OAKLAND, Cal., April 11.—A three-mile straight-away on the estuary here, was the scene selected for today's renewal of the annual Pacific Coast boat racing classic, the struggle between the Universities of Washington and California.

Washington, for two years winner of the national intercollegiate regatta at Poughkeepsie, N. Y., was the favorite, though shell experts generally looked for a closer finish than in recent years.

California was expected to have the best chance to defeat the tide holder since 1921, when that was last accomplished.

The best way to solve this cross-word puzzle is to run over the list of horizontal and vertical synonyms in search of evidence or "easy" words. If horizontal, the word you are looking for must extend crosswise from the number to the first shaded stop on the right; if vertical, it must extend downward from the number to the first shaded stop below. When finished, the words should read equally well crosswise and downward.
