Active Glands

Gave Napoleon Fighting Force

According to Berman, a noted scientist, who has analyzed the action of the glands, Napoleon, one of the greatest fighters of all history, owed his courage and fighting force to large and extremely active adrenal glands.

Not only have the glands an important influence on the mind and character of the individual, but they also largely control health, energy and vitality, and it is by maintaining the normal functioning of the glands that we may combat sickness and ill health, according to eminent scientists and physicians of this country and Europe.

Glandogen, the new scientific gland tonic, prepared in tablet form, provides a simple method of taking glandular treatment. Glandogen, for men and women, is obtainable at Chapman's Drug Store.
