Mrs. Fields had gone to Portland for the week end to visit. Mr. Fields was called and went to Portland early Sunday, although it was found necessary to operate before his arrival. Mr. Fields has returned to Roseburg but Mrs. Fields will remain at the sanitarium for several weeks.

Jackson Co. Bill Bill Up Again And Passed

STATE HOUSE, Salem, Ore., Feb. 25.—During a lull in the storm over taxation measures in the house yesterday afternoon, house bill 422, defeated last Saturday, was re-considered and passed.

The measure, introduced by the Jackson county delegation provides for the election of two precinct committees instead of one in precincts of counties other than Multnomah a pre-primary county convention scheme, providing for the drawing up and laying down of party platforms and the selection of candidates.

Representative Cowgill explained that the bill did not interfere with the present primary law and that the people of this country were as one in desiring its passage.

In a lengthy series of house bills passed by the senate were all the principal appropriation bills of the session, aggregating \$6,523,306.50.

The largest appropriation item was that of \$3,072,717 for the regular state institutions located at Salem, Pendleton, Roseburg and the blind school in Portland, which were embodied in one bill and totaled \$3,072,717.

The quarter mill road tax was repealed.

The bills for repealing half of the millage tax under the bonus and loan act, amounting to half a mill or about \$500,000 and the bill for suspending state aid to the accident commission amounting to about \$175,000 for the biennium passed. The senate killed bills to increase the salary of the state superintendent of schools and of the state dairy and food commissioner.

Among the bills passed by the senate was H. B. 238, game code amendment, making open season on birds and deer uniform throughout the state; changing opening of deer season from August 20 to September 10, etc., reducing bag limit on birds.

There will be no legislation at this session to strengthen the blue sky law. The senate yesterday killed by indefinite postponement the Bailey house bill which was prepared by Oswald West, and several days ago the Joseph bill was killed. The Joseph bill had the support of W. E. Crews, state corporation commissioner.

Senator Beal's bill, which proposed an appropriation of \$125,000 for the establishment of 20 branch normal schools in the state was defeated in the senate.

Senate bill 48, providing for the appointment of two high school inspectors, and senate bill 196 providing for teacher training centers in 10 Oregon high schools also were killed.

Consider Tax Bills. (Associated Press Local Wire.) STATEHOUSE, Salem, Oregon, Feb. 25.—The senate today had before it three bills passed by the house late yesterday as a solution of the financial middle which has kept the legislature working overtime this week. One bill calls for a ten percent tax on tobacco, cigars and cigarettes, another requires all state boards and commissions to turn in ten percent of their fees to the general fund. The third forces railroads and other public utilities to pay a gross earning tax to total more than \$80,000 in the next two years.

Representatives Coffey, Longman and Kirkwood of Multnomah county, Mott of Clatsop, Hazlett of Hood River, Pierce of Coos, Swan of Linn and others, opposed the bills. Charges were made that Governor Pierce and former State Treasurer Jefferson Myers, who had control of the tax commission when the property tax levy of the state was made, were responsible for the situation because the levy was made too low to cover appropriations.

Representative Gordon, chairman of the joint ways and means committee, pointed out that his committee had worked more than a month on the financial system. "It has done what it thought best," he explained.

Representative Bennett of Multnomah county also a member of the ways and means committee urged passage of the measure. "It is a tax that will not hurt anybody," he declared.

The representative Carlin, of Jackson county, explained that he did not like it any more than a child likes castor oil, but that it seemed best to hold our noses and swallow it.

Censorship Bill Killed. STATEHOUSE, Salem, Oregon, Feb. 25.—The motion picture censorship bill sponsored by the house committee on health and public morals was killed in the senate today by indefinite postponement.

Representative Graham of Washington county today succeeded in having house bill 21, providing for an armory appropriation for Forest Grove, taken from the table and passed.

The bill, along with several others seeking armory appropriations, had been on the table, apparently given up on account of the recommendation of the ways and means committee that all armory appropriation measures be withdrawn for this session.

Next Representative A. R. Hunter of Union got house bill 74, providing for an armory appropriation for La Grande withdrawn from the table and put up for final passage.

The house passed the bill appropriating \$40,000 providing that the sum must be matched by private subscriptions.

Next Representative Neit sought to have house bill 41, providing for a \$44,000 appropriation at

Fontana's Macaroni advertisement featuring an illustration of a man and a box of macaroni. Text includes 'When you try Fontana's—FIRST, notice how well the macaroni elbows, noodles, or whatever the product may be, is packed. SECOND, observe the uniform high quality. No "split" or "fractured" lengths, tubes or elbows, in a Fontana package. THIRD, see how quickly Fontana's responds to cooking. Not a bit of starchiness. The exclusive Fontana way of making, converts the starch into a wholesome element. FOURTH, taste the richer flavor. It's always present, even when you "warm-up" leftovers. Tip For Beginners. Text: 'Solve this puzzle by comparing the synonyms listed in the "Horizontal" and "Vertical" columns with the number of spaces extending crosswise or downward on the diagram, as the case may be. If a word occurs to you meaning substantially the same as the synonym and the correct number of letters to fit in the spaces between its number and the first shaded spot following, write it in lightly. Work away the small words, the "easy" words, first, and they will give you plenty of clues to thad difficult ones.'
