

PRESIDENT VON HINDENBURG IS GIVEN WELCOME

Berlin Folks Turn Out En Masse When Field Marshal Enters City.

RED RIOTING FEARED

Police Issue Orders Forbidding Monarchist Sympathizers From Playing Kaiser Airs.

Berlin, May 11.—Field Marshal Von Hindenburg, who will be inaugurated tomorrow as president of Germany, arrived at the Hoorstrasse station here late this afternoon.

Berlin, May 11.—Today was Von Hindenburg's day—the day of the field marshal's entry into the capital as president-elect of the German republic.

The nationalists planned to turn the event into a great manifestation along the route traveled by the automobile carrying their hero from the suburban station where he was due to arrive late in the afternoon, up to Broad Heerstrasse, through the Brandenburg gate and thence to the chancellors' palace, where he will rest in preparation for tomorrow's inauguration.

The air was charged with electricity, both literally and figuratively—literally because of a throated thunderstorm and figuratively because of fears that the nationalist demonstration might be met with counter manifestations and lead to trouble. The police issued sweeping orders forbidding the monarchist sympathizers from having their bands of welcome play "Fredericus Rex" or any other of the stirring marches reminiscent of the days of the Kaiser's power. They also prohibited the communists and their sympathizers from staging the three monster open air demonstrations planned for today.

The police precautions against trouble were elaborate and included patrolling not only of the streets, but of the air and water. Aerial patrols were instructed to hover constantly over all the important street crossings along the route to keep watch for symptoms of disturbances.

Police vans were to ply to and fro on the Havel river near the bridge crossed by Von Hindenburg's automobile. Forty of the capital's most experienced and reliable motorcycle police were detailed as an escort for his car. For the general safeguarding of order, the chief of police augmented the 15,000 uniformed Schupos (security police) with several hundred officers from the political and criminal branches. Even the police dogs were mobilized. Police trucks were stationed at strategic points with reserves ready to move whole platoons to any danger point in the event of necessity.

Societies assigned to places along Hindenburg's route will be accompanied by police to prevent clashes between communists and nationalists.

At Heerstrasse, the suburban railway station, where Hindenburg is expected to arrive shortly before six o'clock, he will be greeted by Chancellor Luther, Defense Minister Cressler, Minister of the Interior Schiele, Executive Secretary Meissner, Chancellor Secretary Kemper, General Seekt, Admiral Zenker, Lord-Mayor Boeck, Chief of Police Friedenburg and other officials.

Only 10 newspaper reporters will be admitted to the station, which will be closed to all traffic. Even suburban trains will not be operated, contrary to the original idea of attempting to continue these services.

Chancellor Luther's ten year old daughter will present floral tribute to the president-elect when he reaches the station. The party will then proceed on the long drive to the chancellors' palace in automobiles.

TWO MEN FINED \$250 EACH ON CHARGE OF SELLING LIQUOR

George Williams and Fred Self were arrested Saturday night charged with the sale of intoxicating liquor. The two men are alleged to have sold three pint bottles of liquor to a deputy sheriff. They were arraigned this morning before Justice of the Peace George Jones, where they entered a plea of guilty, and were fined \$250 each. Being unable to pay the amounts they were ordered confined to the county jail until the amount is paid.

VILLAGE GIVEN BIG HONOR

ABOARD U. S. S. SEATTLE AT HAHAINA ROADS ANCHORAGE, May 11.—The sleepy little village of Old Lahaina, rich in Hawaiian traditions and historic incidents was granted today a privilege denied all other parts of the United States for at least, before the former seat of the Hawaiian monarchy, rode at anchor the largest number of American warships ever assembled at one place at one time in the history of the nation.

Difficulties of anchorage at San Francisco, Honolulu, and all other ports of the fleet call necessitated splitting of the armada into several detachments, but with the practically unlimited anchorage in the roads between the islands of Maui and Lanai, Admiral Coontz was able to bring the entire fleet together for the first time.

WOMAN FREE OF INSANITY FINDS BABY MISSING

German Nurse Lost Her Son While Being Cured of Mental Disease.

NEW YORK, May 11.—Assistant District Attorney Ryan announced today he had received information alleging that one of the 23 babies who died in the baby home conducted by Mrs. Helen Geisen-Volk, had his head dashed against a wall the day before it died.

This information, he said, came from a nurse who had placed her own baby in the place and had observed conditions there. He quoted her saying:

"The baby was seized by the heels and its head dashed against the wall, the death of the baby following."

As a result of her story, Mr. Ryan said, he believed he would ask indictments against one or more persons for some degree of homicide. The nurse also told him, he said, that Mrs. Geisen-Volk had made it a practice to send children who became ill to widely scattered hospitals so that the number of cases might not attract notice.

NEW YORK, May 11.—Mrs. William Angerer was back in her own home today discharged as cured from the state hospital for the insane at Central Islip, Long Island, but broken by the news that the seven months old son, whom she had not seen since a month after his birth, had vanished from the "baby farm" of Mrs. Helen Ruksut Geisen-Volk.

All knowledge of the child's mysterious disappearance and the baby substitution charge brought by her husband against Mrs. Geisen-Volk had been kept from the mother and it was not until her release after six months confinement from the hospital last night that she was told.

Investigation of the "baby farm" revealed, police said, that 23 children had died there since January 1924. Mrs. Geisen-Volk is a former German Red Cross nurse and widow of a Prussian army officer.

Assistant District Attorney Ryan, in charge of the investigation of Mrs. Geisen-Volk's operations, said that no trace could be found of the Angerer baby or of the child he said was offered him in substitution.

Mrs. Geisen-Volk was held for the grand jury in \$25,000 bail on the charge of child substitution and on \$1,000 bail for alleged violation of the provisions of her city license in keeping a score of children at her nursing home when her permit called for but seven.

COMMITTED SUICIDE

SOUTHAMPTON, Eng., May 11.—The coroner's jury today returned a verdict that the Hon. Francis John Lascelles, who was found dead at his home Saturday, committed suicide while temporarily insane.

The deceased was a half-brother of the Earl of Harwood, who is the father-in-law of Princess Mary.

USE ANCHOR TO BREAK UP SHIP AND GET BODIES

Plan to Crash Cabin of Ill-Fated Steamer to Release 23 Bodies.

RIVER IS WATCHED

Some Bodies May Have Been Swept Down Stream and Search Will Be Conducted to Helena.

MEMPHIS, Tenn., May 11.—Using a large anchor attached to a fifty foot chain as a hammer, the United States engineers today will break the framework of the cabin of the sunken steamer M. E. Norman, in the hope of releasing bodies of some of the 23 persons who drowned when the vessel turned over and sank last Friday.

Stationed at intervals down the river, crews of government boats will watch for the bodies which the engineers are confident will be released.

The cabin was definitely located last night after the workers had broken up other parts of the steamer. Attempts to reach the hull of the vessel with expert divers failed because of the strong undercurrent which swept the divers far down stream when they attempted to descend.

To raise the hull of the steamer with chains, the engineer decided, would require several days, they determined on the plan of breaking up the super-structure of the Norman as the most practicable method of reaching the victims. Fearing that some of the bodies have been swept downstream, those in charge have ordered the search of the river as far down as Helena, Ark., to continue unceasingly.

Charts show the steamer lying with the stern 380 feet from the shore. The vessel is resting on her port side with the smokestacks pointing towards the shore.

First success in breaking up the super-structure of the vessel was scored when the aft flagpole of the Norman shot up through 50 feet of water with the American flag flying. Later the ship creaking was brought up, its hands creaking which it had stopped at 4:50 o'clock which hour on Friday afternoon engineers now accept as the exact time the steamer sank.

FORMER GOVERNOR DAVIS ON TRIAL

TOPEKA, Kan., May 11.—The trial of Jonathan M. Davis, former governor of Kansas on charges of conspiring, while in office, with his bank commissioner, Carl J. Peterson, to obtain a bribe in exchange for a pardon, began today here in the district court. Selection of a jury was started.

The former governor went on alone. Peterson, named jointly with Davis on the warrant, is to be tried later. Davis faces two criminal suits. In the case going to trial today he and Peterson are alleged to have attempted to obtain a bribe in exchange for pardon for Witter Grundy, Hutchinson banker, who is serving a sentence in the state penitentiary for embezzlement.

In the other suit, the ex-governor's son, Russell G. Davis, is named jointly with his father on charges of obtaining \$1,250 in exchange for a pardon for Fred W. Pollman, convicted Lacygne banker.

A. L. Oswald, young Hutchinson lawyer, who appealed to Jonathan M. Davis while the latter was governor, to pardon Grundy, is the state's star witness among 34 subpoenaed.

STREET REPAIR DEPARTMENT STARTS WORK OF PATCHING

The city's street repair department has started its annual summer job of patching the city's pavements. The crew is in charge of George Frew, who has served in similar capacity for the past three excellent repair work. The pavement broke down badly in many places during the past winter, largely due, apparently, to the extremely wet weather which damaged foundations. There are many large holes which will be repaired, and the crew will undoubtedly be kept busy during the entire summer. The patching will start on the streets used as the highway after which side streets will be repaired.

University of Oregon Regents Made Faculty Changes for the Purpose of Slashing the Payroll

(Associated Press Leased Wire.) EUGENE, Ore., May 11.—Explanations of the action taken at the meeting of the board of regents of the University of Oregon a week ago Saturday, which have resulted in some criticism, were made today through official statements from the University administration, the Eugene Guard will say this afternoon.

The aggregate amount saved on payroll by the reductions is \$19,000 and the increases authorized amount to \$13,000. The saving consequently amounts to \$6,000.

A total of 24 salaries were raised at the meeting. These, in the big majority of cases were for small salaries, and to retain them here it was necessary to make increases of from \$100 to \$200 a year.

The total increases will not exceed \$4,000, is the report.

The list of departments where savings are made is: Extension division, Education department, Architecture and allied arts, Physical education, Journalism, Drama, Mathematics, Greek.

Departments in which the budget will be the same next year as during the past year are: English, zoology, Romance languages.

The statement issued by university officials today says, in part: "Definite economies were made by the university board of regents at its last meeting."

"The administrative committee of the university estimated several months ago that if the university were to meet fully the demands made upon it for an increased staff to care for an increased student body next September, and also to defray heavy paying costs required by the city of Eugene, an item of \$60,000 would be required above the current budget.

"This original estimate of the amount necessary to be saved as it later proved, was too high, and the plan was modified so that it was not undertaken for the present, and the original estimate of the number of new instructors to be required, has been reduced by half.

"In the extension division a saving of \$10,000 a year was made. This was made possible by reducing the budget below former allowances but permitting the extension division at the same time to raise fees and thus increase earnings. By abolishing the position of university field worker, carried in the extension division budget, a salary item of \$2,000 yearly was saved.

"A saving of \$15,000 was made in staff salaries by readjustments of faculty positions, some department economies and by drastic curtailment of work in drama and speech arts. By action of the board of regents, a saving of \$5,000 a year was made in the work largely in salaries through failure to reappoint Professor Fergus Reddie and other staff members in this department.

"It was originally estimated that to fill vacancies next year and to make necessary salary advancements, \$25,000 would be required next year. This sum was cut to \$15,000, a net saving of \$10,000.

"Three men were lost to the department of philosophy, Dr. Ernest S. Babes, Kerly Miller and Fritz Marti. Mr. Marti asked last winter to be released his resignation to take effect next fall. Dr. Babes and Mr. Miller were not reappointed. In place of these three men, the board authorized the appointment of two new teachers to fill the vacancies.

"According to the administrative committee, the departments of English, romance languages and zoology were instructed to continue next year on budgets that do not exceed their present allowances, the board also releasing several persons in minor faculty positions on one-year appointments. In the English department, Mildred Hawes, instructor, Frank J. Palmer, graduate assistant were not re-engaged, and the salary of Professor H. C. Howe was cut \$500. A new head of the English department will be appointed without increasing the budget.

"Bertha Hays and Vesta Holt, instructors in the department of zoology, resigned, and will be replaced.

"While granted a years leave of absence it is understood that Dr. Torrey will not return to the university.

"In the department of romance language, this years budget will be maintained by readjustment of personnel within the department.

"A saving of \$5,000 was made in the original estimate of the outlay for a site for the student union building.

"The university officials expected to make a saving on the summer session of next year, as student fees were raised from \$12.50 to \$15.

"A saving of \$2,500 was also reported in equipment of the new science building.

"Other expenses, which, it was believed, would have to be budgeted this year, were put over until next year.

"With the exception of the department of drama and the speech arts, every department in the university remains intact.

TRIBESMEN IN INVADDED ZONE AID REFFIANS

French Troops Worried and Put in Hurried Call for Reinforcements.

ATTACKS VIOLENT

Observers Say French Will Need 100,000 Men to Drive Invaders Out of Territory.

(Associated Press Leased Wire.) TETUAN, Spanish Morocco, May 11.—The attacks of the Riffian forces in French Morocco are reported to be increasing in force and numerous French airplanes have been brought up to check the movement. All the French groups operating on the northern front have also been reinforced, especially with artillery.

Actions of great violence are expected by the French, the advice says, as Abd-el-Krim, leader of the Riffian invaders, considers his reputation at stake and is concentrating all his best forces against the French.

The Riffian chief has repeated his call to the colors for all rebels against the French and is reported to be receiving aid from some of the tribesmen in the invaded zone. He is said to have pan-Islamic and soviet agents working among those tribesmen which have not yet thrown their lot with him.

French reinforcements moving to the relief of their comrades along the front line encountered most trying conditions, being forced to cross open territory in which they were subject to sniping from the rebels.

(Associated Press Leased Wire.) PARIS, May 11.—The French reinforcements from Algeria which have in a great part arrived in Northern Morocco are being sent to strategic points along the line.

The same operations continue with the same object of relieving the French outposts still surrounded by Abd-el-Krim's Riffian warriors.

Military men here believe Marshal Lyautey will need 100,000 troops to drive the invaders out. The governor-general's forces now number close to seventy thousand.

Another 10 days are expected to elapse before the French counter offensive develops. As soon as the French feel they have sufficiently strong reserves to continue the movement to a decisive end, it is said, a concerted movement will be made against the invaders along a sixty mile front with the objection of driving them into the mountains to the north.

The latest information gathered by the French intelligence service, tends to confirm previous reports that Abd-el-Krim is planning to make his chief effort from the Ouzenzan region, with the idea of outflanking the French wing, cutting the Fez-Kenitra Railway and taking the French line from the rear.

A brother of the rebel leader is preaching a "body war" among the tribes living on the banks of the tributaries of the Gurrha river between the French and Riffian advance posts. These tribesmen are of a turbulent character, easily amenable to appeals of fanaticism and consider that the preacher is having considerable success.

RABAT, Morocco, May 11.—Lively fighting occurred again today in the central sector of the Riffian front, when Colonel Freydenburg's column went to the relief of an outpost at Babouender. The French succeeded in setting much needed food and water to the surrounded garrison.

DRAGGING CANAL FOR BOY'S BODY

(Associated Press Leased Wire.) PENDLETON, May 11.—Searching parties continued today to seek the body of Jack Dabney, six, son of Mr. and Mrs. John Dabney of Echo, who met his death Saturday evening at six o'clock when he fell into the government irrigation canal at the west end of that city. The only witness was a tourist who could not swim. The canal was running high, carrying the most water at any time this year and the body was rapidly borne away. The water was turned out of the ditch and the search continued all day Sunday and today but as yet the body has not been found.

BOMBERS ENTER PLEA OF GUILTY

State Association to Hold Sessions in Roseburg Next Year.

PLANS ARE STARTED

Local Association Will Start Getting Ready at Once to Take Care of 1926 Convention.

(Associated Press Leased Wire.) VIENNA, May 11.—Dispatches from Sofia say that all the principals charged with responsibility for the recent bombing of the Eweli Kral Cathedral, in which 160 persons were killed have pleaded guilty with the exception of one defendant named Kofchev.

The court deferred judgment after the pleas of guilty were made. Marco Friedman, alleged leader of the conspiracy asked that he be shot in the event the death penalty is imposed. Zadgorsky, Secretary of the Cathedral, charged with having assisted the conspirators, begged that he be imprisoned, not killed so that he might atone his misdeed by prayer and penitence. The other defendants pleaded for leniency.

(Associated Press Leased Wire.) FEW LIQUOR CRAFT REMAIN IN HOPE THAT FOG WILL AID CUSTOMERS.

BLOCKADE A SUCCESS

One Rum Ship Offers Coast Guard Boat 100 Cases of Booze in Exchange for 100 Cases of Water.

(Associated Press Leased Wire.) NEW YORK, May 11.—Vanquished in this portion of the Atlantic seaboard by the dry navy's blockade, Rum Row is breaking up. Some liquor craft remain off New York hoping for fog to aid them. Ticker mist came yesterday for the first time since the blockade started last Tuesday.

Rear Admiral Barton, commander of the coast guard, has said in Washington that he will be satisfied if appreciable disintegration of Rum Row begins within a month, but some of the schooners and steamers that have formed part of the fleet selling liquor between Cape Ann, Mass., and Cape May, N. J., for four years, have already disappeared.

Either they have gone to their home ports on foreign shores or are seeking other parts along the coast. Captain W. V. E. Jacobs, divisional commander of the coast guard here, received a radio message from his blockaders that some of the whiskey ships were heading out to sea. Later there were reports that some of the rum selling craft had headed in shore in the hope that customers could elude the coast guard's pickets in the fog and do business. During a lift in the fog eight rim craft were noted lately riding the rollers off Sandy Hook.

With the blockaders having on duty 38 craft, it was believed that smugglers would have great difficulty in getting ashore even in the mist.

Instancing the efficiency of the blockade is a story told by a sea man of the dry navy. When a rum steamer there came a hail by megaphone from the bridge:—"We need water. How about 100 cases of whiskey for 100 cases of water?"

The patrol boat ignored the hail and veered off.

(Associated Press Leased Wire.) WASHINGTON, May 11.—The provision of the alien land law of California, imposing upon aliens ineligible to citizenship the burden of proving that their purchase of agricultural land was not for the purpose of defeating that statute was sustained to day by the supreme court in an appeal brought by W. A. Cockerill and S. Ikada.

Under the alien land laws of California, as construed by the federal supreme court, Japanese are prohibited from owning or leasing agricultural property. S. Ikada, a Japanese furnished money with which W. A. Cockerill, his attorney purchased land to be held for the benefit of the American-born children of Ikada. The state courts of California held that the transaction was invalid.

ROOSEVELT PARTY ARRIVES IN ASIA

BOMBAY, British India, May 11.—Colonel Theodore Roosevelt, his brother Kermit, and the members of his central Asian hunting expedition, arrived here today aboard the British steamship Hazemati, all members of the party are well. They propose to leave tonight for Rawalpindi in the Punjab enroute to Kashmir.

GOVERNOR APPOINTS SEVERAL NEW MEN

SALEM, Ore., May 11.—Governor Pierce today appointed George S. Birney of La Grande as a member of the state board of optometry. The governor reappointed Arthur B. McKee of Portland on the state board of aeronautics, and appointed on the same board W. J. Chamberlain of Corvallis to succeed Leo R. Deaver of Roseburg and R. R. Kell of Portland to succeed L. B. Hickman of Portland.

MUSIC TEACHER CONVENTION TO BE HELD HERE

State Association to Hold Sessions in Roseburg Next Year.

PLANS ARE STARTED

Local Association Will Start Getting Ready at Once to Take Care of 1926 Convention.

The Oregon State Music Teachers Association will hold its next annual meeting in Roseburg, it was decided in the closing hours of the session at Portland on Saturday. The association held its convention last week, and through the efforts of Mrs. S. Heinline, and Mrs. Charles G. Stanton, local piano teachers, and members of the state association, together with the cooperation of the civic clubs and commercial organizations and business houses of the city, Roseburg was chosen as the next convention city. Mrs. Heinline and Mrs. Stanton, who were in attendance at the convention, presented the invitation from Roseburg, backed with telegrams from the Kiwanis and Rotary clubs, Umpqua clubs, Chamber of Commerce, and numerous business houses and individuals. The invitation was accepted, and the next convention, which will probably be held in May of next year, will come to this city.

Roseburg has been strongly aligned with the Oregon State Music Teachers Association for many years, and maintains a strong and active local organization, so that the teachers of this city are well recognized by the state organization. Mrs. Heinline was one of the speakers of the convention program.

The Oregon State Music Teachers Association is made up of the leading instructors of the state, and at its sessions the problems of Music Teachers Association for many years, and maintains a strong and active local organization, so that the teachers of this city are well recognized by the state organization. Mrs. Heinline was one of the speakers of the convention program.
