in authorizing this informal survey, is to place the city officials in a position to protest against the routing of the Roosevelt highway, as planned, and asking for a re-survey on the east side of the lake.
The council took this action at the regular meeting on Monday evening after hearing the report of Commissioner J. H. Austin, who presented the city's objection before the meeting of the state highway commission in December.
Although there was some reference to the possible effect on the sanitary condition of the city, no argument against the present route of the Roosevelt highway was surveyed on the west side of Clear Lake, was that the construction of the road would disturb the sand dunes and cause the water to flow out of the present bed.
Broccoli seed. A few pounds left of our select early and late strains. Foster Butner.

REDSPOUR BANK ELECTS
Stockholders of the First Bank of Redspour, at the annual meeting held Thursday morning voted unanimously for re-election of the present board of directors, says the Port Umpqua Courier.
Vice-president Geo. W. Staples' report for 1924 showed good earnings were made. After a discussion of the matter, the board of directors decided that it would be more beneficial for the bank if instead of paying out dividends, the money was paid into the surplus fund.
The board of directors was well pleased with the results of the past year, considering the fluctuating business conditions. All expressed the opinion that a better year is in the offing.
Officers elected were:
I. E. Staples, president; Stanley D. Chapin, vice-president; Geo. W. Staples, vice-president; H. McCrea, cashier; Ben C. Roberts, assistant cashier; Dame B. Lyons, assistant cashier.

Broccoli seed. A few pounds left of our select early and late strains. Foster Butner.

PNEUMONIA USUALLY STARTS FROM COLDS

Physicians were against neglecting coughs and colds and left of the various lung conditions that may result. BALSAMIA for all bronchial affections. Will know Dr. Geo. F. Craven, Anderson, Ore., writes: "I use it religiously for my practice and my family. It is quick, safe and sure in its action like nothing else."
Toward the end of the influenza epidemic a government physician noticed that a strike of influenza in Northern Indiana from a native plant were igniting from the ravages of influenza and that in a hospital overflowing with "death" cases. Some of the ravages were such that for some time it was not possible to supply the demand.
BALSAMIA combines the pure vegetable oils in a pleasant cream. It gives medicinal results in four ways: 1. It softens the inflamed membrane and relieves irritation. 2. It loosens secretion of mucus and permits free drainage of the sinuses. 3. It soothes the skin in burning of both sinuses and 4. It strikes at the cause, quickly checking any germs that may be lurking below.

The BALSAMIA is with ordinary balsams and does not go to the base of the trouble. Unlike other cough remedies BALSAMIA is free from coal tar and other harmful narcotics. Pleasant to take and absolutely safe for all ages.
Be sure you get BALSAMIA with the picture of the Indian on the package. Guaranteed to give you relief, or your money back. All drug stores carry it. If you cannot find it in Roseburg buy it from Chapman's Drug Store.

BALSAMIA
for CHRONIC COUGHS

The tastiest breakfast dish New Style H-O

THE only oats that cook into granular oatmeal. Nothing else like it. Meaty granules stimulate digestion. Never cook sticky or pasty. Wonderful flavor. More than a new oatmeal—a new cereal.
Energy-building carbohydrates, tissue-building proteins, a wealth of vital minerals. And New Style H-O takes only 2 to 3 short minutes to cook—the quickest cooking cereal—quick as a flash!

PRESBYTERIAN MISSIONARY SOCIETY

"Jesus Shall Reign" was the opening hymn sung at the regular monthly business meeting of the Presbyterian Church, in the church parlors, on Thursday afternoon, Mrs. Scott made the opening prayer.
Plans for the Annual Thanksgiving and Praise Service were laid, January 28th a missionary from Brazil will be the speaker for this service, in the church.
The nominating committee was appointed as follows: Mrs. H. L. Eddy, Mrs. Helen Smick, Mrs. R. H. Grinstead.
Mrs. I. N. Parks gave an interesting report of the meeting of the Executive Committee of the Southern Oregon Presbyterian Society, which she recently attended. At this meeting it was decided that all contributions from the Presbyterian Missionary Societies in this district will go to the support of the work being done by Miss Dorothea Abraham at the Canton "True Light Seminary in China. It will be remembered that Miss Abraham's home is in this city, and that after teaching two years at Ashland, Miss Abraham was sent to China by the Presbyterian church, of which she is a member.

Sportographs

(Associated Press United Wire.)
Coach Hee Edmundson and Jess Jackson, University of Washington's basketball manager were worried and peeved today. Three husky hoop stars have caught the cross-word puzzle fever. Jackson and Edmundson admitted the big problem was to distract the attention of the court players from the puzzles to the cage game. On a recent trip to Spokane, Dick Frayne, Al Schuss and George Anderson worked cross-word puzzles instead of talking basketball.

guts see fit to set down the champion, several bouts already arranged will have to be labelled "postponed" as it is unlikely Martin will attempt to fight against the commissioner's orders.

Walter Johnson, pretense see of the Washington Senators who is visiting in Los Angeles, spends much of his time with his first baseball boss Joe Burke, United States District Attorney, swapping reminiscences of the days when both played together with a team representing Ollinda, a little oil town in the hills near Los Angeles.
Frank A. Terry of the Equitable Savings and Loan Assn. is at the Umpqua Hotel.

When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into "flu" or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.
Musterole is a clean, white ointment, made of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of all sorts.
To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole, 35c and 65c jars and tubes; hospital size, \$3.00.
MUSTEROLE
Better than a mustard plaster

7.14% —and WHAT ELSE?

Preferred Stock of The California Oregon Power Company offers ONLY a sound, high-yield investment for your idle funds or monthly savings.
It offers no sudden, speculative fortune. But it brings you, regularly every three months, the maximum reasonable dividend from a well-guarded investment.

DOUBLY GUARDED

Your investment in this security is safeguarded by a large direct equity (more than twice the value of the stock) in nine valuable power plants, in one more now being built, in 1550 miles of power lines, and in all of the Company's other properties.
7.14% from Copco Preferred Stock does mean doubly-guarded savings.

\$5 A MONTH makes you an investor
