COOLIDGE IS NOT SPHINX SAYS SECTY.

(Associated Press Leased Wire.)

ATLANTIC CITY, N. J., Mar. 30.—President Coolidge is really quite a talker and not nearly so taciturn as is generally believed, said Edward T. Clark, secretary to the president, on a visit here last night.

"When in the company of one who can give him information that he needs, the president assumes the lead and permits his visitor little opportunity to talk except to answer questions," explained Mr. Clark. "When he finds the occasion, he shows that speech is no stranger to him. However, it is when he meets people who have no particular message that he earns the reputation of silence. He is no parlor conversationalist."

"He has learned to engage in wholesale handshaking without suffering physical tortures that, for instance, the Prince of Wales did," continued Mr. Clark.

"There is a secret in the art that is to grasp the other fellow's hand before he has a chance to get yours. In other words, it is better to squeeze than to be squeezed."

COUPLE SENTENCED FOR MANSLAUGHTER

(Associated Press Leased Wire.)

CHATTANOOGA, Tenn., Mar. 30.—Mr. and Mrs. W. H. Bennett early today heard a jury declare that they were guilty of voluntary manslaughter and should be confined in the state penitentiary for 10 years. The defendants had been on trial for six days on a charge of murdering Miss Augusta Hoffman, aged aunt of Bennett, in 1915. Notice of a motion for a new trial was filed.

The sentence fixed by the jury was the maximum under the manslaughter conviction.

NOTICE is hereby given that the undersigned will, up to 7:30 o'clock P. M. of April 14, 1925, receive at his office in the City of Roseburg, Douglas County, Oregon, sealed bids for the purchase of negotiable serial coupon bonds of School District No. 4 in Douglas County, Oregon, in the sum of \$165,000.00. Said bonds will be in denominations of \$1,000.00 each, dated May 1, 1925, and maturing as follows: 6 bonds to mature May 1, 1926; 6 bonds to mature annually on May 1st of each and every year thereafter including May 1, 1933; 11 bonds to mature annually on May 1st of each and every year thereafter including May 1st, 1940; 10 bonds to mature annually on May 1st of each and every year thereafter including May 1, 1944. Said bonds will draw five per cent interest, payable semi-annually on November 1st and May 1st, and the principal and interest shall be payable in lawful money of the United States of America at the office of the treasurer of Douglas County, Oregon, or at the Fiscal Agency of the State of Oregon in the city and state of New York at the option of the purchaser.

All bids must be accompanied by a certified check payable to School District No. 4 of Douglas County, Oregon, in an amount equal to five per cent of the amount of said bid to be forfeited to the School District in case the successful bidder shall fail to complete the purchase of said bonds in accordance with the terms of his bid. Said bids shall be opened at a public meeting of the school board of said District to be held in the school board room in the high school in said district on the 14th day of April, 1925, at 7:30 o'clock P. M. and the bonds shall be sold by the board to the highest and best bidder but for not less than par and accrued interest. The board reserves the right to reject any and all bids and to re-advertise the sale of said bonds.

By order of the board of directors of School District No. 4, of Douglas County, Oregon,
V. J. MICELLI,
District Clerk.

BIG MILL FOR SUTHERLIN

C. A. Joslyn of Portland, who purchased five hundred acres of timber of Balfour, Guthrie & Co., southeast of town about a year ago, was here last week looking over his holdings with a view of enlarging the small mill now on the property to a mill of 50,000 feet daily capacity. Mr. Joslyn has made extensive improvements on the mill since he purchased the property by increasing the size of the building and adding a planer and other machinery. He now proposes to put in larger boilers and engine with a view of increasing the capacity of the mill from 30,000 to 50,000 feet daily capacity. When in operation he expects to employ about fifty men.—Sutherland Sun.

LABOR LEADER DEFIES THE SOVIET

(Associated Press Leased Wire.)

BOSTON, Mar. 30.—The American Federation of Labor "defies" the Soviet system of government and the Russian communist regime, Matthew Wolf, vice-president of the federation declared at a stormy meeting in a public forum here last night. Radical supporters in the audience greeted his denunciation of the Russian government with cries of "war" but the director of the forum restored order.

Mr. Wolf declared that the American Federation of Labor stood for "the voluntary co-operative system of bringing about the just aims of labor," and would not tolerate what he called the compulsory co-operative system of communists, capitalists and syndicalists. He asserted that the communists in Russia were in the minority and did not represent the Russian people as a nation.

Tip For Beginners.

Solve this puzzle by comparing the synonyms listed in the columns with the number of spaces extending crosswise or downward on the diagram, as the case may be. If a word occurs to you meaning substantially the same as the synonym and the correct number of letters to fit in the spaces between its number and the first shaded spot following, write it in lightly. Work away the small words, the "easy" words, first, and they will give you plenty of clues to the difficult ones.

RADIO ANTENNA IS LAID UNDERGROUND

(Associated Press Leased Wire.)

WASHINGTON, Mar. 30.—Announcement that he had succeeded in reaching the Pacific Coast with radio signals from the underground transmitting set with which he has been experimenting for several years, was made here last night by Dr. James H. Rogers. His efforts to obtain reception of the waves from his underground station at Hyattsville, Md., near here, on the coast, after previously reaching points as far distant as New Mexico, were crowned with success last night, Dr. Rogers said, when he received a telegram from an amateur signal station operator at Los Angeles saying the signals were "coming in fine."

The underground antennae used in the tests in conjunction with a set of 350 watt tubes, consists of four cables, laid three feet underground and centering from different directions as the spokes of a wheel. Dr. Rogers said he hoped to accomplish trans-oceanic broadcasting with a six hundred foot cable antennae he intends to lay. He contends the earth crust is a more efficient medium for transmitting radio waves than the air.
