MARSH MOTOR CO. SHOWS NEW MODELS

Because of the fact that only open cars were on display to the hundreds of thousands who viewed the new Chevrolet at the various dealers' show rooms throughout the country early in February, it has been decided to make a special display of the new closed models locally, beginning the week of April 1 in this city by the Ed. Marsh Motor Co.

Particular interest is attached to this display of closed models, due to the decided public preference for the closed car, as attested by the fact that schedules of production for the current year call for more than 50 per cent in this body style, for the first time in the history of the industry.

The bodies of the three closed cars in the Chevrolet line—the coach, coupe and sedan—are built by Fisher and have the rounded curves and graceful lines that have come to be associated with all the products of this company. They have the "VV" one-piece windshield, with regulator located above the windshield and automatic windshield wiper controlled from the dash.

The closed cars, like all the body types, are equipped with cow lights and new instrument board, refined and designed for maximum leg room.

All bodies are finished in Duco, the new and lustrous finish which is practically impervious to damage, and all bodies are finished in color other than black.

The coupe is finished with lower panels and hood in sage green, upper panels and fenders in black. The coach is finished in a rich, dark blue with fenders in black—special artillery wheels and balloon tires. The sedan is finished in aqua marine blue on the lower panels and hood and a deep black on the fenders and upper panels. Both the coupe and sedan are equipped with balloon tires and disc wheels.

There is a dome light in coach and sedan and robe rail in sedan.

These models have all the new mechanical features of the new line—new, improved dry-plate disc clutch, semi-elliptic springs and entirely new, strong rear axle with hand-type pressed steel housing. The new and heavier channel steel frame, 38 inches longer, with five sturdy cross-members gives the chassis a rugged construction indicative of the longer life being built into the car.

YOUNG WOOD MAY REGAIN FORTUNE

(Associated Press Leased Wire.)

TAMPA, Fla., April 1.—Osborn Wood, today was back home with a greater part of the fortune, he was said to be possessed when he was back in that coast country in the world in which to make money, ready to have another whirl at the Wall Street of fortune which brought him some time ago a sum variously estimated at around a million dollars.

The million dollars have vanished now admittedly into the coffers of the gambling resorts which dot sections of continental Europe. "But I still have plenty," Wood told newspaper men upon arriving yesterday from Spain aboard the federal shipping board steamship West Chetac. His present plans were indefinite early today, but he intimated he might leave Tampa today, possibly for California. Although Wood declared his prodigality

had heavily drained his resources, he emphatically denied reports that he had given worthless checks and said his attorneys in Paris had filed libel suits against a European branch of a Chicago newspaper for having published a story to the effect that a check of his had been returned.

His only regret over the unpassing notoriety occasioned by his European adventures, Wood said, was that it might reflect upon his father, Major-General Leonard Wood, governor-general of the Philippines.

"He is the finest chap in the world," the son said, "and is closer to me than all of my friends."

OPERATING INCOME SHOWS AN INCREASE

(Associated Press Leased Wire.)

SEATTLE, Apr. 1.—The operating income of the Portland Electric Power company for 1924, according to the annual statement filed with the public service commission was \$3,379,449.53, an increase of \$156,658.02 over last year. Operating revenues were \$10,555,294.12, an increase of \$36,990.15 over the previous year, and operating expenses were \$6,175,844.59, an increase of \$99,557.51.

The report of the Puget Sound Power and Light company shows the following statistics: Operating revenue, \$8,599,266.01, an increase of \$1,654,296.37; operating expenses, \$3,887,951.74, an increase of \$1,015,186.18; taxes assignable to operations, \$740,147.36, an increase of \$165,356.97; uncollectible operating revenue, \$36,541.76, an increase of \$11,072.53; operating income \$3,934,625.15, an increase of \$462,641.53.

The California-Oregon Power company shows the following report: Operating revenue, \$1,687,512.89, an increase of \$324,103.63; operating income \$3,934,625.15, an increase of \$53,372.53; taxes assignable to operations, \$305,972.06; uncollectible operating revenue, \$13,109.50; operating income \$730,976.77; an increase of \$200,412.70.

DIVORCE SOUGHT

Flora Gline today brought suit in the circuit court against Le Roy Gline for divorce, charging cruel and inhuman treatment. The couple were married at Payette, Idaho, on Oct. 2, 1924. The plaintiff is represented by Attorney John T. Long.

TRUCK MAKERS PLAN A BOOM

During 1924 the Chevrolet Motor Company was the third largest truck manufacturing concern in the world, being surpassed in number of trucks sold by only two other automobile companies. Plans are now being formulated which, it is expected, will greatly increase truck sales during the present year and may place Chevrolet in second position for 1925. "There were nearly 24,000 Chevrolet trucks sold last year," says Ed Marsh, head of the Marsh Motor Co., of this city. "These included both the commercial chassis and the utility express types, the greater portion sold, however, being the latter style." "An analysis of the 1924 sales, shows that farmers, dairymen, stock raisers, oil dealers and urban business requiring medium weight delivery cars were among the larger buyers of the utility express. A considerable number also were used for school buses. "The utility express has the regular Chevrolet valve-in-head motor, but is constructed heavier at various points to conform to the requirements of a speedy, easily operated truck of one-ton capacity.

FASTER TRAIN STARTS SERVICE

(Associated Press Leased Wire.) SEATTLE, April 1.—The Union Pacific, Northern Pacific and Great Northern railroad, carrying out a plan approved by the Interstate Commerce commission started joint operation of passenger trains today by Portland and Seattle. The schedule provides one train each way daily that makes the run of approximately 150 miles in five hours and fifteen minutes. Only five stops are

to be made. The first train, which stops only at Tacoma, Centralia, Chehalis, Kelso and Vancouver leaves Portland and Seattle at the same time each day. This time is 4:30 in the afternoon to permit a journey and a night in a hotel between two business days, one in each city. The best time on the schedule in effect prior to today was six hours and 40 minutes. The new schedule provides five trains daily each way between the two cities, besides a local each way between Centralia and Portland. The new arrangement was said here to be the first instance of approval of pooling of local passenger business by competing roads.

EASTER HATS

We have a special lot of dandy women's trimmed hats at \$2.50. Over 50 hats in the lot—really classy numbers. Carr's. Also an extra good line at \$5.00 and \$6.00. Or make your own, we have shapes, materials for covering, trimmings, linings, etc. Also straw shapes at \$1.00. See the big line at Carr's.

CURRENCY THEFT IS LAID TO TWO

(Associated Press Leased Wire.) BUFFALO, April 1.—August Lehmann, a car cleaner and Herman Reis, alias Rico, alias Chuck Connors, are in custody in connection with the loss from the mails of \$150,000 in currency, February 27. Lehmann said he found a pouch containing \$120,999 in ten dollar bills, consigned to the Federal Reserve Bank of Detroit, from Washington, under a pile of empty mail sacks in the corner of a car, which was sent to be cleaned in the yards here where he worked. Postal inspectors said the pouch apparently had been lost in the transfer of the car. Lehmann took the money home, keeping it there until stories appeared in the newspapers about the robbery and then hid it in a garage. There the authorities last night found \$115,000, the other \$35,000 Lehmann had lost in gambling, he said, or otherwise disposed of with the aid of Reis.

84 PERISH IN GERMAN DISASTER

(Associated Press Leased Wire.) BERLIN, April 1.—It is believed that 84 soldiers perished in yesterday's disaster to a Reichswehr contingent on the Weser. The ministry of defense states today that five bodies had been recovered that one officer and 78 men of the 100 soldiers to have been plunged into the river by the sinking of the pontoon were missing. There is little hope that any of the missing are still alive. The ministry statement recites that 150 soldiers were crammed onto the last of the five pontoon ferries which was only intended to carry 100 men. It was this pontoon which sank.
