FARM SUPPLIES OF GRAIN ARE LOWER THAN LAST YEAR

PORTLAND, Ore., March 12.—United States farm supplies of wheat and corn on March 1, 1925, are materially lower than a year ago, or two years ago, according to reports compiled by the Crop Reporting Board, U. S. Department of Agriculture. Crops show an increase of about 10 per cent compared with last year, and barley and hay stocks are not materially different from last year or two years ago.

Percentages of the Oregon grain crop of 1924 remaining on farms March 1, 1925, are reported as follows: Corn, 6.9 percent; 8.0 percent; oats 20.0 percent; barley, 11.0 percent; hay 12.0 percent. On March 1, 1924, supplies of the 1923 crop on hand were: Corn 7.6 per cent, wheat 20.9 per cent; oats, 25.9 per cent; barley, 15.0 per cent; hay 15.0 per cent. It is probable that the foregoing figures include considerable grain not actually on farms, but still owned by growers, and stored in warehouses at shipping points.

The United States figures are as follows:

The amount of Corn on Farms, March 1, 1925, based upon reported percentage applied to the entire crop, was about 801,699,000 bushels or 2.9 per cent of the 1924 crop, compared with March 1, 1924, stocks of 1,153,847,000 bushels or 37.8 per cent of the 1923 crop, and March 1, 1923, stocks of 1,093,306,000 bushels or 37.6 per cent of the 1922 crop; the 10 year average 1915 to 1924 being 38.1 per cent. About 17.7 per cent of the crop will be shipped out of the counties where grown, compared with 19.7 per cent of the 1923 crop and 17.9 per cent of the 1922 crop so shipped; the 10-year average being 18.7 per cent. The proportion of the 1924 crop which is merchantable, is about 64.3 per cent, compared with 89.8 per cent of the 1923 crop and 88.3 per cent of the 1922 crop; the 10 year average being 81.2 per cent.

The amount of Wheat on the farms March 1, 1925, was about 115,923,000 bushels or 13.0 per cent of the 1924 crop, compared with March 1, 1924, stocks of 137,717,000 bushels or 17.3 per cent of the 1923 crop, and March 1, 1923, stocks of 156,987,000 bushels or 18.9 per cent of the 1922 crop; the 10-year average being 18.3 per cent. About 71.6 per cent of the crop will be shipped out of the counties where grown, compared with 63.4 per cent of the 1923 crop and 67.3 per cent of the 1922 crop; the 10-year average being 69.1 per cent.

The amount of oats on farms March 1, 1925, was about 550,342,000 bushels or 35.7 per cent of the 1924 crop, compared with March 1, 1924, stocks of 447,366,000 bushels or 34.3 per cent of the 1923 crop; the 10-year average being 36.7 per cent. About 37.6 percent of the crop will be shipped out of the counties where grown, compared with 24.7 per cent of the 1923 crop and 25.0 per cent of the 1922 crop so shipped; the 10-year average being 27.6 per cent.

The amount of barley on farms March 1, 1925, was about 42,127,000 bushels or 33.0 per cent of the 1924 crop, compared with March 1, 1924, stocks of 44,929,000 bushels or 27.7 per cent of the 1923 crop, and March 1, 1923, stocks of 42,469,000 bushels or 23.3 per cent of the 1922 crop; the 10-year average being 24.9 per cent. About 35.9 per cent of the crop will be shipped out of the counties where grown, compared with 34.5 per cent of the 1923 crop and 36.6 per cent of the 1922 crop so shipped; the 10-year average being 35.8 percent.

The amount of Hay (all) on Farms, March 1, 1925, was about 57,386,000 tons or 3.2 per cent of the 1924 crop, compared with March 1, 1924, stocks of 35,455,000 tons or 3.1 per cent of the 1923 crop, and March 1, 1923, stocks of 36,610,000 tons or 7.7 per cent of the 1922 crop. About 14.0 per cent of the crop will be shipped out of the counties where grown, compared with 13.1 per cent of the 1923 crop and 13.7 per cent of the 1922 crop so shipped.

Oregon grain crops of 1925 shipped out of the county where grown are estimated as follows: Corn, none; wheat, 50.9 per cent; oats, 30.0 per cent; barley, 23.0 per cent. Of the 1923 crop there were shipped out: Corn, 10 per cent; wheat 65.0 per cent; oats, 27.0 per cent; barley, 23.0 per cent. The 10-year average is: Corn, 1.0 per cent; wheat, 62.0 per cent; oats, 29.0 per cent; barley, 21.0 per cent.

It's a habit of some people to order a loaf of bread regardless of the kind or quality. Try a loaf of GRIMM BROS. MILK BREAD and note the difference. Phone 123.

Inquiries Received—

The county health unit is in receipt of several inquiries from persons desiring to locate in this county. One received today is from a family expecting to move here soon for the benefit of the man's health. He is a veteran of the world war who sustained injuries from which he is now recovering, and who expects to find this climate beneficial. Inquiry is being made regarding the community best suited to his particular case.

Have you something to sell to trade, or give away. Use News-Review columns.
