Automobile Owners
One of the most valuable kinds of insurance you can carry is Public Liability Insurance. This form of insurance protects you from financial loss in the event that your auto injures someone and there is a claim against you for damages. We also write all other lines of automobile, fire and accident insurance.

WHO WILL PAY?
If your automobile hits a pedestrian and he sues you for damages? If your car collides with another automobile? Public liability and property damage insurance will protect you. And the cost is small. We will be glad to explain these automobile coverages.
