THREE TITLE BOUTS DUE IN NEW YORK

NEW YORK, Apr. 7.—Arrangements for three championship boxing bouts within the next three months in New York may be completed by promoters some time today.

Contracts for one of the matches have already been signed, and approval of the state athletic commission is expected today. This bout, barring unforeseen difficulties, will bring together Gene Tunney, American light heavyweight champion and Tom Gibbons at the Polo Grounds June 12.

A second title tangle which will require official traveling before its promotion will become possible involves the eligibility of Mickey Walker, world welterweight champion. Matchmaker Pugazy seeks a match between Walker and Harry Breeb, middleweight titleholder, at the Polo Grounds June 19, but Walker's suspension for his failure to box Dave Shade and the commission's order prohibiting promoters from negotiating with fighters under ban, are obstacles.

A third title tilt which has been in negotiation for several days has for principals Louis (Kid) Kaplan and Edouard Mascart, American and French featherweight champions, respectively. Matchmaker Flournoy of Madison Square Garden has been conferring with managers of the two men daily, and hopes to sufficiently work out details for presentation of the match to the commission for approval.

MOHON SCISM OVER DIVIDING AUTHORITY

INDEPENDENCE, Mo., April 7.—Delegates at the convention of the reorganized Church of Jesus Christ of Latter Day Saints resumed today an effort to heal a breach that threatens a division in the faith founded by Joseph Smith in 1822.

The convention, which is being held in the mother church, with Frederick M. Smith, a grandson of the father of the faith, presiding, is confronted with the demand of the minority for a decentralized form of church government. The other faction, of which Mr. Smith is the acknowledged head, is denying charges of "Urbahism," "tyranny," and "the iron hand of priestcraft." Benjamin R. McGuire, presiding Bishop of the Church, contends that the prophetic affairs should be independent of President Smith.

OPINIONS VARY ON SEGREGATION OF CRIME NEWS

DES MOINES, Ia., April 7.—Readers of the Des Moines Register, yesterday began an experiment in the handling of crime news stories on an inside section, much after the manner of sports and markets, expressed differing opinion on the value of the method in a symposium published in the paper this morning.

Chief of Police James B. Cavender, endorsing the experiment said: "That segregation of crime news is undoubtedly a forward step in overcoming the glorifying of crime by undeveloped minds."

An opposite view was expressed by a local circus man who said he "believed the publication of crime news is helpful." And that the "greatest correction of crime is the publicity given it by newspapers."

F. L. Osborne, a bond agent, favored the plan, "because he could clip the section before his children read the paper." Just so an attorney said he believed crime news, "overemphasized." Messages from editors including Bayard Swope, of the New York World, expressed interest in the experiment, which followed the passage of a resolution by the women's clubs of the city, asking elimination of front page crime stories.

Belief prevails that Barclay will surrender within a short time.

The various numbers were rendered with a spirit and flourish that was most engaging to the beholders. The directing and rehearsing by Mrs. T. S. Thompson had been so thorough and enthusiastic that the entertainment was not marred at any point by hesitation, stiffness or embarrassment.

SALEMITE DEMANDS STATE BANKING OFFICE RETURN
(Associated Press Leased Wire.)
SALEM, Ore., April 6.—The Capitol-Journal today made formal demand upon John H. Carson, district attorney for Marion county, to take mandamus action to compel the return of the main office of the state banking department to the state capitol in accordance with the law which requires that the department maintain its offices in Salem.

The demand is made by George Putnam, editor of the Journal as a taxpayer, and the mandamus sought is to be directed at Frank C. Bramwell, state bank examiner; the state banking board, and Secretary of State Kezer.

Recently the main office of the state banking department was removed to Portland on the excuse that it could be more economically conducted there and Mr. Kezer stated that it was probable that Mr. Bramwell would maintain "desk space" in the capitol to comply with the terms of the law. This, the Capitol-Journal contends, does not satisfy the provisions of either the present law regarding the location of the state banking department, or the revised banking code passed by the recent legislature, which permits the bank superintendent to maintain a branch office in Portland.
