

The Trick of Quick Starting

Only part of your gasoline problem!

There's your motor to be considered—and this is vitally important. Go a little farther into this question of gasoline.

Non-detonating gasoline delivers power impulses continuously throughout the full stroke of the pistons. It doesn't deal one sudden, crashing blow. Strong, smooth power results.

A swift, powerful, continuous thrust drives the pistons all the way down. No sudden crash against the piston head, the force of which is spent and gone in one explosion.

No vibration, none of the wear and tear, and no "knocking" due to those sudden crashes.

A smooth, quick pick-up and a gliding, powerful, stressless speed comes from Non-Detonating Union Gasoline.

Its use insures your motor's best performance.

Sold through Union Service Stations and independent dealers everywhere.

WORKERS TO FIGHT WAGE REDUCTIONS

By Herbert Little. (Associated Press Local Wire.) WASHINGTON, Feb. 25.—Wages must not be reduced! The workers must fight every move towards reduction, William Green, president of the American Federation of Labor, said today.

Attacking "some of the important employers in the New England textile industry who are engaged in an attempt to cut wages," Green, in an interview, has warned against similar attempts in other industries and declared that the wages of all workers depended upon the success of the employers in this first move.

"Workers must fight every attempt to reduce wages; if the wages of carpenters are reduced, carpenters buy textiles, and the wages of textile workers are reduced," said Green. "Textile workers will have less money to buy commodities produced by other industries; they eat poorer food; they make the old shoes last longer, burn less coal or no coal at all. So it goes, and every reduction of wages in the long run, increases unemployment."

"Unemployment has steadily receded before the advance of the trade union movement, which has reduced hours of labor, raised the rates of pay, fostered the development of machinery and taught the workers to demand and get better conditions and higher standards of living."

"Unions work constructively for the good of mankind by obtaining wage increase for workers, Green said.

"To a much greater extent this of misery and dependence is written in the record of wage reduction," he stated.

"To a much greater extent the record of happiness, well-being, prosperity and growing civilization is written in wage increases. Just a few months ago the U. S. Steel Corporation raised the wages. The reason doesn't matter much. The effect was magnificent. It made for human happiness."

"Humanity was given a fairer chance when the carpenters' union, years ago stood out from the ranks and demanded and got the 8-hour day. The United Mine Workers took the breaker-boys out of the mines and gave slaves a chance to become men. The International Typographical Union has saved thousands of lives by the regulations it has lived by and the regulations it has imposed on employers to accept."

"How feeble and ignoble a contribution it is when employers

The Easiest Flowers To Grow—Garden Annuals

EVERY home, whether mansion or cottage can Eprofit by plantings of "old-fashioned" annuals. Many of them are fragrant—others with long stems suitable for cutting. They provide gorgeous color in the yard from early summer to frost. Sunshine, moisture and a soil good enough for grass are all that's necessary.

come offering reductions of wages!

"It has not yet been thoroughly learned that every industry that reduces wages hurts every other industry."

"Today it is the textile workers who are being attacked. Tomorrow it may be some one else. The workers must stand and fight. If employers in the textile industry can reduce wages, then other employers, equally foolish, will attempt the same policy."

row it may be some one else. The workers must stand and fight. If employers in the textile industry can reduce wages, then other employers, equally foolish, will attempt the same policy.

"Experts have been predicting a prosperous year; everybody hopes

it will be; but 1925 is going to be a good year only on condition that the industrial world recognizes the rights of the workers to fair wages."

HOPPE STILL LEADS LIST OF CHAMPIONS

(Associated Press Local Wire.) CHICAGO, Feb. 26.—Willie Hoppe, defending his world's championship at 18.2 ballline billiards in the International tournament here has demonstrated to spectators that his recent

adroit into the three cushion field has not harmed his delicate touch. He leads the standing.

Welker Cochran, Hollywood youth, lost a side bet and paid for dinner and theatre tickets after the veteran tillist defeated him, 400 to 143 last night. Hoppe compiled runs of 109 and 197.

The most startling display of the tournament was Edouard Foreman's defeat of K. Suzuki, the Japanese champion, 400 to 12. The Belgian champion had a run

of 249. This afternoon Cochran and Suzuki will play and tonight's match will bring together Jake Schaefer, former champion, and Erick Hagenlacher, German title holder. The first two have lost both their starts, while Schaefer and Hagenlacher have won single games and lost none.

Camp Physiological Belts, when demonstrated, show conclusively why this system of rigid non-elastic support excels all others. We carry these belts for both men and women. Lloyd Crocker.

FAREWELL MEETING AT SALVATION ARMY TONIGHT

There will be a big farewell meeting at the Salvation Army Hall tonight at 7:30 p. m. for G. W. Scott, the Scotch evangelist. A large attendance is expected to hear the little minister sing and preach the gospel for the last time in Roseburg. The subject will be "Who Can Separate Us From the Love of Christ?" A love offering will be taken for the evangelist. The officer in charge, Adjutant Fred Anderson, reports that Mr. Scott and himself had a fine meeting at the Christian church at Drain last night.

SOCIAL AT GLENGARY

There will be a pie social and entertainment at the Glengary school house by the Glengary P. T. A. Fri. Feb. 27.

SCHOOL REOPENED

The Sunnydale school near Drain was reopened today upon order from County Physician W. C. Belt, after being closed for a few days. The school was closed by the directors the first of the week, when a case of diphtheria was discovered. The county health unit has taken cultures from the throats of all of the children and now have the situation in hand so that no epidemic will result.

FOOD SALE The ladies of St. Joseph's church will hold a food sale Sat., Feb. 25 at Zigler Fee Hardware Store.

WEALTHY GIRL TO WED YOUNG LAWYER

(Associated Press Local Wire.) NEW YORK, Feb. 26.—One of the world's richest girls will step from her parent's mansion into the modest apartment of a young lawyer when Miss Abby Rockefeller, only daughter of Mr. and Mrs. John D. Rockefeller, Jr., and David Merrivether Milton, Jr., are married next May.

The standard of living they will adopt after their marriage, will be set by his comparatively small salary instead of by her parents' millions, it was learned last night with the announcement of their betrothal.

The engagement is the culmination of a romance which started in their childhood and grew during the years their families were neighbors at Pocantico Hills and Seal Harbor, Maine.

Last Summer Miss Rockefeller was arrested for speeding while she was driving in Mr. Milton's car. In this Mr. Milton came to her rescue and defended her in court, although he is not a member of the bar.

He championed her so ably that she got a suspended sentence. Miss Rockefeller is 21, was born in New York, educated at a private school and introduced to society November 22, 1923. Mr. Milton, who is 25, is a graduate of Williams college and of the Columbia University law school.
