KITCHEN CUPBOARD By NELLIE MAXWELL

Winter Foods WE ARE NOT limited in variety if vegetables even out of the growing season, for without the hot-house markets we have a large number from which to choose. Rutabagas are especially good at this season. Cook them thinly sliced until tender and use plenty of butter and a little cream with the salt and pepper to season. Squash is another vegetable which is so tasty when well seasoned. Seasoning the important thing in all foods and even more important in making vegetables palatable. Vegetable oysters are a most delicious vegetable to serve in a cream sauce or in a chowder with other vegetables, such as potatoes, onions and celery.

Pork Tongue With Peas—Wash a fresh pork tongue and cook in boiling salted water until tender. Skin and remove to a hot platter. Into the stock put a cup of peas—If the fresh are not in market—and cook until well done, thicken with flour mixed with a little sweet cream and pour the gravy and peas around the tongue. Serve with sweet spiced boiled beets.

Canned corn takes the place of fresh very well and the home dried when soaked and cooked is especially delicious.

Pork Chops—Place the chops in a heavy iron frying pan and add just enough water to cover the bottom of the pan. Let the chops par-boil, turning often until the water is evaporated, then they will begin to brown. Chops cooked in this manner are tender, well cooked and brown without becoming dry.

Carrot Pudding—Take one cupful each of grated carrot and potato mixed, one egg, one-half cupful of shortening and raisins, one teaspoonful of soda and one cupful of flour. Mix and steam in a mold one hour. Serve with a rich egg sauce.

Egg Sauce—Beat one egg until light, add a pinch of salt, one-half cupful of sugar, a sprig of nutmeg and a cupful of boiling hot cream just as it is to be served. When eggs are plentiful use two, and a little more sugar. (© 1925, Western Newspaper Union.)

GREAT NORTHERN HEAD SPEAKS OF OREGON PROGRAM PORTLAND, Ore., April 13.— Hope that the people of Oregon and the interstate commerce commission will approve the extension of his company's line from Bend to Klamath Falls was expressed by Ralph Budd, president of the Great Northern Railroad in a statement issued here today. He declared that the development of the Northwestern states, through which the Great Northern operates, will call for an ever increasing amount of Oregon lumber. He added that a northern outlet would prove of great benefit to the Klamath Falls country. The statement follows: "In 1909 James J. Hill started to build into Central Oregon. His policy then was, and the Great Northern policy since has been, that the railroad construction undertaken there should be along lines which would give the greatest amount of service from a given expenditure of capital. It was the intention in 1911, when the Oregon Trunk was completed to Bend, to continue south but circumstances over which the railroads had no control, stopped construction in that part of the state until recently. Now it is our belief that further construction is justified and having made the major part of the expenditure necessary in order to reach into Oregon, it is our hope that the people of Oregon and the interstate commerce commission will approve the extension of our line further. "The S. P. & S. and allied lines have cost \$100,000,000. The Oregon Trunk, S. P. & S. and Great Northern together provide a route nearest approaching a route grade of any railroad in the east. The Great Northern has the largest mileage of any railroad in Minnesota, North Dakota and Montana, where there is an increasing demand for Oregon lumber. There is no lumber in that territory and the natural source of supply is from Pacific Coast territory. The population in Great Northern territory east of the Rocky Mountains is increasing and this fact will increase very rapidly in the next few years. Diversification of agriculture there means the growing of livestock on small farms and means the use of large quantities of lumber. The Great Northern is desirous of cooperating with the producers of Oregon to make these markets available to them." Sheep shearing supplies at Wharton Bros. To Whom It May Concern I will not stand for any accounts contracted by anyone except myself in person. WARNER H. SIEGRIST. Horse collars and collar pads at Wharton Bros. A tire made for the West in the West!

IN A FEW MATTERS we Westerners gladly hand the palm to our Eastern friends. Building subways and skyscrapers—yes! Football—scrapers—yes! Climate—improbably. Pleasure auto driving—no!

We drive more months of the year . . . have greater scenic attractions. The "great open spaces" draw us farther from home. We know roads—and autos—and tires!

Which, in a way, accounts for the success of C-T-C tires. They are built in the West to meet Western conditions.

Eastern engineers came West to build them—but they make them for the West as well as in the West!

Today they are ranked as one of the three or four really fine tires in America and they are the largest-selling tires made in a Western-owned factory.

Motorists in the nine western states know what a tire should do. Their purchases show that C-T-C does it!

Come in and let us show you this remarkable tire. "Quality will never be sacrificed to meet a price" Robert W. Longley President Columbia Tire Corporation Highway Service Co. ROSEBURG, ORE.

BANKING DEPARTMENT TO INSTALL SALEM OFFICE

(Associated Press Salem Wire.) SALEM, Ore., April 13.—Miss Edna Simonton of the state banking department which was recently transferred from Salem to Portland, arrived here today and said that the department will have an office room in the state house. She said she did not expect to remain in Salem. The transfer of the department to Portland is being attacked in court on grounds that the new banking code provides that the department shall be maintained in Salem and that only a branch office is allowable in Portland.

KIWANIANS TO SEE WINTER CARNIVAL IN JUNE AT ST. PAUL ST. PAUL, April 13.—Kiwanians will flip back the leaves of the Minnaboda six months this summer in staging a winter carnival with ice races, fancy skating, sking and hockey at the International Convention of the Kiwanis clubs of the United States and Canada here June 22 to 25.

From the refreshing "pine tree atmosphere" of the St. Paul auditorium, to be created by the placing of hundreds of pines in the building, the guests will be whisked to a scene of ice and snow, the Minneapolis Arena, where the ice carnival will be held on a vast sheet of artificial ice.

Every detail of a genuine Minnesota winter carnival will be copied in the middle of the summer. Snow will be manufactured for the occasion and some of the northland's most famous riders will compete on the huge slide to be constructed in the arena.
