
Remember This:
GENERAL Gasoline assures you Easy Starting, Clean Combustion, Maximum Power, Full Mileage!

"PLANNED" and "BALANCED" Mean Much to *you!*

"PLANNED," in connection with gasoline, refers to the fact that GENERAL Gasoline, the super-fuel thousands of motorists prefer, is made according to a definite plan solely for use in automobile engines on the Pacific Coast.

"Balanced," in connection with gasoline, refers to the fact that GENERAL Gasoline, which is refined by the most modern, most efficient method known to the industry, contains just the right proportions of quick-exploding elements, medium and heavier elements to insure fast, easy starting, immediate pick-up and unlimited power.

GENERAL—planned and balanced—by bringing motorists of this territory a new scale of fuel values has made gasoline history. If you haven't tried GENERAL you do not yet know what gasoline can be.

TORNADO DEAD DUG FROM DEBRIS

(Continued from page 1.)

ris and I ran over and flagged the freight."

Disaster Appalling

CARBONDALE, Ill., Mar. 20.—Full realization of the appalling disaster which befell the circuit of small cities and towns within a radius of 25 miles of this city dawned today when, after another night of toil in darkness to recover the injured and dead, recapitulation of the disaster of Wednesday's tornado showed the number of dead climbing steadily above the 500 mark, with between 2,000 and 3,000 injured and property loss at $6,000,000.

Relief measures were well under way and further increments in strength of personnel, housing facilities for the estimated 8,000 homeless, foodstuffs and medicines and private sources.

Plans for funerals had not been announced today in any of the stricken cities today, but it was believed that with a measure of order being restored from the chaos which prevailed after the tornado struck, arrangements would be made for interring most of the hundreds of victims by the end of the week. But few bodies remained unidentified today and it will not be necessary to hold any appreciable number of them for identification.

Possibly two score bodies were so badly marred as to prevent recognition and it is explained that these will be buried with joint services.

Several entire families were wiped out and indications were they would be laid to rest with a single ceremony.

Visitors and sightseers by the carload invaded the tornado district yesterday and today and in places practically blocked traffic for hours.

Murphysboro, West Frankfort and Gorham continued to be the scenes of greatest suffering as well as the greatest loss of life although the little town of De Soto virtually obliterated, had a higher percentage of casualties.

Many Wind Freaks

WEST FRANKFORT, Ill., Mar. 20.—Many wind freaks were reported in Wednesday's tornado. Murphysboro tax receipts of Wednesday's date were picked up at Fairfield, 50 miles northeast.

A barber chair found in a field near here was a mystery, as no barber shop was known to have been in the stricken west Frankfort area. Presumably the chair had been transported through the air from some other town.

A frame building of the West Frankfort water plant was left standing untouched while large trees on all sides were snapped off or torn up by the roots.

Hundreds of automobiles here had their tops blown off, were hurled upside down, or virtually demolished.

Most of a tin can dump was picked up from one side of the West Frankfort-Benton highway and transferred to the other side.

A grove of trees near here reminded observers of the family wash day because of the articles of clothing stretched on the limbs.

Had a Narrow Escape

DE SOTO, Ill., Mar. 20.—Jesse Pankey or Harco, who was returning to his home from St. Louis with his wife and two small children in an automobile when Wednesday's tornado approached, today related his attempt to seek shelter and described a fantasy of the winds. He swung into a garage to escape, Pankey said, and as he stepped from the automobile, the roof of the garage was whirled away. Next he asserted, his car was tossed into the air and carried off with his wife and children in it. He also was lifted and blown five blocks, alighting uninjured on the Illinois Central railroad tracks. His wife and children later were found in a ploughed field and they added that the last time he saw his automobile it was still sailing through the clouds.

Relief For Suffering

WASHINGTON, Mar. 20.—Relief machinery of the American Red Cross was in full motion today in behalf of the thousands of injured and homeless in the tornado wrecked section of the middle west, with national headquarters here speeding every facility of its growing force of relief workers in the field. It stood ready also to carry out its offer of aid for the engineers of the fire at Tokio and flood at Trujillo, Peru.

A party of trained disaster workers mobilized at Red Cross headquarters yesterday were due to arrive in Princeton, Ind., today to aid in rehabilitating the homeless and give all other assistance possible.

90 Dead at Gorham

CAIRO, Ill., Mar. 20.—Ninety dead is the latest estimate of the casualties in and around Gorham by Wednesday's tornado, according to a message received by J. E. Luby, local agent of the Missouri-Pacific. The school building was destroyed and the message intimated that many of the dead were pupils.

The town has been leveled and a tent city has been established to care for the many injured.

Presents Funeral Aspects

MURPHYSBORO, Ill., Mar. 20.—Southern Illinois presented a funeral aspect today.

With the cessation of first frenzied efforts to relieve the suffering, to count the dead and to estimate damage yesterday, that followed the most disastrous tornado recorded in this section, organized relief work went forward quietly. West Frankfort's loss of life numbers approximately 125 dead with about 80 identified.

Benton, McLeansboro, Logan, Parrish, Murphysboro and De Soto today shared a common sorrow, each having suffered heavy losses in the ranks of its citizens.

De Soto, perhaps, sustained the most tragic loss, it being estimated that one-third of its dead were children under three years of age.

Seven persons were killed, sixty more or less seriously injured, eight unaccounted for and 150 made homeless in Bush, Ill.

The tale of the heroic work of rescue was only begun.

Visitors and relief workers from the outside world gazed upon a scene of appalling destruction at Murphysboro. Virtually the entire northern section of the town, the industrial center and the western section, the best residential district, lay in ruins.

The banks of the Big Muddy river are littered with debris. The streets of the city are crowded with homeless people. Plans for burial of the dead were being completed.

Many Messages Received

CAIRO, Ill., Mar. 20.—The local Western Union office today had on file about 20,000 messages addressed to persons in the storm ridden coal region, but facilities were inadequate to handle the telegrams and it was decided to send messengers into the storm area to deliver these messages personally. Many of them were outsiders inquiring about their relatives living in the towns that suffered worst from the storm.

Serum Dispatched

INDIANAPOLIS, Mar. 20.—Anti-tetanus serum—750 tubes, all that was available here—was sent to storm torn Southern Illinois early today in an airplane in command of two army officers of Fort Benjamin Harrison. Red Cross officers at Carbondale and Murphysboro, Ill., and other hamlets, in appeals to the local organization, requested that serum be sent quickly.

Known Dead List Grows

MURPHYSBORO, Mar. 20.—The list of known dead here has climbed to 175, it was announced by authorities. The injured are placed at more than 400.

The list of known dead in Franklin county today mounted to 151 of this number 110 were dead at West Frankfort and 41 at Parrish and vicinity. Latest unofficial estimates placed the number of injured in Franklin county at 400 with 300 at West Frankfort and 100 at Parrish and vicinity.

Missouri Dead 15

ANNAPOLIS, Mo., Mar. 20.—A recapitulation of the loss of life in Missouri as a result of Wednesday's storm show only 15 persons dead. Perryville and Biehle and vicinity head the list with six each with two dead at Annapolis and one at Altonburg.

Searching For Bodies

INDIANAPOLIS, Ind., Mar. 20.—Rescue workers continued today in their search of the ruins in the storm torn sections of Southern Indiana for bodies of victims reported to have perished in the tornado of Wednesday which took a toll of more than 100 lives there.

Forty-one bodies have been recovered at Griffin, Ind., where from 25 to 50 persons are said to have been killed while at Princeton where 20 are known to have perished, all of the bodies have been recovered as were the bodies of twenty known victims at Owensville. Three were killed at Elizabeth and their bodies recovered. The tornado brought injuries to more than five hundred persons.

In Princeton near here, 300 homes were devastated and 300 others partially wrecked. It was said the damage would be $2,000,000 while at Griffin, where every building was laid waste and no inhabitant escaped unscathed, the property loss was estimated at between $1,000,000 to $2,000,000. Seventy-five houses were wrecked at Owensville, and the property damage will exceed a million dollars.

10 Dead in Missouri.

BIEHLE, Mo., March 20.—Ten persons were known to be dead today in Southeastern Missouri as a result of Wednesday's tornado. The storm did not strike Perryville where six persons were reported dead yesterday. The dead listed in four little hamlets:

Biehle, Schumer Springs, Lixville and Fronah, the injured number more than 50.

Kentucky Buries Dead

LOUISVILLE, Ky., Mar. 20.—Kentucky with a tornado casualty list of 18 dead and 131 injured, today faced the task of burying and holding final rites over the dead.

No estimates of the damage caused by Wednesday's storm was available although unverified predictions placed the total near the $300,000 mark.

That the wind was of power and of enormous lifting force was evidenced by Louisville's outlying districts when pieces of broken furniture were found scattered upon the ground, carried over into Kentucky across the mile wide Ohio river from Indiana.

Red Cross Working

DUQUOIN, Ill., Mar. 20.—Amid the confusion and pitiful sights wrought by Wednesday's tornado there shone today one bright ray of encouragement, the fruit of the incessant work of the Red Cross which established temporary headquarters here, principally to take care of the refugees from De Soto. Clothing, food, bed clothing and cots have been supplied the needy. Those who escaped the storm were cared for in private homes and in public buildings.

CHICAGO, Mar. 20.—E. W. Creighton, farm bureau adviser for White county, Ill., telegraphed to the Illinois agricultural association today that 47 persons have been killed in the rural sections of this county, eight school houses were demolished and there is a great loss in livestock.

Red Cross Makes Appeal

SAN FRANCISCO, Mar. 20.—The headquarters of the Pacific division of the American Red Cross here received a telegram today from national headquarters in Washington, saying that no public appeal for funds is being made by the Red Cross, but that voluntary subscriptions will be received. These subscriptions will be forwarded to the headquarters in St. Louis.

Copies of the telegram were sent from here to all Red Cross chapters in the western states and in Alaska.

Masonic Lodges Aid

BENTON, Ill., Mar. 20.—Grand Master R. C. Davenport, head of the Illonois Masonic lodges, was in Benton yesterday and headed a committee that visited the storm-swept area making a survey to be used in a drive for funds which they will use in rehabilitation work. After the survey Mr. Davenport authorized the statement that the Masons of Illinois would raise a fund of $100,000 for this work.

At Princeton, Ind.: Mrs. Hobart Reed.

At Owensville, In.: L. C. Jordan and two small sons, Mrs. Brady Johnson, Roy Oller, Paul Stoneberger, Helen Harris, Ethel Grubbs, Harry Van Way, Walter Kern, Mrs. Flo Kokomoor, Mary L.
