Defeat of Tobacco Tax and Tithing Act Would Put State in Bad Hole

PIERCE GIVEN BLAME

Accused of Unwarrantably Pruning Levy Because Of Income Tax

(Associated Press Leased Wire.)
 SALEM, Ore., April 24.—Some observers here see a violation of the law, sections 4214 and 4215 of the Oregon code, by Governor Pierce and former State Treasurer Myers when they refused last December to levy a state tax large enough to meet the state's needs, as shown by the budget, and claim this will, toward the close of the present year and the year following, make it necessary that the constitution be violated in the amount of the state debt or that a special session of the legislature be called to grapple with the financial snarl.

This is on the assumption that the interests back of the tobacco tax and tithing act referendums succeed in getting the referendums on the ballot.

Article 2, section 7 of the state constitution provides that the debt of the state in excess of its ability to pay shall not exceed \$50,000, but with the tobacco tax held up by the referendum until after the general election in November 1926, and it will at the end of this year be without funds to meet the shortage in funds caused by the curtailment of the tax levy. And because of the constitutional tax limitation shortage will also be faced at the end of 1926.

When the fall of 1925 arrives the state treasury will be shorter of funds than it has been for years, says State Treasurer Kay due to the short levy. While the tax commission, to meet the requirements of the state budget, should have levied in excess of 3 mills it is accused of arbitrarily levying only 1.8 mills. It is declared this was for the deliberate purpose on the part of the governor to put the legislature in a hole in revenue for repeal of the state tax for this year is only about \$1,300,000. Half of the amount is now coming in and the other half will not be due until next fall.

The shortage between the tax levy and the funds actually needed was about \$2,500,000 for the biennial, including budget estimates of \$1,200,000, which the budget commission referred to the legislature without recommendation. The legislature without an adequate tax levy to fall back upon, found itself unable to appropriate enough money by about \$1,500,000, hence the enactment of the tobacco bill and other revenue producing measures and subsequent appropriation votes by the governor. On the assumption that money would be forthcoming from the revenue acts all absolutely necessary appointments were made. The secretary of state has no option but to issue warrants up to the full amount of appropriations and if the funds are cut short by the referendum, it will be necessary for the state to borrow money far in excess of the \$50,000 constitutional allowance so the warrants may be paid.

A portion of the state today promised rain, along with the weatherman's prediction that the storm would move eastward.

Butte prepared to dig itself out of a 20-inch blanket of snow left by the storm which it finished last night and was followed by rain. Corps of workmen began to repair the damage, estimated at \$50,000, which the storm caused in the city to power lines and traffic lanes.

The wintry gust brought joy to Montana's agriculturists. Farmers everywhere hailed as manna the white flakes from the heavens which ended a drought period which seriously threatened the state's spring crops.

INSURANCE MAN TELLS ON FRIEND

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctors diagnosed his ailment as gall bladder trouble and that an operation was necessary. Some one persuaded him to try Mayr's Wonderful Remedy. Since taking it one year ago he tells me he has been able to eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

ADVANCE SALE OF WOOL PROVES DISAPPOINTMENT

(Associated Press Leased Wire.)
 PORTLAND, Ore., April 24.—Wool trading has been disappointing to both growers and dealers far this season. Much had been expected of the opening wool sales in Idaho yesterday, but they were light in volume and prices were lower than growers had anticipated.

The wool season in Idaho opened with sealed bid sales at Mountain Home yesterday. The sale had been well advertised and was attended by buyers from all over the northwest, but offers were low and several clips were withdrawn.

Only two clips were sold and at prices from 41 cent to 42 cents for fine grade wool.

Approximately 150,000 pounds of wool were withdrawn.

Several sales were made outside of the pool, the largest being 100,000 pounds bought in by the Portland Woolen Mills at a price averaging 41 cents. One lot of 10,000 fleeces was purchased by the N. L. Robinson Wool Company at 42 cents.

Shearing continues in Eastern Oregon, but as yet not enough business has been transacted to establish a definite market. Another sealed bid sale will be held at Mountain Home on April 29th.

NEW TODAY

REPRESENTATIVE OF U. S. CHAMBER OF COMMERCE COMING

Paul Clagstone, manager of the western division of the Chamber of Commerce of the United States will visit Roseburg on May 5th, 1925.

The Western Division, with the Eastern, North Central, and the Southern, was established under a decentralization plan adopted recently and includes the states of Montana, Idaho, Wyoming, Colorado, Utah, Nevada, New Mexico, Arizona, Washington, Oregon and California.

The western advisory council consists of Henry M. Robinson, Western vice-president, Los Angeles; Arthur S. Bent, Los Angeles; O. M. Clark, Portland; Lafayette Hanchett, Salt Lake City; Everett G. Griggs, Tacoma, Wa.; Dwight B. Heard, Phoenix, and Paul Shoup, San Francisco.

This division recently held a very successful mid-year meeting in Los Angeles, when matters of great importance to Western business were discussed. The next western convention will be held at Seattle, probably in December. Mr. Clagstone expects to meet with the business men of Roseburg on his coming visit and will bring before them many matters connected with the organization of business, local, national and international. He is well qualified to discuss this question from the point of view of the western business men as he has spent most of his life on the Pacific coast and the inter-mountain country.

Mr. Clagstone will report on the April meeting on the border at Douglas, Arizona, of western chambers of commerce with those of Mexico, will speak concerning the annual meeting of the National Chamber to be held May 15-22nd at Washington, D. C., and will outline plans in connection with the next western divisional meeting at Seattle.

SUTHERLIN WILL VOTE ON BONDS FOR CITY WATER SYSTEM

The Sutherlin city council met last night and heard the report of the engineers who have been studying plans for supplying water for domestic use in the city. The engineers presented a thorough report covering the city's needs for the present and an outline for expansion.

Next Wednesday the council will hold a special session to pass an ordinance calling for a special election, probably about the last of May, at which time a proposition to issue bonds in the sum of \$50,000 will be presented to the residents of the city. The plans provide for a gravity water system intake being at the Luse irrigation dam, seven and one-half miles east of Sutherlin. The system as proposed would supply Sutherlin with approximately 20,000 cubic feet of water daily. At the present time the city is using only about 25,000 cubic feet so that the new system would be sufficient to supply the needs for many years to come. The water is from the Calapooia, a pure mountain stream that has been thoroughly tested and proven pure in every respect. Sentiment in the city is said to favor the gravity system over any

MONTANA SCOURGED BY MID-WINTER CONDITIONS

(Associated Press Leased Wire.)
 BUTTE, Mont., April 24.—King Winter's most bitter spring time onslaught yesterday unleashed the elements on Montana and left a snow covered state, high running streams and partly paralyzed transportation and communication systems.

Small hamlets were isolated, highways were blocked with drifts, city industrial traffic was demoralized and railroad traffic seriously affected by the winter's fleeting snow covered state, high running
