

PAR on April 2
COPCO 7% Preferred Capital Stock
advances to \$100 a share

Seven months ago The California Oregon Power Company made a public offering of 10,000 shares (\$1,000,000.00) of 7% Preferred Capital Stock for subscription by its customers and friends in the territory it serves.

Today, only half of the entire offering remains unsold.

Approximately 5,000 shares have been purchased direct from the Company at the price which has heretofore prevailed—\$98.00 per share, with convenient terms at \$5.00 per share per month if desired, and with interest at 6% allowed on all installments paid.

Increased Value for Investors

Prevailing market conditions, the country-wide demand for good hydro-electric securities, and the approaching completion of the Company's new developments, which will materially increase the net earnings, now justify this increase in price of the Preferred Capital Stock.

Announcement of the advance of \$2.00 per share on April 2, 1925, is published at this time for the advantage of stockholders and prospective purchasers.

Is Candidate

Otto Braun, former Minister President of Prussia, has been named as candidate on the Socialist Party for President of Germany. Braun's nomination is said to have split the ranks of the coalition element in the Reichstag, and his candidacy is regarded by some as the means of aiding the reactionaries' chances of election, for disunion has broken out among the Socialist-Republican forces.
