The history of the American stage does not record a more enduring success than that achieved by the Famous Georgia Minstrels, which comes to the Antlers Saturday matinee and evening. This company has weathered the storm of over thirty three years on the road, having visited time upon time every city and state on this continent, and have spent numerous seasons in foreign countries where they have been received by crowned heads and the nobilities, where their success has been as marked as in their native country. The company and production for this season is out of the ordinary.

FORMER ROSEBURG WOMAN APPOINTED POSTMISTRESS

Confirming a previous report, a Washington dispatch of March 10, announces the appointment of Mrs. Adele M. March as postmistress at Myrtle Creek, Mrs. March prior to her marriage was a Miss Mulkey and during her girlhood attended school in Roseburg, where she has many friends. She succeeds O. A. Kirby, postmaster for the past ten years, who was an applicant for re-appointment, with the blanket endorsement of a large majority of the patrons of the office, irrespective of political affiliation.

Mrs. March, who was a successful school teacher, passed the civil service examination for the postmaster position, as did Mr. Kirby. She is a republican in politics, whereas the present incumbent of the office is a democrat.

HENDERSON ALLOWED TO RETURN HOME

Jack Henderson, arrested Saturday night for the attempted theft of the car belonging to C. T. Rasmussen, was released from custody today, and was allowed to return to his home in Portland. Henderson's mother came down from Portland this morning and arranged for his release. The boy left home because of a disagreement with his parents, but by the time he got to Roseburg decided that home was the best place after all. Not having money enough to buy a ticket home he decided to steal a car, and was trying to start Mr. Rasmussen's car when he was apprehended. As the owner of the machine did not care to press the prosecution, the officers decided to give the young man another chance.

OIL SCANDAL AGAIN IN LIMELIGHT WHEN TESTIMONY IS GIVEN

(Associated Press Leased Wire.) CHEYENNE, Wyo., Mar. 11.—How the rush of independent oil operators to the Wyoming's representatives in congress caused United States Senator John B. Kendrick and Representative Frank W. Mondell to pry under the alleged cloak of secrecy concerning the then Secretary of the Interior Albert B. Fall's negotiations for leasing the Teapot Dome naval oil reserve was told in denunciation and testimony today in the government's suit for cancellation of the lease.

Senator Kendrick, taking the stand as a government witness, declared that on April 7, 1922, the day on which the lease to the Mammoth Oil company was executed, he received a request from Leslie D. Miller, Cheyenne oil man, that his application for a lease on part of the dome be considered. Senator Kendrick testified that he transferred the request to the department of the interior through his secretary, W. A. Anderson; that on April 10, three days after the lease was executed to the Mammoth company he obtained information from H. Foster Bain, director of the bureau of mines, on the government's proposal to lease the navy oil field; that on or after April 5, 1922, when reports were circulating in the press that the government contemplated such a lease he received a protest against the action from the Rocky Mountain Oil and Gas Producers' Association and that this was also forwarded to the interior department.

GUARDS DISCHARGED; SLUMBERED ON JOB

(Associated Press Leased Wire.) SALEM, Oregon, March 11.—Three guards at the state penitentiary have been discharged in the last week for sleeping at their posts, Warden Dalrymple said today. All were on night shifts. Guards when on duty are required by the prison rules to punch a dial every half hour, which registers in the turnkey office and indicates whether the man is on the job. The posts occupied by the guards had been skipping one or two of the half hour intervals on several nights recently, and upon investigation they were found napping in their chairs.

All of these discharged live in Salem. Two have been replaced by C. A. Baker and I. W. Hubbard, also Salem men, the former having previous experience as a guard at the prison. The third man needed to fill a vacancy will probably be employed today.

GRAND JURY HEARS FIREBUGS STORY

PORTLAND, Ore., March 11.—Charges against Chester C. Buchtel, fireman firebug, are being heard by the county grand jury. Buchtel confessed setting sixty three fires during two years, but evidence concerning only three or four in which evidence to corroborate his confession has been obtained, will be presented.

The district attorneys office has decided to leave the matter of an examination for sanity entirely to the defense.

The defense is expected to wait until after an indictment has been returned before asking for an examination by alienists, and Buchtel's family have announced they want the former fireman kept in custody until his case is properly disposed of.

If he is indicted and the sanity board holds him sane, he is then expected to go to trial on a defense of insanity, the merits of which must finally be decided by the jury.

Theatres

Liberty Theatre
The delight which hailed the appearance of Evelyn Brent has caused the producers to cast her in another crook melodrama; though this time of a very different sort. "Midnight Molly" is the title of the production, and it proves one of the most thrilling as well as entertaining pictures which has yet been turned out in Hollywood; not even excepting "Those Who Dance," and "Cornered." That the beautiful little actress is a brilliant interpreter of roles which combine love and larceny, there can be no doubt after seeing her last two productions, particularly "Midnight Molly." It came to the Liberty theatre for a two-day run starting yesterday.

Majestic Theatre

That there is something new under the cinema sun (ars) seems to be the consensus of opinion among those who have seen the latest William Fox feature, "Darwin Was Right," which opened a two day engagement at the Majestic theatre yesterday. Thus far the main reputation of this picture rests upon its elements of novelty plus its "ability" for making people laugh as they have seldom laughed before. One critic has declared that it is "a lot of enjoyable nonsense based on a lot of appealing common sense."

Antlers Theatre

Raymond Leslie Goldman's a-study Evening Post story, "Battling Bryman," which tells of the Kid who became the human punching bag for preliminary f-bouts and was a knockout, not because he always got knocked out, but because he had a funny boxing style peculiarly his own, has been transferred to the screen and will be the feature attraction at the Antlers theatre.

Wesley Barry, grown-up, wearing long pants and suffering from a fluttering heart whenever a certain blue-eyed Irish lassie looked his way, has a part that enables him to tickle a laugh from you one minute and squeeze an unwilling tear from your eyes the next.

ICE COMPANY WINS IN LAND TITLE SUIT

Judge Hamilton today handed down a decision in favor of the Douglas Ice & Storage company in that company's suit against Nora T. and George H. Singleton. The suit is one in which the company is endeavoring to quiet title to a tract of land located near the ice plant in the south end of town. The defendants, Mr. and Mrs. Singleton claimed an interest through inheritance from Mrs. Singleton's father. Judge Hamilton ruled that transfers to the company and its predecessors, indicate a direct chain of ownership, and that the company having had open possession for more than ten years should be given a clear title.

of unbobbed tiffan hair. She denied that she ever had it doctored or that it was of different color now from what it was when she was married.

She spoke in a low voice with a glance occasionally at her gray-haired husband.

Mrs. Stokes was followed on the witness stand by her mother, Mrs. Arthur Scott Miller of Denver.

Mrs. Miller was asked only a few questions regarding the presence of the children at the time the sleeping car conductor said their playfulness attracted him to Mrs. Stokes.

She said they were in her Denver home.

The prosecution tried unsuccessfully to have introduced documents presented in Mr. Stokes' unsuccessful divorce suit, but was overruled, and rested its case.

Hearing of testimony was concluded at 12:20 p. m. and court was adjourned until 2 p. m. when arguments to the jury will be started.

CHICAGO, Mar. 11.—The appearance of the witness stand of Mrs. Helen Ellwood Stokes in the trial of her husband W. E. D. Stokes of New York, was held in abeyance today while other witnesses were called to testify in denial of testimony that Mrs. Stokes made two overnight railroad trips late in 1922 with her young couple for short week end trips during

Dr. Hal C. Billig of Chicago, father of Hal K. Billig, testified that his son was not out of Chicago except for short week end trips during 1922, the latter part of which was fixed by two sleeping car conductors as the time, Billig traveled from Denver to Chicago and Chicago to Denver, with Mrs. Stokes.

Norman C. Fortney and W. C. Gibson, neighbors of the Billigs testified in corroboration of the statements of Dr. Billig.

Leon Digger, actor, was recalled for cross-examination. He testified that while he had viewed an affidavit mentioning Mrs. Stokes, he did not know her and had not read the statement before signing it.

The next five witnesses denied the testimony of Mr. Stokes in which he had detailed conversations he had with them and various clues they had given him in his investigation, that his wife was formerly an inmate of the notorious Everleigh Club in Chicago.

Dr. Maurice Rosenthal denied the statements of Mr. Stokes that the doctor had offered to accept \$25,000 and "whisper words to Mrs. Stokes, which would make her disappear." But he ever treated her professionally, while she was an inmate of the Everleigh club or that she was acquainted with Mrs. Stokes.

Great scouting forces of the defensive blue fleet were in the zone of battle while the mighty black fleet of invasion was believed to be almost within striking distance.

All ships were darkened, the staffs of the commander in chief's eagerly scanned decoded radio messages, each moment expecting news of skirmishes between outposts of fleet squadrons.
