Mrs. Gervais will entertain the kiddies; you will want to hear her. H. E. MOW.

Our Task—

There is much loose talk of cutting out certain steps in distribution. "Wipe out the middle man," is an old cry. Men who make this suggestion overlook the fact that more than three-fifths of the population live east of the Mississippi river, and that three-fifths of the agricultural production occurs west of the same river. The mere physical movement of this food requires the services of a vast number of people and much equipment, and food products are produced during a very brief period of the year and consumed throughout the entire year.

To serve you, to gather together from all parts of the world, to distribute the food stuff you consume, that is our task.

CONCESSIONS FOR CARNIVAL WILL BE ASKED OF COUNCIL

Plans for the annual strawberry carnival to be held the latter part of May are maturing rapidly, according to W. B. Day, chairman, of the general committee. The tentative outline has already been formed, and on Monday night he expects to appear before the council with a request that the committee be granted the usual rights to all concessions and to present to the council the committee's contract with the carnival company which it is expected will provide the amusement devices for the event. In past years the council has assumed a censorship over the carnival companies, prohibiting games of chance and features of which they did not approve, and consequently the committee is laying its contract before the council prior to definitely signing for the concessions.

The company which it is proposed to bring here this year has given the committee a very satisfactory contract. One provision states that if the committee, the council, or any authorized or interested person can find any amusement, or concession which is in any way objectionable, that it will be immediately discontinued. Although the company operates several stands, the games are of skill and not of chance, it is stated.

The company gives particular attention to the kiddies, and for each of its big rides, the merry-go-round, ferris wheel, seaplane, etc., it has a small one equipped with complete safety devices, for the youngsters. A playground is also maintained for them.

SALVATION ARMY CAMPAIGN DATES TO BE APRIL 20-25

Captain O. P. Strickland, campaign director, and Adjutant Fred Anderson, local Salvation Army corps officer, appeared before the executive committee of the Chamber of Commerce yesterday and made a report on the relief work during the fiscal year.

At the 1924 Christmas season the Salvation Army distributed Christmas baskets to 99 families, including 540 persons, 340 children were given clothing toys and candy in Christmas boxes, and dinner was furnished to 50 homeless men. In all 930 people were given Christmas cheer through the work of the local unit.

Among other relief work the Salvation Army distributed groceries to 35 families during the year, gave meals, beds, clothing and shoes to 750 persons and medical aid to 12 persons, and found employment for 30, making a total of 827 persons given relief.

According to present arrangements, the date for the financial campaign, planned to finance the local unit until the community chest is made up in the fall, will be April 20 to 25, at which time every one will be asked to contribute at least a small amount to help the corps in carrying on during the summer season.

The Salvation Army holds a very warm spot in the hearts of many people, and it is expected that this kindly feeling will be shown by generous contributions.

The Chamber of Commerce has endorsed the campaign for funds, and the quota of $1,650 which it is estimated will be needed.

HOME PHONE CO. RAISES ITS RATES

(Associated Press Leased Wire)

SALEM, Ore., April 3—The Home Telephone & Telegraph company of Southern Oregon, with offices at Medford, yesterday applied to the public service commission for authority to increase its service rates approximately 25 cents. The commission claims that the return on its investment last year was less than 1 percent.

"The value of the property," says the application, "as shown by the books of the company on December 31, 1924, was $514,795, against which there were outstanding first mortgage bonds in the amount of $200,000, which bonds bear interest at the rate of 6 per cent per annum. There were also outstanding six percent notes in the amount of $40,775 and $330 shares of common stock valued at $249,000.

"During the year 1924 a physical inventory was taken of this property and an appraisal has now been completed. This shows the value of the property as of January 1, 1924, at $412,503.90, and the additions and betterments to January 1, 1925, give a value of $415,-760.96.

"The rate of return on the appraised value, as indicated above, for the year 1924 was .965 per cent, and had the proposed schedule of rates been in effect for the same period the rate of return would have been 4.726 per cent or less than 5 percent interest on the investment.

ATTENTION SHRINERS

The Message of Thousands of Women

Seattle, Wash.—"I think Dr Pierce's Favorite Prescription is a splendid aid to prospective mothers. I was advised to take it during my first expectancy and I got so much help from it, in added physical strength and restfulness to the nerves, that I have always used it during each expectant period. I was able to continue my house-work right up to the last day and had practically no suffering. It would not be right for me to not tell of the benefit I have derived from the 'Favorite Prescription' for the sake of other women.

"Mothers and prospective mothers, Dr. Pierce's Favorite Prescription is a great friend to women!—Mrs. B. A. Rymus, 509 23rd Ave. South. Start at once with this "Prescription" and see how quickly you pick up—feel stronger and better. Write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free advice or send 10c for trial pkg. tablets.

Chicken dinner served Sunday, April 5, from 5 to 7 p. m., at the Orange Lantern tea room.

Old Ram Discovered Youth Will Be Served

Not long ago the Companion printed a story by Mr. C. A. Stephens entitled "Cephas Tyrannus." The story reminded the reader of an experience that a cousin of his had with a ram that must certainly have been an offspring of old Cephas. The ram was past middle age, was large and heavy and had a wicked set of horns that he used at every opportunity. He became so dangerous that he finally had to be confined by himself in a small enclosure.

My cousin, writes our correspondent, had obtained a younger and smaller ram for breeding purposes, and the sight of the newcomer filled the old ram with deepest hatred. He was never able to get at him, though he often put the enclosure to a severe test when the young ram would come in sight.

The end of the jealousy came suddenly one day when the gate of his pen was inadvertently left open. The old ram gave one angry blat and tore through the opening, making for his enemy, who was feeding with the ewes about 200 yards away. At the snort of defiance the entire herd looked up, and the ewes took to their heels. Not so their new lord, however. He stood his ground, braced all four feet and lowered his head to meet the oncoming rush. As the two collided there was a crash that was heard in the next field. The impact threw the old ram clear over the youngster's back, and like Cephas, when he landed some five feet to the rear, he lay quite still. Examination showed that his neck was broken. The young ram appeared dazed for a moment or two; then he liesurely trotted off to join the ewes at their new feeding place. —Youth's Companion.
