CALMER HEADS ACT TO RESTORE ORDER IN CHINA

Foreign Delegations and Government Arrange for Conference.

WAR NOT NOW LIKELY

Strike Will Be Adjusted Peaceably Despite the Continued Agitation of Few Students.

(Associated Press Leased Wire.)

SHANGHAI, June 8.—While several thousand Chinese strikers resumed their work today, more than 5,000 more, principally cotton mill employes residing in Chinese territory, quit their tasks under direct threats of agitators menacing their homes.

The general indication throughout the city was that the strike situation was improving.

Efforts of the anti-foreign demonstrators engineering the general strike are being concentrated against the Japanese and British. This was evidenced this afternoon at a Chinese mass meeting at which speakers advised workers attached to the nationals of countries other than Japan and Great Britain to resume employment.

Some forty cases growing out of disturbances incidental to the strike are scheduled for hearing in the Shanghai mixed court tomorrow. This court, with its Chinese magistrate and foreign assessor, is being opposed by Chinese agitators for the strike, who object to the courts having jurisdiction over Chinese residing in the foreign settlements.

Interest has been roused here by reports from Peking that the central government is sending to a petition of student leaders there, is ordering 2,000 troops under Lu-Yung-Siang to Shanghai.

Shanghai continues on a military basis.

(Associated Press Leased Wire.)

PEKING, June 8.—The delegation appointed by the foreign legations to investigate the rioting growing out of the strike in the Japanese owned cotton mills at Shanghai, left for that city this morning and should arrive in from 48 to 60 hours.

Appointment of the delegation, which consists of the secretaries of the various legations, has created a good impression among the Chinese and is giving the authorities and the conservative unofficial element a basis upon which to appeal for moderation in the attitude of the natives toward the foreigners.

The only evidence of activity by the agitating students yesterday was the distribution of handbills purporting to be the collective demands of thirty schools. These documents, more or less hysterically phrased, demanded redress and remedy for the conditions contributing to the Shanghai situation.

The newspaper comment has been unusually calm and analytical but its keynote is that the time had arrived when China must have her political rights restored.

An open letter issued over the signatures of a group of locally prominent Chinese including Dr. V. K. Wellington Koo, former foreign minister, urges the foreigners to try to understand the Chinese viewpoint and appeals to the Chinese viewpoint and appeals to the Chinese viewpoint.

INCOME TAX LAW BRINGS \$2,325,000 INTO OREGON'S TREASURY; CUTS DOWN DEFICIT DUE TO SMALL STATE LEVY

(Associated Press Leased Wire.)

SALEM, Ore., June 8.—Since June 4, when waivers of penalty and interest on delinquent income taxes ceased, the total collected under the income tax act of 1923 now reported, has mounted rapidly, and has now reached approximately \$2,325,000. At the time the law was enacted it was estimated the act would yield \$1,250,000.

Last week alone nearly \$400,000 was received, of which \$355,000 was turned over to the state treasurer. Some \$200,000 have not yet been made by the tax commission. One big corporation alone remitted an additional \$56,000.

While some of the receipts represent fourth installment payments by the tax payers and sources uncovered by field investigations, by far the most of it is a

MEXICO, CITY, June 8.—Special dispatches from Vera Cruz report that more than 100 persons have been drowned and several hamlets destroyed in the Isthmus region, caused by the overflowing of the Tehuantepec and Perros river.

Heavy damage was caused over an extensive zone in Oaxaca and Vera Cruz states. The water swept away whole families, their lives lost as well as their possessions. Large trees were uprooted, adobe houses levelled and crops ruined.

Sanblas, a suburb of Tehuantepec is reported almost destroyed.

HOT WAVE TAKES 151 MORE LIVES BEFORE ENDING

Philadelphia's Total Is 71, New York's 31—Forty Persons Drown.

BEACHES ARE JAMMED

Middle West Spell Broken by Tornadoes Toppling Buildings, Injuring Scores of People.

(Associated Press Leased Wire.)

CHICAGO, June 8.—Relief in eastern and mid-eastern areas was in prospect today from the almost nationwide heat wave, which has taken a toll of 481 lives in nine days. Although western temperatures were moderated to some extent yesterday by cloudiness, rains and winds, resulting in a smaller number of deaths than the day before, the continuing heat in many eastern areas added heavily to the casualty list. Deaths yesterday directly attributed to the heat numbered 157, all but 8 in eastern territory. The previous total was 324 deaths from heat and storm.

Philadelphia led the casualty list with 71 deaths, while 31 were recorded in New York.

Relief was forecast by the weather bureau from two directions. Portions of the area particularly in New England and New Jersey were scheduled to benefit from an atmospheric movement from the northeast, while the west was promised relief as a disturbance moved into the central states from the Rocky mountains. By Tuesday, the western messenger will have progressed to Tennessee, the Ohio valley and the lower lake region.

The entrance of the storm into the middle west was accompanied by considerable damage in several states. High winds, small tornadoes and rains demolished buildings, flooded basements, interrupted communication and killed or injured several persons. Little Falls, Minn.; Omaha, Neb.; Vian and Ardmore, Okla.; Wray, Colo.; and Davenport, Iowa, were in the paths of the storms. Near Wray a gale swept through twenty five miles of territory, wrecking more than a hundred buildings and injuring a score of persons. The quick drop in temperatures was in evidence at Des Moines, where the mercury moved downward from 84 to 65 in ten minutes. Yesterday's heat death list follows:

Philadelphia 71, New York 31, Elizabeth N. J. 5, Newark N. J. 3, Trenton N. J. 3, Poughkeepsie 3, Washington 3, Hackensack N. J. 3, Bayonne 3, Wilmington, Del. 2, Croton N. Y. 1, Hoboken, N. J. 1, Lynn, Mass. 2, Fall River, Mass. 1, Reading, Pa. 1, Chicago 2, Omaha 2, St. Louis 3, Minneapolis 1, Scattering 14.

NEW YORK, June 8.—The backbone of a heat wave, which lasted from 5 to 8 days in the eastern states, was broken today in practically all sections.

After claiming 149 lives yesterday, 71 in Philadelphia alone and more than 400 during the spell in the east, the torrid weather gave way in front of a brisk northeast wind. Beginning on the New England coast, temperatures catapulted as much as forty degrees in five hours. The chilly breezes swept over New York City shortly before midnight, continuing over New Jersey and part of Pennsylvania.

The final day of the torrid wave was the worst in point of fatalities. One more day of heat would have equaled the nine day record in the nineties.

Millions flocked to the beaches. In addition to the heat fatalities about forty lives were lost by drowning. Eleven persons died in the waters about New York; ten in New England and at least twenty in other parts of the east. There were 30 heat deaths here.

It was estimated that 750,000 jammed Coney Island. Bath houses turned away thousands. At least 150,000 flocked to Atlantic City and 80,000 to Long Beach, N. Y. Maximum temperatures of one hundred degrees were common until the Atlantic breezes brought relief.

STRAWBERRIES AT LEVEL. RASPBERRIES \$4 A CRATE

(Associated Press Leased Wire.)

PORTLAND, Ore., June 8.—Strawberries are nearing the close of the season and are substantially higher than they were a week ago. Today's prices range from \$1.75 to \$2.40 a crate, according to quality.

Local raspberries are appearing from Oregon and Washington producing points, but the price is high, \$4 a crate.

REJECTED SUITOR STABS WIDOW AND RIVAL, THEN FLEES

BEACHES ARE JAMMED

Middle West Spell Broken by Tornadoes Toppling Buildings, Injuring Scores of People.

(Associated Press Leased Wire.)

EUGENE, Ore., June 8.—Hardy Brink of Springfield is at a local hospital with a slashed jugular vein, and Mrs. Fiesco Hurd, also of Springfield, is at the same hospital with several wounds on her head and back as a result of an alleged stabbing affray on the Pacific highway between here and Springfield Saturday night. Both the injured are expected to recover, according to the hospital authorities.

John Sollowack, who police declare did the stabbing, is still at liberty.

The trio were riding toward Eugene in a car, according to the police. Brink was driving, and Mrs. Hurd was in the front seat with him. Sollowack, who was in the rear seat of the car, suddenly leaped forward and slashed Brink across the throat, the police declare, and then stabbed Mrs. Hurd several times.

The car, left without a guide, dashed across the highway into the ditch. Mrs. Hurd and Brink were thrown to the roadway where he called for help. A passing car picked up the injured pair, and brought them to the hospital here. Jealousy over the woman, who is said to have spurned his love, is ascribed by the police as the motive for Sollowack's act.

Mrs. Hurd is a widow, her husband having committed suicide about a year ago. She is the mother of four children.

Sollowack is said to be about 25 years of age.

FRANK CLEMENS IS CALLED EAST BY RELATIVE'S DEATH

Frank Clemens of the Douglas National Bank, left yesterday for Jamestown, North Dakota, in response to a message announcing the sudden death of his brother-in-law, A. W. Nelson, who was accidentally killed Saturday night.

Frank Clemens of the Douglas National Bank, left yesterday for Jamestown, North Dakota, in response to a message announcing the sudden death of his brother-in-law, A. W. Nelson, who was accidentally killed Saturday night. Mr. Nelson was a mail clerk between Jamestown and Miles City, Montana, and was accidentally killed, late Saturday. Details of the accident were not learned. Mr. Nelson is quite well known here, having visited at the home of his wife's parents Mr. and Mrs. F. A. Clemens on several occasions. Mr. Nelson married Miss Elsie Clemens, and they have two small children. They were married here 11 years ago.

FIVE AIRPLANES ENROUTE

REDDING, Cal., June 8.—Lieutenant Oakley G. Kelly, noted army air pilot conveying a squadron of five rebuilt airplanes, hopped off from the flying field here at 10:25 a. m., continuing a flight from San Diego to Portland. The fliers expected to lunch at Medford. Thence they will fly to Eugene and Portland.

WEAK CASE AGAINST HART

SEATTLE, June 8.—Prosecutor Selden at Tacoma, expressed doubt today that he could make a charge of bribery against Louis F. Hart former governor of Washington, stick in court, stated a dispatch to the Seattle Times.

\$25,000 Blazing Cross Is Set Up By Montreal as Historic Symbol

MINNESOTA STATE FAIR GROUNDS, June 8.—America's success in fusing national unity from its melting pot of diverse racial elements points the way for fraternity and cooperation among peoples on a world-wide scale.

President Coolidge declared today in an address at the Norm-American Centennial.

"If fraternity and cooperation," he said, "are possible on the scale of this continent among people so widely diverse, why not on the scale of the world? I feel it is possible of realization. I am convinced that our national story might somewhat help to guide mankind toward such a goal."

The President told his audience that in the midst of "loyalties that are all beyond possibility of question" it was "difficult to choose among the many national and racial groups that have sought out America for their home and their country."

"We are thankful for all of them and yet more thankful that the experiment of their common citizenship has been so magnificently justified in its results," he said. "It was a seeking proof of a basic brotherhood among all races of men, if one were to challenge the riddle of Babel in support of aspirations for a unity capable of assuring peace to the nations. In such an inquiry I suppose no better testimony could be taken than the experience of this country."

"Out of the confusion of tongues, the conflict of traditions, the variations of historical setting, the vast differences in talents and tastes there has evolved a spiritual union accompanied by a range of capacity and genius which marks this nation for a preeminent destiny. The American people have commanded the respect of the world."

"It is not so many years since visitors from other quarters of the world were won to contemplate our concourse of races, origins, and interests, and shake their heads in amazement. They feared that from such a melting pot of diverse elements (Continued on page six)

MINE EXPLOSION ENTOMBS SIX MEN

STURGIS, Ky., June 8.—Six men, four of them negroes, were entombed in mine No. 9 of the West Kentucky Coal Company here today when an explosion wrecked entry No. 1.

Eight years ago an explosion in the company's mine No. 7 took a toll of 62 dead.

A United States mine rescue car was summoned from Evansville, Ind. and was expected to reach the scene this afternoon.

The extent of the damage has not been determined. Ventilation is good, however, and the upper workings of the mine were not damaged, mine officials said. A rescue crew maintained by the mine was hastily summoned and began to descend into the mine. The shaft is 425 feet deep. The explosion is believed to have occurred in entry No. 1. The 6 miners therein probably were 1500 or 2,000 feet back from the shaft when the blast occurred.

SURE SHOT OFFICER WOUNDED BUT GETS BURGULAR IN DUEL

LOS ANGELES, June 8.—Six robbers here last night culminated early today in a pistol duel between police Sergeant Frank S. Harper and Edward Miller, the latter being shot to death and the police officer wounded in the shoulder.

Sergeant Harper, crack pistol shot and medalist, located an automobile at Tenth and Georgia streets, the license of which coincided with that of the car operated by three bandits who during the evening successfully staged six holdups and robberies. Sergeant Harper telephoned police headquarters and just as he placed himself to watch the automobile, a taxi cab drove up and Edward Miller alighted and went to the bandit car. Sergeant Harper called upon him to keep away from the car and Miller opened fire, wounding the sergeant in the shoulder in a volley of five shots.

Sergeant Harper returned the fire with six shots, five of which entered Miller's body, instantly killing him, and the sixth passing through Miller's hat. Miller was identified as a convicted bootlegger.

WEAK CASE AGAINST HART

SEATTLE, June 8.—Prosecutor Selden at Tacoma, expressed doubt today that he could make a charge of bribery against Louis F. Hart former governor of Washington, stick in court, stated a dispatch to the Seattle Times.

SCANDAL AT AN ANNUAL CONTRIBUTION TO U. S. LAUDED

Important Element in Our National Melting Pot, Coolidge Says.

SPEAKS AT REUNION

Immigration From North and West Europe Gave Numbers That Won Civil War.

(Associated Press Leased Wire.)

ST. PAUL, Minn., June 8.—Political differences were forgotten today as the people of Minnesota and the northwest joined in honoring President Coolidge, their guest for the day. Coming into the territory which was a battle ground in the last political campaign, on a non-political mission—to pay tribute to the Norwegian immigrant—the executive was given a welcome that did not know the bounds of race or party.

Tens of thousands of cheering men, women and children lining the union station concourse and streets near by greeted the president and Mrs. Coolidge on their arrival last night. Thousands of others awaited an opportunity to get a glimpse of them today, to hear the president's address at the state fair grounds or to see them at close range at a public reception tonight at the state capitol.

While here the president and Mrs. Coolidge are guests at the home of Secretary and Mrs. Kellogg. They will leave for Washington shortly before midnight tonight. On arrival last night from Washington, Mr. and Mrs. Coolidge went to the Kellogg home but not until the president clasped the grimy hand of J. W. Murphy, engineer and W. Land, fireman, on the engine, which pulled the train into St. Paul with a fine ride.

Soldiers from Fort Snelling aided police in their efforts to handle the crowd which surged toward the president as he made his way through the station. Even after he had found seclusion at the Kellogg residence, hundreds of curious folk lingered in an adjoining street.

The president's program today called for a morning of inactivity at the Kellogg home, followed by his attendance at a luncheon in Minneapolis, tendered by the directors of the Centennial. Next in order was Mr. Coolidge's appearance at the fair grounds midway between Minneapolis and St. Paul for his centennial speech, with the late afternoon reserved for rest, preparatory to the state house reception.

Coolidge's Address MINNESOTA STATE FAIR GROUNDS, June 8.—America's success in fusing national unity from its melting pot of diverse racial elements points the way for fraternity and cooperation among peoples on a world-wide scale.

President Coolidge declared today in an address at the Norm-American Centennial.

TRAIN LEAPS TRACK, KILLING 8 SECTION MEN, ONE TRAINMAN

PERU, Ind., June 8.—Eight negro track layers and one trainman were killed today when a Chesapeake & Ohio freight train overturned while rounding a curve near Converse, Ind., 15 miles south of here.

The men were buried beneath the wreck of the engine tender and 15 coal cars. Railroad officials said that the number of trackmen killed might reach 11.

The section men had been repairing the track and had retired into a ditch at the side of the track while the train was passing.

ABUSE OF RIGHT OF FREE SPEECH GIVEN QUIETUS

Supreme Court Sustains Conviction of Author of Red Manifesto.

TWO JUDGES DISSENT

Overthrow of Government by Unlawful Methods Cannot be Urged Within Law.

WASHINGTON, June 8.—The criminal anarchy act of New York was declared valid and constitutional by the supreme court.

Under the statute the highest court confirmed the conviction of Benjamin Gitlow.

Justice Holmes and Brandeis dissented, the former delivering a dissenting opinion in which he said that the socialist manifesto circulated by Gitlow in "The Revolutionary Age" in 1920 on which the prosecution was based, presented no immediate danger of the overthrow of the government by force.

In the majority opinion, Justice Sanford said the New York statute does not penalize the utterance of abstract "doctrine"; that what it does prohibit "is language advocating, advising or teaching the overthrow of organized government by unlawful means."

Justice Sanford thus described the Gitlow manifesto:—"It advocates and urges in fervent language, mass action and shall progressively foment industrial disturbances and through political means, strike and revolutionary mass action, overthrow and destroy organized parliamentary government."

"The means advocated for bringing about the destruction of organized parliamentary government necessarily imply the use of force and violence, and in their essential nature are inherently unlawful to a constitutional government of law and order."

"That the jury was warranted in finding that the manifesto advocated not merely the abstract doctrine of overthrowing organized government, by force, violence and unlawful means, but action to that end is clear."

The right of the state to punish those who abuse the right to freedom of speech is not open to question.

A federal district court cannot compel a person living in another state to appear in court.

GOBBLERS HOLD FINE RACE MEET ON NEW TRACK

Course With Changes Recently Made Proves to Be Very Fast.

GOOD CROWD PRESENT

Races Very Close and the Crowd Gets Many Thrills During the Day's Program.

(Associated Press Leased Wire.)

The Oakland Gobblers staged their first race meet for the year on the Oakland track Saturday afternoon. The meet was well attended the crowd exceeding the expectations of those in charge. The races were all good and the crowd was greatly pleased with the program.

The first race was a 300 yard match race between Cardwall's "Topsy" and Sam Smith's "Reno." After several bad starts, the horses got away nicely, and ran the full distance almost neck and neck. On the final stretch Reno took the lead and finished about a neck ahead of Topsy. The race was a real thriller and brought the crowd to its feet.

The second race was a 3-8 mile pony race, in which the contestants were all local horses. The race was close from start to finish, and the crowd was given a real exhibition of horse racing in this match. Louis Eggleston's "Polly" finished first, James Soules' "Blue" second and Roy McNabb's "Juniata" third. "Blue" Soules' entry is a colt, appearing in his first race. He made a fine showing, and horsemen predict a wonderful future for the animal.

The third race, a novelty event, also attracted much interest. The horses were required to travel a mile and a half, three laps of the track. The first lap was a walk, the second a trot and the third lap a run.

"Doc Cook" entered by James Soules won first place by almost a quarter mile. The horse was a fast walker, and on the first circuit of the track, left the other contestants far behind. He had a long stride, that put him around the track in almost as good time as he made in trotting the second lap.

The other three horses, "Ginger" by Roy McNabb, "Blue Diamond" by Ed Young, and "Buster" by George McCaslin, all finished in a bunch. "Buster" came in in second place, but was disqualified by the judges for breaking during the first lap. Second money went to "Ginger" and third place to "Blue Diamond."

A 3/8 mile saddle horse race, (Continued on page 3.)

NORWEGIAN EXPEDITION OFF FOR POLAR REGION IN AN ATTEMPT TO RESCUE AMUNDSEN AND PARTY

(Associated Press Leased Wire.)

ABOARD, S. S. INGEBRET, June 8.—At 9:30 this morning the Ingøretre, carrying the Norwegian government's Amundsen relief expedition, was proceeding toward Spitzbergen at her maximum speed of 161 knots per hour.

The seaplanes F-18 and F-22, were slung across the deck ready for service whenever needed. They will be used in searching for the missing explorers who started for the North Pole from Spitzbergen in two flying boats May 21.
