TANKO AND HALL STILL MISSING

(Associated Press Leased Wire.)
COLFAX, Cal., May 7.—Indian trappers headed posse today in a continued search for two bandits believed to be Joe Tanko and Floyd Hall, murderers, who escaped recently from San Quentin prison. The bandits held up a United States mail truck last Tuesday, abandoning it after a wild ride through mountains with officers in pursuit.
Although scores of deputy sheriffs and police have scoured the mountains, no trace of the bandits has been obtained since Tuesday.

NEW AIR MAIL SERVICE PLANNED FOR NORTHWEST
(Associated Press Leased Wire.)
PORTLAND, Ore., May 7.—The proposed airplane mail service linking the east and California with the northwest will be established on July 1, post office officials announced today.
Continuation of this service by the post office department depends upon the amount of patronage it receives from business men of the northwest, said Postmaster Jones.
Petitions are now being circulated by postmasters of the Northwest among prospective patrons who will make use of the service.
Under the proposed schedule, mail for eastern points, San Francisco and Los Angeles would leave Portland at 8 p. m. It would arrive in Pasco at 2:25 o'clock the following morning and be dispatched by airplane from Pasco at 6:15 a. m. arriving at 11:15 the same morning at Elko, Nev., where it would connect with the plane from San Francisco for New York and way points, also with the western point plane for San Francisco.

WIRELESS PHOTOS SENT FROM HAWAII
NEW YORK, May 7.—Photographs, transmitted through the air most of the way, traversed 5,000 miles over land and sea today completing a history-making journey from Honolulu to New York in twenty minutes. Seven pictures of persons and events concerned in the sham warfare that the United States army and navy have been carrying on near Hawaii were transmitted in the series of experiments. Twenty minutes after the negative of each picture had been placed in the transmitting apparatus at Honolulu, the completed picture was in New York.
The experiments were conducted by the Radio Corporation of America with the co-operation of the United States Army.

BERLIN, May 7.—Official protest has been entered by the socialists against the validity of the election of Field Marshal Von Hindenburg as president of Germany. The socialists charge many irregularities and demand that the election be declared void.
This action, however, does not seem to worry the nationalists, who say it will be difficult to prove that the circumstances were such to effect the result of the vote on which Von Hindenburg received a plurality of 902,911.
The socialist paper Vorwaerts cites as evidence, either of intimidation or fraud, the fact that the nationalists after the election published a list of localities in which every vote was recorded for Von Hindenburg. It is inconceivable, the paper says, that in a country politically disunited, all the votes in several localities should have gone for one man.
The socialists assert that the electors in numerous rural districts were coerced into voting for the field marshal because transparent instead of opaque envelopes were used, thus permitting the election officials to see which way the ballots were cast.
The protest in a form of a plot for an injunction alleges that undue pressure is being exerted upon the election commission by the fixing such an early date as May 12 for Von Hindenburg's inauguration, as the commission is thus not afforded sufficient time to canvass the returns.
Agitation also continues over the issue as to whether the republican flag shall be retained or the old black, white and red re-adopted.
