NEW YORK ARTIST IS PROUD FATHER

(Associated Press Leased Wire.) NEW YORK, Mar. 2.—James Montgomery Flagg, artist, is the father of a daughter whose arrival he has announced in true artist fashion.

Mr. Flagg was official military artist of New York state during the war and he adopted the patriotic motif of the announcement cards. An eagle instead of a stork holds a baby bundled in blankets and on either side of the eagle stands a soldier giving a salute. The cards read:

Mrs. James Montgomery Flagg announces the birth of an American citizen, Feb. 28. Also James Montgomery Flagg is awarded honorable mention, February 15, 1925. Also gold medal awarded Dr. Harry Britten, N. C.

Mr. Flagg married Miss Dorothy Virginia Wadham last May. She had been a model for many of his magazine covers.

CORDOVA SCHOOLS CLOSED; DIPHTHERIA

(Associated Press Leased Wire.) CORDOVA, Alaska, Mar. 2.—Schoools here were ordered closed today when John Ramgard, two years old, was discovered with diphtheria by Dr. W. Connell. The child died at 4 p. m. yesterday.

Eleven persons exposed to the disease were inoculated and quarantined. Dr. W. H. Chase, health officer, said there are 20,000 units of antitoxin on hand and he has telegraphed for more.

BODY OF EBERT LIES IN STATE

(Associated Press Leased Wire.) BELLINGHAM, Mar. 2.—The body of Frederick Ebert, Saturday's first president who died Saturday, lies in state in the city hall, which has been left just as it was when his sudden illness overtook him.

The coffin of brown oak rests on a catafalque and over it caudles shed their faint glow. The room is draped in black and with the exception of a wreath of white lilies from the widow and one of mimosa from the children, floral decorations are limited to green plants. The wreath from Frau Ebert bears a white ribbon with the one word "Lulise," and that from the children, a black, red and gold ribbon with the inscription: "To our unforgettable father."

Four soldiers comprise a guard of honor.

GET THE GOPHERS WITH MOTH BALLS

A potato grower writing to the Produce News from Oklahoma tells how he got rid of pocket gophers, and the methods may be of value to Unquaga Valley farmers. He says:

W. W. Dawkins, a farmer and large producer of sweet potatoes, has found another use for the much despised moth ball and has been saved from ruin. Gophers were tunneling under the sweet potato beds of Dawkins and he had almost given up all hope of raising crops. A friend told him to roll moth balls down into the holes where the gophers were making their homes and that he would soon be rid of them. Dawkins thought his friend was "kidding" him, but as he had tried every thing else suggested, he saw no harm in giving the moth balls a whirl. He tried the experiment and reports that it worked fine. The gophers now give his farm a wide birth and he expects to raise a bumper crop of sweet tubers next year.

MILL WILL MAKE IMPROVEMENTS

(Associated Press Leased Wire.) A number of substantial improvements are being made by the Roseburg Lumber and Manufacturing company, which succeeded the old J. G. Flock company, and is now operating the mill and factory on Mill street. The entire south half of the property is being covered with tramways, where the company will keep a full and complete line of yard stock, and sized lumber, together with shingles, lath and other building supplies. Mr. Jildebrand states that he expects to have the most complete lumber yard in Southern Oregon, and will carry a large supply of all kinds and sizes of lumber.

There has also been much improvement in the building itself. The office has been moved from the upstairs down to the first floor, and a beautifully equipped and furnished office is now located in the corner abutting on Mill and Mosher streets. The capacity of the plant is being greatly increased. An electric motor is being installed to drive the machinery on the second floor and a new 48-inch three-drum sander has been added to the other equipment, and a complete new blower system is being installed.

The plant is making a full line of sashes, doors, and other such articles, and has lately started the manufacture of a pullman breakfast nook.

JEWELRY STOLEN IS VALUED AT \$10,000

(Associated Press Leased Wire.) SAN DIEGO, Calif., Mar. 2.—Police today were trying to establish some connection between the robbery Saturday night at a downtown hotel here of two Los Angeles women of jewelry valued at more than \$10,000 and the finding yesterday afternoon of the body of an unidentified murdered man beside a lonely road north of the city.

Answering a knock at the door of their room in a downtown hotel early Saturday night, Mrs. Dorothy Smollen and Mrs. B. Rosenfeld, of Los Angeles, sisters, were confronted by an unmasked man with a revolver, who robbed them of their jewelry and made his escape from the hotel before the two women could give the alarm. The police were without a working clue in the case until today when the body of the murdered man was found and it became known that he fitted in detail the description given by the robbed women of their assailant.

The police are proceeding with their investigation on the theory that the dead man may have been trailed and killed by other robbers as he sought to escape from San Diego with his loot.

SUNDAY WAS DAY OF REST FOR TEAMS

(Associated Press Leased Wire.) NEW YORK, Mar. 2.—Sunday was a day of rest for the southern training camps, one of the last vacations that professional baseball players will enjoy until after the next world series.

There was a general inpouring of veterans and recruits at the camps of the Yankees, Giants and Dodgers in Florida, 14 appearing at the Huggins' center of activities in St. Petersburg, seven wandering into the Giants' gathering at Saratoga and 21 preparing to start strenuous work at Clear Water, temporary home of Brooklyn's hope.

Babe Ruth headed a small club into St. Petersburg from Hot Springs. Manager McGray of the Giants saw Hugh McQuillan, Bill Southworth, Hack Wilson and Fred Lindstrom, among others, for the first time in several days.

The Dodgers will start training in earnest at Clear Water today with Manager Wilbert Robinson deciding matters.

SENATE COMMITTEE SUBSTITUTES BILL OF CAPPER - HAUGEN

(Associated Press Leased Wire.) WASHINGTON, Mar. 2.—The senate agricultural committee, voted today to substitute the Capper-Haugen cooperative marketing farm bill for the Dickinson measure, passed last week by the house.

The substitute follows the recommendations of the president's agricultural conference and would provide for regulatory federal control of cooperative marketing organizations upon voluntary request of the organizations. The house bill would provide for an advisory board and a council on cooperative marketing. The committee vote was 7 to 6: The Dickinson bill was assailed before the committee on Saturday by Chairman Carey of the conference.

Senator Capper, republican, Kansas, has the promise of republican leaders that the bill will be given a chance for consideration, but prospects for enactment of any farm bill at this late hour are very slim. If the senate could agree on the Capper bill it would have to be sent to the house, where it was rejected last week in favor of the "Dickinson bill."

80TH CONGRESS READY TO QUIT

(Associated Press Leased Wire.) WASHINGTON, Mar. 2.—With the prospect of only remaining appropriation measures and minor bills squeezing through the legislative jam before sine die adjournment at noon Wednesday, the sixty-eighth congress probably already has written its record in enactment of major legislation.

The one important bill on which leaders expect to get final action in the coming hours of the session is the rivers and harbors authorization bill, which went to conference for adjustment of scores of amendments after its passage Saturday by the senate, although a last minute fight is looming over reclamation projects in the interior department appropriation bill, leaders believe this can be put through along with other regular supply bills not yet sent to the White House.

Important measures which appear doomed to failure include the Underwood Muscle Shoals leasing bill, the Cramton measure to reorganize the prohibition unit, the McFadden banking bill and farm legislation to carry out recommendations of the president's agricultural conference.

The senate agricultural committee was meeting today to report a farm relief bill, but with administration leaders and members of the farm bloc disagreeing as to what form the legislation, should take, its chances of enactment seemed remote.

While day and night sessions are on the program for both the senate and house before adjournment, leaders are convinced that efforts to put through any of the important administration measures would be futile.

JITNEY DRIVER HAS A NARROW ESCAPE

Harry Crocker, local jitney driver, had a narrow escape last Saturday night, when his Dodge sedan plunged over a 25-foot grade on the Melrose road. He was on his way to Melrose to bring back a party from the dance, when the car swerved off the road and landed bottom side up. The body of the car was almost completely demolished, but the frame prevented injury to the driver.

CHARGE OF LARCENY PLACED AGAINST TWO

A charge of petty larceny was placed today against Wayne Chapman and Eric Ebe. The two men are alleged to have stolen accessories from an automobile. They were placed under \$50 bail and have secured the services of Attorney Compton, and are expected to deny the charge. They were given time in which to enter their plea.

OIL CO. RELECTS BOARD OFFICIALS

Stockholders in the oil company that is sinking the well at Leeper Dome, west of Oakland, were so well satisfied with the showing made and the work done under direction of the officers, that at a meeting held in Oakland last Saturday they reelected the entire personnel of officials, expressing entire confidence in their ability to develop the property. Mr. A. F. Stearns, of Oakland, will continue as general manager of the corporation. Mr. Stearns also was elected director for the two-year period, and Mr. Cobb will serve in capacity of director for the three-year period. All other directors and officers were reelected to respective offices.

The auditing committee of the company examined into the financial condition of the company, and reported that everything was perfectly satisfactory, with all accounts paid and money in hand to prosecute drilling operations.

After the election of officers and the business of the annual meeting had been taken care of, the directors held a meeting to look after business matters coming before the board. Perhaps the most important feature of this meeting was the employment of an oil well expert, who will have charge of the technical work constantly arising as the well goes deeper. The gentleman employed for this department is Mr. J. J. Woodruff, of South Dakota, who comes highly recommended as a man of high standing in oil operation circles, and one thoroughly conversant with all phases of the business. The directors express unbounded gratification in the fact that Mr. Woodruff is to have charge of this feature of the operations, and allege that his wide experience will be worth a lot to the company. The managers realize that to safeguard every move made from now on it will be necessary to have a man on the job who is thoroughly familiar with the work, and who will be able to handle every emergency at the critical moment. As the drill goes down, oil strata may be encountered, and to know just when and how to meet the issues is a man's job.

Drilling operations are being pushed steadily every day, and good progress is being made. The presence of gas continues to show strongly, and all indications point to the ultimate success of the enterprise. The managers believe that oil will be found somewhere under 2000 feet depth, and are determined to prove that Douglas county has oil in commercial quantities, so are pushing the development of the well.

RECEIVES INJURY FROM FALLING STONE

Superintendent Tremper of the Rock Creek Quarry had the misfortune to receive a scalp wound on the back of the head and a few minor bruises, this morning, while at work at the quarry. Mr. Tremper was at work drilling in the rock, when some rock loosened from above him, falling and hitting his head and rendering him unconscious for a short time. He was brought to town, where Dr. Houck took a few stitches in the wound. Mr. Tremper was able to resume his work this morning.
