SCIENTIFIC GOVERNMENT GUARANTEES LIBERTY

The Honorable Martin W. Littleton, in a recent address in New York City took no middle ground in his arraignment of radicalism which seeks to undermine the stability of our government and the freedom of the American people through political control and operation of industry and business.

"It doesn't make any difference, my friends, whoever these people were and are, whether they be Socialists, Communists, Opportunists or persons of expediency, the doctrine of revolution inheres in and clings to all civilization. It may be on one occasion the Socialist preaching his doctrine of solidarity of human activity into a static society; it may be the Communist, wanting his ruthless dynasty of power to go unchecked; it may be the sanguinary Soviet in his true name, compounded of these elements, if you please, who by profession is a Socialist, by practice a Communist, and by occupation a gunman.

"Scientific government was created as an agency to secure liberty for the man himself and the woman. We hold these truths to be self-evident, that all men are created equal and endowed by their creator with certain inalienable rights, amongst which are life, liberty and the pursuit of happiness; that to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed."

"The only reason for the existence of a government is to furnish sufficient authority to preserve order and an amount of liberty, which falls short of license.

"Government, with its agencies and its minions, and its authorities, treading on your heels wherever you go, crossing your threshold, invading your home, reaching into the nurseries of your children—government! And what is this thing called government?"

"Government is mine and yours to do with as in our judgment and our intelligence we think it should do, always mindful of the individual. Any government that invades the secret domain of individualism is a government which does not belong to a period of American liberty. This government was erected to protect life, of the civilization of this age and era and belongs to another age and another era."

This nation spends millions in punishing crime, but very little preventing it. Imagine, a quarter of a million of our boys and girls sacrificed to crime annually. An ounce of prevention is worth more than a pound of cure. It is beginning to look as if this old country had better take on a sort of revised program to cure some of the prevailing ills affecting its people generally.

Direct by mail advertising, according to authorities who have given this system attention, is less than thirty per cent efficient. This is one reason why those who use the method only get a "look in" at the regular run of legitimate trade in the community.

The days of '49 having passed into history we can now prepare for Roseburg's annual strawberry festival. And, it's not too early to get on the job.

PRUNE PICKIN'S
BY BERT G. BATES
GOOD EVENING FOLKS—
A reformer declares
That girls who wear
Knee-high skirts
And use the weed
Can never
Look dignified—
But who ever heard
Of a flapper
Wantin' to look
Dignified so long
As she looks
Attractive to
The men.

DUMBLETT DORA THINKS
The ban on spoonin' along the river doesn't keep a boat from huggin' the shore.

Saw a drugstore cowboy the other day who said he met a dame who gave a regular Chesterfield kiss. Mild yet they satisfy.

When a young feller finds out that he can part his hair in the middle he usually goes to the dogs.

The Days of '49 are over, thank heavens, which proves that two rollin' bones gather a lotta gravy.

Some of the highbrow musicians play classical music because the mistakes aren't so noticeable.

WITH DUE APOLOGIES.
The hours I've toiled over thee, dear verse,
Have almost made a wreck of me;
And every time I try, thou gets a little worse—
Bum poetry! Bum poetry!

We've read a whole lot about eugenicists but when we see a pretty little baby who has a dog-faced father and a hatchet-faced mother, the argument seems useless.

Sharpen your knives boys, there's a lotta whittlin' to be done since the new awnin' posts are put up.

The boss has returned from his vacation and now we're all workin' agin.

A burglar entered four local stores Saturday night and failed to leave his address.

The damsels are eyin' each other with suspicion this time of the year, each expectin' that the other will have a hat just like hers.

TWO-COUNT 'EM—TWO
When the average man goes to a banquet he experiences two separate and distinct emotions. First, he has a great dread that he will be called upon to speak, and when he isn't he feels that he has been mistreated.

Some women will never be happy, even in heaven, if the woman next door happens to have a nicer pair of wings.

One of the main drawbacks to having a new fangled disease, is that it is so hard to pronounce the name when boasting of it.

CHICAGO, March 30.—The axe fell in the White Sox training camp at Shreveport, La., yesterday, along with another rain which prevented a game between the Sox and the Gassers.

The release of Stoengrafe and Foreman reduces the pitching staff to eleven. At least two more will have to go and possibly three, but it is not regarded as probable the staff will be reduced to eight men before May 15.

Rain also got in its work on the coast and prevented a game between the Cubs and the Angels at Los Angeles. "Rabbit" Maranville and Leaver Grigby were left behind, the former to keep the latter company and to have the cast on his injured ankle renewed every three days.

Your family physician will advise you to get your children have all the shots they want. GRIMM BROS. MILK BREAD, Phone 133.
