(Associated Press Leased Wire)

SALEM, Ore., June 4.—To facilitate the organization of the state traffic department and to enable Chief Inspector T. A. Rafferty from his headquarters in Salem to keep in closer and more effective touch with his 24 men throughout the state, official ranks were created among the officers at the annual meeting that ended here yesterday. Under this system a captain and five sergeants were named, and 23 traffic districts created with five supervisory districts. to induce them to quit work.

TOKIO, June 4.—The Japanese government today ordered the small cruiser Tatsuwa from Sasebo to Shanghai with 190 marines for duty there in connection with the disturbances in the Chinese city.

Before the decision was reached to send troops to Shanghai, a government spokesman said, the situation there "having become aggravated, the government intends to take the necessary steps to meet the circumstances."

PEKING, June 4.—M. Karakhan, Soviet ambassador to China, today denied that his country was responsible in any degree for hostile activities of Chinese students at Shanghai.

The Soviet consul general declined to be interviewed by newspaper men but he replied in writing to a series of written questions submitted to him, branding the statements from other quarters attempting to connect his government with the disorders, "as nothing else than prevarication aiming to discredit the Soviet government."

The reply of the Soviet consul was made after statements were made that the Peking radicals, through Chinese and Moscow agents, were supplying the finances and directing the strikers and demonstrators from Peking.

Announcement was made also that Chinese students, in opposing foreign rule in courts in China, had the support of the radical wing of the Kuomintang party, the organization of which the late Dr. Sun Yat Sen, first president of the Chinese republic, was the head.

As part of the program to reach the sources of unrest, communist centers were given special treatment today by police and other peace forces.

American sailors carrying rifles with bayonets fixed, were stationed at the "Peoples College", which enjoys a subsidy of Soviet money from the Peking branch of the Kuomintang party, it is said. Large quantities of inflammatory literature were seized by other raiding parties.

A Russian bolshevik is held in jail here.

WASHINGTON, June 4.—Disturbances in Shanghai and Canton have been extended to include Changsha, where the situation is reported today to the state department as "serious but under control."

Vice-Consul Carl D. Melnhardt telegraphed from Changsha that students of all the schools there had gone out on strike as a result of the Shanghai incidents. The students declared a boycott against British and Japanese, he said, and may private riches were demolished in the streets on Tuesday. Consul-General Cunningham at Shanghai reported that a strike of waiters occurred today at the Astor House and other Shanghai hotels and at the Shanghai club.

Domestic servants, he said, were leaving their employers.

The Great Eastern and Burlington hotels in Shanghai were closed Wednesday and munitions and considerable bolshevik literature, the advices said, were found in some of the rooms. All public wharves, with the exception of the Dollar and Jardine wharves on piers, were closed on account of the strike. Chinese banks in Shanghai have been closed for two days.
